Amendments to Various Budget Bill Items and Statutory Changes, Support and Local Assistance, Board of Governors of the California Community Colleges

On March 4, 2020, the Governor declared a state of emergency to help the state prepare and respond to COVID-19. The impact on the state has resulted in a severe drop in economic activity, with corresponding negative effects on anticipated revenues. As a result of these conditions, all budget change proposals were reevaluated within the context of a workload budget based on the merits of each proposal and ultimately subject to the availability of funding.

As a result, the Administration is withdrawing, without prejudice, specified requests within the Board of Governors of the California Community Colleges area that were included in the 2020-21 Governor’s Budget. The Administration is also modifying specified requests in this area that were included in the 2020-21 Governor’s Budget. Modifications could include either reductions or increases to specific items or programs, or delaying substantial implementation of a new program or activity. Withdrawn requests are included on Attachment 1 (see rows 1 through 21). Additional details on modified requests are listed below and on Attachment 1 (see rows 22 through 34). To the extent there are corresponding Budget Bill language or statutory changes to withdrawn or modified proposals, these are detailed in Section 1 of Attachment 2. Although these proposals have substantial merit and may be resubmitted for future consideration, we must pivot to prioritize immediate COVID-19 related needs.

As noted above, pursuant to Budget Letter 20-08, the Department of Finance conducted a thorough assessment of the most critical funding needs within the general framework of workload budget, as defined in Government Code Section 13308.05, and based upon revised expected revenues. This assessment not only resulted in the changes described in the preceding paragraph, but also requires a number of new adjustments and requests that are respectfully submitted and detailed below. Funding detail for these adjustments can be found in Attachment 1 (see rows 35 through 48), and any related Budget Bill or statutory language changes associated with these
adjustments can be found in Section 2 of Attachment 2. If necessary, additional information may be included in a Budget Change Proposal or other back-up documentation submitted to the Legislature.

Finally, after conducting a review of all 2020-21 Governor’s Budget Proposals, a number of requests are being sustained. Funding detail for these adjustments can be found on Attachment 1 (See rows 49 through 63).

**Informational**

Pursuant to Education Code section 84758, Finance is required to notify the Legislature and the Chancellor’s Office of the amount of revenue estimated to be available to community college districts during the next fiscal year from local taxes, exclusive of bond interest and redemption, and timber taxes received.
Finance estimates that property taxes totaling $3,305,140,000 net of excess taxes will be available to offset district apportionments in 2020-21. This estimate excludes $772,000 in estimated timber tax revenues.

Education Code section 84758 also requires Finance to notify the Legislature of the difference between the Chancellor’s Office 2019-20 local property tax estimate, excluding timber taxes, and Finance's 2019-20 property tax estimates as of May 2019, excluding timber taxes.

The Chancellor's Office reported 2019-20 local property taxes of $3,029,477,000, net of excess taxes and excluding timber taxes of $398,000, as of the first principal apportionment payment. Finance’s 2019-20 property tax estimate, as of May 2019, was $3,244,221,000 net of excess taxes and excluding timber taxes of $1,124,000. Therefore, the Chancellor’s Office’s current property tax estimate based on first principal apportionment payments for 2019-20 is $214,744,000 below Finance’s May 2019 estimate.

(2) It is the intent of the Legislature in enacting this section to adopt a formula for general purpose apportionments that encourages access for underrepresented students, provides additional funding in recognition of the need to provide
additional support for low-income students, rewards colleges’ progress on improving student success metrics, and improves overall equity and predictability so that community college districts may more readily plan and implement instruction and programs.

(3) It is the intent of the Legislature to determine the amounts appropriated for purposes of this section through the annual Budget Act. This section shall not be construed as limiting the authority of either the Governor to propose, or the Legislature to approve, appropriations for the California Community Colleges programs or purposes.

(B) Unless otherwise specified in subparagraph (C), each community college district shall receive an allocation based on credit base revenues associated with funded FTES as computed pursuant to subparagraph (A) of paragraph (2) at the rate pursuant to subdivision (c).

(C) Notwithstanding the rate in subdivision (c), for community college districts that had higher rates used to calculate their 2017–18 general purpose apportionments, the following rates shall be used to calculate their base allocations:

(D) Community college districts are entitled to the restoration of any reductions in their base allocation due to decreases in FTES during the three years following the initial year of decrease if there is a subsequent increase in FTES.

(E) For the calculation of the three-year rolling average for the base allocation for the 2020-21 fiscal year, the sum of funded credit FTES for the 2019-20 fiscal year, as adjusted for shifts in summer enrollment between fiscal years, may be used in place of funded credit FTES for the 2020-21 fiscal year.

(3) In addition to the amounts computed pursuant to paragraphs (1) and (2), each community college district shall receive an allocation based on credit base revenues associated with funded FTES generated by students who meet the requirements of subdivision (a) of Section 84810.5 and special admit students

FTES generated by students who meet the requirements of subdivision (a) of Section 84810.5 and special admit students pursuant to Sections 76002, 76003, and 76004 shall be multiplied by a community college district’s applicable credit revenue rate computed for the 2017–18 fiscal year pursuant to Section 84750.5, as that section read on January 1, 2018, as adjusted for 2018–19 fiscal year cost-of-living adjustment and other base adjustments, and adjusted for the changes in the cost-of-living and other base adjustments in subsequent annual budget acts.

(1) The marginal funding rate per point for computing a supplemental allocation shall be as follows:

(A) For the 2018–19 fiscal year, nine hundred nineteen dollars ($919).

(B) For the 2019–20 fiscal year, nine hundred forty-eight dollars ($948), the rate set for this purpose pursuant to subparagraph (B) of paragraph (2) of subdivision (b).

(C) (i) Commencing with the 2020–21 fiscal year, the rate specified in subparagraph (B) adjusted for changes in the cost-of-living adjustment and other base adjustments in subsequent annual budget acts.

(ii) For the calculation of the supplemental allocation for the 2020–21 fiscal year, data from the 2018–19 fiscal year, for the purposes of paragraphs (2), (3), and (4), may be used in place of data from the 2019–20 fiscal year.

(6) It is the intent of the Legislature that the annual Budget Act fully fund increases in the supplemental allocations computed under this section.

(f) Commencing with the 2018–19 fiscal year, a student success allocation shall be computed for each community college district based on the total points
calculated for each community college district in accordance with all of the following:
(1) (A) (i) The marginal funding rate per point for computing student success allocation revenue shall be as follows:
(I) For the 2018–19 fiscal year, four hundred forty dollars ($440).

(ii) (I) Commencing with the 2019–20 fiscal year, to calculate the student success allocation for each community college district, the chancellor’s office shall calculate a three-year rolling average for each metric described in this paragraph. To compute the three-year average for each metric, the chancellor’s office shall compute the sum of data for that metric from the prior year, the year prior to the prior year, and the year prior to the year prior to the prior year, and divide the sum by three.
(II) For the calculation of the three-year rolling average for the student success allocation for the 2020-21 fiscal year, data from the 2018-19 fiscal year, for the purposes of subparagraphs (B), (C), (D), (E), and (F), may be used in place of data from the 2019-20 fiscal year.

(i) Three points for each chancellor’s office approved associate degree or approved baccalaureate degree granted, excluding an associate degree for transfer granted pursuant to Article 3 (commencing with Section 66745) of Chapter 9.2 of Part 40 of Division 5, based on the three-year rolling average for this metric calculated pursuant to clause (ii) of subparagraph (A).
(ii) Four points for each chancellor’s office approved associate degree for transfer degree granted pursuant to Article 3 (commencing with Section 66745) of Chapter 9.2 of Part 40 of Division 5, based on the three-year rolling average for this metric calculated pursuant to clause (ii) of subparagraph (A).
(iii) (I) Two points for each chancellor’s office approved credit certificate requiring 18 or more units granted, based on the three-year rolling average for this metric calculated pursuant to clause (ii) of subparagraph (A).
(II) Chancellor’s office approved credit certificates requiring 16 or more units granted may be used to compute these points if the chancellor’s office adopts regulations authorizing the approval and issuance of certificates requiring 16 or more units.
(C) Each community college district shall be granted two points for each student who successfully completes both transfer-level mathematics and English courses within the student’s first academic year of enrollment, based on the three-year rolling average for this metric calculated pursuant to clause (ii) of subparagraph (A).
(D) (i) Each community college district shall be granted one and one-half points for each student who successfully transfers to a four-year university, based on the three-year rolling average for this metric calculated pursuant to clause (ii) of subparagraph (A).

(ii) The chancellor’s office may reduce a community college district’s transfer points if a community college district enters into, or expands, a transfer partnership with a private for-profit college that has not demonstrated a track record of providing its students with a baccalaureate degree that leads to a majority of the private for-profit college’s baccalaureate degree program students obtaining a regional living wage within one year of completing their degree program.

(iii) The chancellor’s office may reduce a community college district’s transfer points if a community college district enters into, or expands, a transfer partnership with a private for-profit college that does not meet the qualifications to offer its students federal financial aid.

(iv) (I) For the 2018–19 fiscal year, the data for this metric shall be compiled using publicly available data on transfer students to in-state private and out-of-state institutions, based upon the definition of transfer students reflected in the Transfer Volume to In-State Private and Out-of-State Baccalaureate Granting Institutions Report from the community college management information system as of January 1, 2019, publicly reported transfer data from the California State University, and publicly reported transfer data from the University of California.

(ii) Commencing with the 2019–20 fiscal year, the data for this metric shall be based upon a student meeting the following criteria:

(a) The student has an enrollment record in a community college district in the year prior to the prior year.

(b) The student has completed 12 or more semester units, or the equivalent, systemwide through the end of the prior year.

(c) The student does not have an enrollment record systemwide in the prior year.

(d) The student enrolled in a four-year university in the prior year.

(e) The student has completed 12 or more semester units, or the equivalent, in the community college district in the year prior to the prior year.

(E) Each community college district shall be granted one point for each student who successfully completes nine or more career technical education units, based on the three-year rolling average for this metric calculated pursuant to clause (ii) of subparagraph (A).

(F) Each community college district shall be granted one point for each student who obtains a regional living wage within one year of community college completion, based on the three-year rolling average for this metric calculated pursuant to clause (ii) of subparagraph (A).

(2) (A) (i) Each community college district shall also be granted additional points for an equity component of the student success allocation. The marginal funding per point for the equity component of the student success allocation revenue shall be as follows:

(I) For the 2018–19 fiscal year, one hundred eleven dollars ($111).

(II) For the 2019–20 fiscal year, one hundred forty-one dollars ($141), the rate set for this purpose pursuant to subparagraph (C) of paragraph (2) of subdivision (b).
Commencing with the 2020–21 fiscal year, the rate specified in subclause (II) adjusted for changes in the cost-of-living adjustment and other base adjustments in subsequent annual budget acts.

Commencing with the 2019–20 fiscal year, to calculate the equity component of the student success allocation for each community college district, the chancellor’s office shall calculate a three-year rolling average for each metric described in this paragraph. To compute the three-year average for each metric, the chancellor’s office shall compute the sum of data for that metric from the prior year, the year prior to the prior year, and the year prior to the year prior to the prior year, and divide the sum by three.

For the calculation of the three-year rolling average for the equity component of the student success allocation for the 2020-21 fiscal year, data from the 2018-19 fiscal year, for the purposes of subparagraphs (B) and (C), may be used in place of data from the 2019-20 fiscal year.

Each community college district shall receive points for a student who received a fee waiver pursuant to Section 76300 and generated points for any of the metrics described in paragraph (1), based on the three-year rolling average for this metric calculated pursuant to clause (ii) of subparagraph (A). For each student identified pursuant to this subparagraph, the community college district shall receive the number of points equal to the number of points that the community college was granted for that student for each of the metrics described in paragraph (1).

Each community college district shall receive points for a student who received financial aid under the Federal Pell Grant program (20 U.S.C. Sec. 1070a) and generated points for any of the metrics described in paragraph (1), based on the three-year rolling average for this metric calculated pursuant to clause (ii) of subparagraph (A).

Each community college district shall receive, for each student identified pursuant to clause (i), points for one of the following, with the community college district receiving points based on the outcome that would generate the highest number of points and with the points counted only if the student was enrolled in the community college district in the academic year in which the award was granted:

- Four and one-half points for each chancellor’s office approved associate degree or approved baccalaureate degree granted, excluding an associate degree for transfer granted pursuant to Article 3 (commencing with Section 66745) of Chapter 9.2 of Part 40 of Division 5, based on the three-year rolling average for this metric calculated pursuant to clause (ii) of subparagraph (A).
- Six points for each chancellor’s office approved associate for transfer degree granted pursuant to Article 3 (commencing with Section 66745) of Chapter 9.2 of Part 40 of Division 5, based on the three-year rolling average for this metric calculated pursuant to clause (ii) of subparagraph (A).
- Three points for each chancellor’s office approved credit certificate requiring 16 or more units granted, based on the three-year rolling average for this metric calculated pursuant to clause (ii) of subparagraph (A).

Each community college district shall receive, for each student identified pursuant to clause (i), the number of points equal to the following:
(I) Three points for each student who successfully completes transfer-level mathematics and English courses within the student’s first academic year of enrollment, based on the three-year rolling average for this metric calculated pursuant to clause (ii) of subparagraph (A).

(II) Two and one-quarter points for each student who successfully transfers to a four-year university, based on the three-year rolling average for this metric calculated pursuant to clause (ii) of subparagraph (A).

(III) One and one-half points for each student who successfully completes nine or more career technical education units, based on the three-year rolling average for this metric calculated pursuant to clause (ii) of subparagraph (A).

(IV) One and one-half points for each student who obtains a regional living wage within one year of community college completion, based on the three-year rolling average for this metric calculated pursuant to clause (ii) of subparagraph (A).

(3) It is the intent of the Legislature that the annual Budget Act fully fund increases in the student success allocations computed under this section.

(g) To establish a hold harmless protection for community college districts pursuant to the funding allocation established in this section, a minimum funding level for all community college districts shall be computed as follows:

(1) For the 2018–19 and 2019–20 fiscal years, a level of funding to ensure that all community college districts receive at a minimum the total computational revenue the district received in the 2017–18 fiscal year, defined as a district’s final entitlement for general purpose apportionment based on FTES and the number of colleges and comprehensive centers the district operates.

(2) Commencing with the 2020–21 fiscal year, and each year thereafter, community college districts shall receive the higher of (A) the funding level determined by the formula established in this section, or (B) the level of funding determined by multiplying the community college district’s new FTES by the associated credit, noncredit, and career development and college preparation rate received by the district in the 2017–18 fiscal year. The level of funding shall be adjusted to include a basic allocation based on the number of colleges and comprehensive centers in the district consistent with the basic allocation rates used in the 2017–18 fiscal year.

(3) (A) From the 2019–20 fiscal year to the 2025-26 fiscal year, inclusive, for the San Francisco Community College District and the Compton Community College District, the rates for computing the hold harmless provisions pursuant to paragraphs (1) and (2) shall be multiplied each year by the cost-of-living adjustment identified in the annual Budget Act and adjusted for increases to FTES. The level of funding for the San Francisco Community College District and the Compton Community College District shall be adjusted to include a basic allocation based on the number of colleges and comprehensive centers in the district consistent with the basic allocation rates used in the 2017–18 fiscal year multiplied by the 2018–19 fiscal year cost-of-living adjustment, and adjusted for changes in the cost-of-living in subsequent annual budget acts. The intent of these adjustments is to provide the San Francisco Community College District and the Compton Community College District with the greater of the amount that would have been calculated pursuant to the requirements of Section 84750.5, as that section read on January 1, 2018, adjusted for annual changes in
the cost-of-living adjustment identified in the annual Budget Act and adjusted for increases in FTES, or the amount computed pursuant to the funding formula established in this section.

(B) For purposes of computing the FTES attributable to this paragraph and subdivision (d), for seven-five fiscal years beginning in the 2017–18 fiscal year, the San Francisco Community College District shall be entitled to restoration of any reduction in apportionment revenue due to decreases in FTES, up to the level of attendance of FTES funded in the 2012–13 fiscal year, if there is a subsequent increase in FTES.

(C) (i) For purposes of computing the FTES attributable to this paragraph and subdivision (d), for seven-five fiscal years beginning in the fiscal year the Compton Community College District is accredited under the governing authority of the Board of Trustees of the Compton Community College District, the board of governors shall provide allocations to the Compton Community College District in an amount not less than the total amount that the district would receive if the level of attendance of FTES was the same level of attendance as in the 2017–18 fiscal year. The amount shall be adjusted to reflect cost-of-living adjustments, deficits in apportionments, or both, as appropriate for the applicable fiscal years.

(ii) For purposes of computing the FTES attributable to this paragraph and subdivision (d), for five fiscal years beginning in the fiscal year the Compton Community College District is accredited under the governing authority of the Board of Trustees of the Compton Community College District, the Compton Community College District shall be entitled to restoration of any reduction in apportionment revenue due to decreases in FTES, up to the level of attendance of FTES funded in the 2017–18 fiscal year, if there is a subsequent increase in FTES.

(iii) In computing statewide entitlements to funding based upon the attendance of FTES, the Compton Community College District shall not be credited with more FTES than were actually enrolled and in attendance.

(4) (A) Commencing with the 2020–21 fiscal year, decreases in a community college district’s total revenue computed pursuant to the sum of subdivisions (d), (e), and (f), or computed pursuant to this subdivision shall result in the associated reduction beginning in the year following the initial year of decreases, adjusted for changes in the cost-of-living adjustment.

(B) For the 2019–20 fiscal year, a community college district’s total revenue computed pursuant to the sum of subdivisions (d), (e), and (f), or computed pursuant to this subdivision shall be no less than its 2017–18 general purpose apportionment funding computed pursuant to Section 84750.5 adjusted for the cost-of-living adjustments for fiscal years 2018–19 and 2019–20.

(h) For the fiscal years 2018–19 to 2023-24, inclusive, each community college district whose increase in 2017–18 general purpose apportionment funding computed pursuant to Section 84750.5, compared to apportionment funding computed pursuant to this section, is less than the year-over-year cost-of-living adjustments applicable to those fiscal years, shall receive discretionary resources in an amount needed to ensure that the community college district receives no less than its 2017–18 general purpose apportionment funding computed pursuant to Section 84750.5 adjusted for annual year-over-year cost-of-living adjustments.
(j) The board of governors shall develop the criteria and standards within the statewide minimum requirements established pursuant to this section.

(j) (1) Except as specifically provided in statute, regulations of the board of governors for determining and allocating the state general apportionment to the community college districts shall not require community college district governing boards to expend the allocated revenues in specified categories of operation.

(2) Except as otherwise provided by statute, current categorical programs providing direct services to students, including extended opportunity programs and services, and disabled student programs and services, shall continue to be funded separately through the annual Budget Act, and shall not be assumed under the budget formula otherwise specified by this section.

(k) It is the intent of the Legislature to allow for changes to the criteria and standards developed pursuant to subdivisions (a) and (h) in order to recognize increased operating costs and to improve instruction.

(l) Notwithstanding Subchapter 1 (commencing with Section 51000) of Chapter 2 of Division 6 of Title 5 of the California Code of Regulations and Section 84751, the chancellor shall allocate the ongoing funds first appropriated to paragraph (1) of subdivision (e) of provision (2) of Item 6870-101-0001 of Section 2.00 of the Budget Act of 2015 (Chapters 10 and 11 of the Statutes of 2015) to all community college districts, including districts that have offsetting local revenues that exceed the funding calculated pursuant to the district’s budget formula, on a per FTES basis by modifying each district’s budget formula pursuant to this section. Any revisions to the budget formula made for the purposes of this subdivision shall be made and reported consistent with the requirements of subdivision (i).

(m) (1) (A) The governing board of each community college district shall certify it will do all the following, no later than January 1, 2019:

(i) Adopt goals for the community college district that meet the following requirements:

(I) Are aligned with the systemwide goals identified in the Vision for Success, which were adopted by the Board of Governors of the California Community Colleges in 2017.

(II) Are measurable numerically.

(III) Specify the specific timeline for achievement.

(ii) For the meeting when the goals are considered for adoption, include in the written agenda an explanation of how the goals are consistent and aligned with the systemwide goals.

(iii) Submit the written item and summary of action to the chancellor’s office.

(B) The chancellor’s office shall make available guidance to assist governing boards of community college districts in meeting the requirements of this section. The funds apportioned to a community college district pursuant to this section, and for excess tax districts, the Student Equity and Achievement Program, shall be available to implement the activities required pursuant to this paragraph.

(2) Each community college district shall align its comprehensive plan pursuant to paragraph (9) of subdivision (b) of Section 70901 with the adopted local plan goals and align its budget with the comprehensive plan. The funds apportioned to a community college district pursuant to this section, and for excess tax
districts, the Student Equity and Achievement Program, shall be available to implement the activities required pursuant to this paragraph.

(3) If a community college district is identified as needing further assistance to make progress towards achieving specified goals, the chancellor’s office, with the approval from the board of governors, may direct the community college district to use up to 1 percent of the district’s apportionments allocation on technical assistance and professional development to support efforts to meet the district’s efforts towards their goals.

(4) (A) The chancellor’s office shall develop processes to monitor the approval of new awards, certificates, and degree programs. The chancellor’s office shall also develop a process to monitor the number of students who transfer to for-profit postsecondary educational institutions and report on the growth of transfer to these institutions compared to four-year public postsecondary educational institutions.

(B) The chancellor’s office shall also develop minimum standards, in consultation with the oversight committee established pursuant to Section 84750.41, for the approval of certificates and awards that would count towards the funding formula pursuant to this section.

(C) The board of governors shall include instructions in the audit report required by Section 84040 related to the implementation of the funding formula pursuant to this section. The chancellor may require a community college district to repay any funding associated with an audit exception identified in a community college district’s audit report pursuant to this subparagraph.

(5) Notwithstanding Section 10231.5 of the Government Code, on or before October 15, 2019, and each year thereafter, the chancellor’s office shall report to the Legislature, consistent with Section 9795 of the Government Code, on the course sections and FTES added at each community college that received apportionment growth funding in the prior fiscal year, including the number of course sections and if any course sections and FTES were added that are within the primary missions of the segment and those that are not within the primary missions of the segment.

(6) (A) On or before July 1, 2022, the chancellor’s office shall report to the Legislature and the Department of Finance, consistent with Section 9795 of the Government Code, a description on how community college districts are making progress on advancing the goals outlined in the system’s strategic vision plan.

(B) The requirement for submitting a report imposed under subparagraph (A) is inoperative on July 1, 2026, pursuant to Section 10231.5 of the Government Code.

(n) For purposes of this section, the following terms have the following meanings:
(1) “Career development and college preparation” means courses in programs that conform to the requirements of Section 84760.5.

(3) “Primary missions of the segment” means credit courses and those noncredit courses specified in paragraphs (2) to (6), inclusive, of subdivision (a) of Section 84757.
(n) (1) Notwithstanding the computations required by this section, if funding for general purpose apportionments is reduced in the annual Budget Act by a specified amount, the chancellor’s office shall proportionally reduce each district’s apportionments allocation by reducing the funding rates, revenue protections pursuant to subdivisions (g) and (h), or any combination thereof as is necessary to proportionally reduce each district’s apportionments allocation.
(2) For purposes of paragraph (1), the chancellor’s office shall not implement a specified reduction by reducing the number of funded FTES served by a district.
(3) For purposes of paragraph (1), the proportional reduction for an excess tax district shall be achieved by reducing the amount of funding received by the applicable district from any other categorical program funding.”

7. **Streamlining Support and Technical Assistance for Community Colleges.** To effectuate this proposal, it is requested that statute submitted with the Governor’s Budget be amended to read (Revisions to the proposed Governor’s Budget language are bolded):

“SEC. 1. Section 69648.5 of the Education Code is repealed.

(3) The Board of Governors of the California Community Colleges may require districts or colleges to provide a local fund match for funding appropriated for purposes of this section. (4) The chancellor shall provide guidance to districts regarding eligible expenditures and activities and integrated planning to ensure funding for the Student Equity and Achievement Program is used to support the goal of

SEC. 3. Section 78261 of the Education Code is amended to read:

“78261. (a) The Legislature finds and declares both of the following:

(1) The Legislature intends to facilitate both the expansion of associate degree nursing programs and the improvement in completion rates in those programs.

(2) The Legislature also intends that community colleges employ nationally recognized diagnostic assessment tools that are aligned with national nursing licensure requirements. Both students and the state benefit when diagnostic assessments are supplemented with educational opportunities to assist students in meeting skill levels.

(b) It is the intent of the Legislature to create a Nursing Enrollment Growth and Retention program in the Chancellor's Office of the California Community Colleges. The purpose of this program shall be to provide grants to community college associate degree of nursing programs that meet either of the following conditions:

(1) The nursing program has low or moderate program attrition levels.

(2) The nursing program provides a comprehensive program of diagnostic assessment, prenursing preparation, and program-based support to students.

(c) [4] It is the intent of the Legislature that this program shall be funded, beginning in the 2006–07 fiscal year, by a redirection of the ten million dollars ($10,000,000) provided annually pursuant to the Budget Act of 2005, along with an additional investment of two million eight hundred eighty-six thousand
dollars ($2,886,000) annually, for a total program budget of twelve million eight hundred eighty-six thousand dollars ($12,886,000) annually. Unencumbered funds that were appropriated in the Budget Act of 2005 may be used for capacity building and equipment in the 2006-07 fiscal year. (2) Up to 3 percent of the funds appropriated for this program may be used for statewide administration, program development, program evaluation, and program accountability. As used in this paragraph, "program development" includes, but is not necessarily limited to, activities related to partnerships or collaborations between community colleges and institutions of higher education offering baccalaureate degrees in order to increase the number of students completing bachelor of the science of nursing (BSN), master of the science of nursing (MSN), and master's entry programs in nursing (MEPN) courses of study. (d) The Board of Governors of the California Community Colleges may award grants to community college districts with associate degree nursing programs to expand enrollment, reduce program attrition, or both. Funds shall be used only for the following purposes: expanding enrollment, providing diagnostic assessments, and offering preentry coursework to prospective nursing students and diagnostic assessments and supportive services to enrolled nursing students. For purposes of this section, supportive services include, but are not necessarily limited to, tutoring, case management, mentoring, and counseling services. Funds may also be used to develop alternative delivery models such as part-time, evening, weekend, and summer program offerings. In order to qualify for these funds, a community college associate degree nursing program shall do either of the following: (1) Have a program attrition rate, as determined by the Board of Registered Nursing's Annual School Report or the Information Program Data System of the Chancellor's Office of the California Community Colleges, of 15 percent or less for the year prior to application for funding. (2) Commit to implement a comprehensive program of diagnostic assessment, prenursing enrollment preparation, and program-based support to enrolled students, as defined in this article. (e) Notwithstanding Section 78213 or any other provision of law, prior to awarding any funds to be used for reducing program attrition, the chancellor's office shall do all of the following: (1) Identify, in collaboration with community college associate degree nursing programs, nationally recognized diagnostic assessment tools that determine the likelihood of academic success in community college registered nursing education programs. (2) Establish, in collaboration with community college associate degree nursing programs, the system wide proficiency level necessary for academic success for each diagnostic assessment tool. (3) Define the kinds of educational and support services that qualify for funding under this program. (f) As a condition of receiving grants under paragraph (2) of subdivision (d), a community college district shall, at a minimum, do all of the following: (1) Utilize diagnostic assessment tools prior to enrollment to determine readiness for community college associate degree nursing programs.
(2) Offer, or identify, educational preentry coursework, including, but not necessarily limited to, tutorials, instructional resources, or noncredit instruction, aligned to the entry-level nursing standards and curriculum for students who fail to demonstrate readiness based upon the diagnostic assessment tools.

(3) Provide access to prenursing coursework for all students who do not demonstrate readiness based upon the diagnostic assessment tools.

(4) Require that students demonstrate readiness through the diagnostic assessment or successful completion of the prenursing coursework specified above prior to commencing the registered nursing program.

(5) Ensure that students that participate in educational preentry coursework in order to demonstrate readiness based upon the diagnostic assessment tools are not disadvantaged in the program enrollment process.

(g) As a condition of receiving grant funds pursuant to paragraph (2) of subdivision (d), each recipient district shall report to the chancellor's office the following data for the academic year on or before a date determined by the chancellor's office:

1. The number of students enrolled in the nursing program.
2. The number of students taking diagnostic assessments.
3. The number of students failing to meet proficiency levels as determined by diagnostic assessment tools.
4. The number of students failing to meet proficiency levels that undertake preentry preparation classes.
5. The number of students who successfully complete preentry preparation coursework.
6. The average number of months between initial diagnostic assessment, demonstration of readiness, and enrollment in the nursing program for students failing to meet proficiency standards on the initial diagnostic assessment.
7. The average number of months between diagnostic assessment and program enrollment for students meeting proficiency standards on the initial diagnostic assessment.
8. The number of students who completed the associate degree nursing program and the number of students who pass the National Council Licensure Examination (NCLEX).

(h) (1) Data reported to the chancellor under this article shall be disaggregated by age, gender, ethnicity, and language spoken at home.
2. The chancellor's office shall compile and provide this information to the Legislature and the Governor by March 1 of each year.

(i) It is the intent of the Legislature that, pursuant to funding to be provided in the annual Budget Act, in the 2009-10 academic year, the California Community Colleges should increase the statewide enrollment of full-time equivalent registered nursing students by 450 and, beginning in the 2010-11 academic year and continuing each academic year thereafter, add 900 new full-time equivalent registered nursing students.

SEC. 4. Section 79228 of the Education Code is repealed.
79228. The board of governors may authorize the chancellor, consistent with the requirements the board may impose, to designate up to 2 percent of the funds allocated pursuant to this article for program administration.

SEC. 5. Section 79229 of the Education Code is repealed.

79229. The board of governors may authorize the chancellor, consistent with the requirements the board may impose, to designate up to 3 percent of the funds allocated pursuant to this article for program development and program accountability.

SEC. 6. Part 48.5 (commencing with Section 79750) is added to Division 7 of Title 3 of the Education Code, to read:

Part 48.5. California Community Colleges System Support Program

79750. (a) The California Community Colleges System Support Program is hereby established.

(b) The Legislature finds and declares all of the following:
(1) The state has historically provided funding to support systemwide technical assistance set-asides and systemwide initiatives for the development, implementation, and evaluation of community college programs.
(2) Many of these supports and initiatives have been established independently of one another, creating a patchwork of supports and technical assistance for the system's community colleges that are not well-coordinated and may not address the system's most pressing needs.
(3) Consolidating systemwide technical assistance set-asides and initiatives can provide for enhanced coordination and delivery of systemwide technical assistance or initiatives to meet the evolving needs of the community college system.
(c) (1) It is the intent of the Legislature that this program supports the achievement of strategic policy goals adopted by the board of governors, including supporting student access and success for all students, and closing achievement gaps for underrepresented students.
(2) It is also the intent of the Legislature that to the extent this program achieves savings from administrative efficiencies and leveraging of services, those savings will be used to increase levels of service consistent with the objectives of the Vision for Success and adjusted for the overall program appropriation level.

(c) The regulations adopted by the board of governors shall provide for the apportionment of funds to each community college district to offset the direct excess cost of providing specialized support services or instruction, or both, to disabled students enrolled in state-supported disabled student services programs or courses. Direct excess costs are those actual fixed, variable, and one-time costs, as defined in Section 67311, which exceed the combined total of the following:

SEC. 8. Section 88825 of the Education Code is amended to read:

"88825. (a) This section applies to the Community College component only, and applies commencing with the 2017-18 fiscal year.

(b) To promote the success of community college students and the career technical education programs that serve them, up to 5 percent of the funds appropriated for the Community College component may be allocated by the Board of Governors of the California Community Colleges to a community college district for statewide activities to improve and administer the program, including the facilitation of system, program, and data alignment at the state and regional levels and the implementation of the 25 recommendations presented to the board of governors on January 19 and 20, 2016, by the Strong Workforce Task Force. The chancellor's office shall consult with the California Workforce Development Board and other appropriate state agencies on the development of all statewide activities that would be implemented by the selected district to facilitate broader workforce and education system alignment. Statewide coordination activities funded out of this allocation may include, but are not limited to, the following activities:

(1) State level coordination for the development of labor market analyses pertaining to economic and industry trends and jobs projections for the purpose of supporting common regional planning efforts and the alignment of career technical education program offerings with regional labor market dynamics.

(7) Leveraging allocated funds with state and local partners through interagency agreements, memorandums of understanding, or other appropriate mechanisms.

(b) (1) Forty percent of the funds apportioned for the Community College component of the program shall be apportioned directly to the fiscal agent of the consortium for the purpose of funding regionally prioritized projects and
programs that meet the needs of local and regional economies, as identified in regional plans and Workforce Innovation and Opportunity Act (Public Law 113-128) regional plans.

(2) Sixty percent of the funds apportioned for the Community College component of the program shall be apportioned directly to community college districts in the consortium. Funds apportioned directly to a community college district shall be expended for the purpose of funding regionally prioritized projects and programs within the community college district that meet the needs of local and regional economies, as identified in regional plans and Workforce Innovation and Opportunity Act (Public Law 113-128) regional plans. As a condition of receiving direct funding, each community college district shall actively participate in its consortium.

(c) The allocation of funds to a consortium shall be based on a schedule determined by the chancellor's office and is effective for the four years of each plan cycle. Within the four-year plan cycle, this schedule may be altered to reflect changes in the statewide allocation for the program as appropriated in the annual Budget Act.

(d) The chancellor's office shall provide to the Department of Finance and the Legislative Analyst's Office its recommendations for the allocation of funds available for each consortium no later than August 30 of each year. The department shall approve the allocation plan before the release of funding.

(1) For each four-year plan cycle, the chancellor's office shall determine the amount of funds to be allocated to each consortium based on the following weighted factors in each region:

(A) The unemployment rate. This factor shall comprise 33 percent of the allocation formula.

(B) The proportion of career technical education full-time equivalent students. This factor shall comprise 33 percent of the allocation formula.

(C) The proportion of projected job openings. This factor shall comprise 17 percent of the allocation formula.

(D) The proportion of successful workforce outcomes as evidenced by the performance accountability measures of the federal Workforce Innovation and Opportunity Act (Public Law 113-128). This factor shall comprise 17 percent of the allocation formula.

(2) For each four-year plan cycle, the chancellor's office shall determine the amount of funds to be allocated directly to each community college district within a consortium based on the weighted factors, specified in subparagraphs (A) to (D), inclusive, of paragraph (1), in each district within the region.

(f) A consortium shall allocate funds in accordance with its plan and only to community college districts. Decisions governing, or relating to, the distribution of the consortium's fiscal resources shall be determined exclusively by the community college districts participating in the consortium.

(g) As a condition of receipt of funds under this section, a participating community college district shall comply with all of the following:

(1) Be a member of a consortium.
(2) Participate in regional planning efforts formed pursuant to the federal Workforce Innovation and Opportunity Act (Public Law 113-128) and other efforts that align workforce, employment, and education services.

(3) Work with other consortium members to create and submit a plan to the chancellor's office by January 31 of every fourth year of a four-year plan cycle.

(4) Provide accessible performance and labor market data that can be used by community college districts and their regional partners to support the implementation of the program and any related efforts to align regional workforce and education programming with regional labor market needs, including, but not limited to, regional planning efforts established pursuant to the federal Workforce Innovation and Opportunity Act (Public Law 113-128).

(5) Include interested public universities and local educational agencies in regional planning.

(6) Certify that the use of funds will meet the intent of the program to accomplish all of the following:

(A) Increase the number of students in quality career technical education courses, programs, and pathways that will achieve successful workforce outcomes.

(B) Increase the number of quality career technical education courses, programs, and pathways that lead to successful workforce outcomes, or invest in new or emerging career technical education courses, programs, and pathways that may become operative in subsequent years and are likely to lead to successful workforce outcomes.

(C) Address recommendations from the Strong Workforce Task Force, including the recommended provision of student services related to career exploration, job readiness and job placement, and work-based learning.

(i)-(h) Funds appropriated to community college districts for the program shall supplement, not supplant, existing funding of community college career technical education programs. This subdivision shall not be interpreted to mean that a participating community college district is prohibited from eliminating or altering existing programs, but the percentage of that community college district's total full-time equivalent students enrolled in career technical education courses relative to the total full-time equivalent students enrolled in the district shall not be reduced from the percentage computed for the 2015-16 fiscal year.

(j)-(l) Programs, courses, or instructional materials developed using funding from the program may be made available to all community college districts, as appropriate, through the online clearinghouse of information created as part of the Institutional Effectiveness Partnership Initiative."
