* Data Sets ordered with a Destination Code of 'D', 'F' or 'N' are created with "unzipped" (uncompressed) **and** "zipped" (compressed) versions. Compressed report files can be as much as 95% smaller than the uncompressed file and download proportionally faster. However, once downloaded, the compressed file must be expanded in the local environment (at the agency) using PKUNZIP or other software such as WINZIP. This software is widely available, easy to use and requires only a few minutes to execute.
