Amendment to and Addition of Various Budget Bill Items and Statutory Changes, Support, Local Assistance, and Capital Outlay, Natural Resources Agency Departments

On March 4, 2020, the Governor declared a state of emergency to help the state prepare and respond to COVID-19. The impact on the state has resulted in a severe drop in economic activity, with corresponding negative effects on anticipated revenues. As a result of these conditions, all budget change proposals were reevaluated within the context of a workload budget based on the merits of each proposal and ultimately subject to the availability of funding.

As a result, the Administration is withdrawing, without prejudice, specified requests within the Natural Resources area that were included in the 2020-21 Governor’s Budget. The Administration is also modifying specified requests in this area that were included in the 2020-21 Governor’s Budget. Modifications could include either reductions or increases to specific items or programs, or delaying substantial implementation of a new program or activity. Withdrawn requests are included on Attachment 1 (See rows 1 through 39). Additional details on modified requests are listed below and on Attachment 1 (See rows 40 through 50). To the extent there are corresponding Budget Bill language for withdrawn or modified proposals, these are detailed in Section 1 of Attachment 2. Although these proposals have substantial merit and may be resubmitted for future consideration, we must pivot to prioritize immediate COVID-19 related needs.

As noted above, pursuant to Budget Letter 20-08, the Department of Finance conducted a thorough assessment of the most critical funding needs within the general framework of a workload budget, as defined in Government Code Section 13308.05, and based upon revised expected revenues. This assessment not only resulted in the changes described in the preceding paragraph, but also requires a number of new adjustments and requests that are respectfully submitted and detailed below. Funding detail for these adjustments can be found in Attachment 1 (See rows 51 through 135), and any related Budget Bill changes associated with these adjustments can be found
in Section 2 of Attachment 2. If necessary, additional information may be included in a Budget Change Proposal or other back-up documentation submitted to the Legislature.

Finally, after conducting a review of all 2020-21 Governor's Budget Proposals, a number of requests are being sustained. Funding detail for these adjustments can be found on Attachment 1 (See rows 136 through 205).

Modified Governor's Budget Proposals:

Natural Resources Agency: Modify Natural Resources Agency New Facility Relocation—It is requested that Item 0540-001-0001 be decreased by $4,823,000 to reduce the level of resources associated with the agency's move to a new facility. The agency's relocation will be evaluated consistent with the Administration's proposal to make state government more efficient through workforce telework opportunities that may result in the restacking of state offices. It is also requested that budget bill language be added requiring the use of funding be contingent on the completion of this evaluation. (See row 40 of Attachment 1 and Section 1 of Attachment 2)

Department of Forestry and Fire Protection: Modification of Wildfire Mitigation Financial Assistance Pilot Program and Defensible Space (AB 38)—It is requested that Item 3540-001-0001 be decreased by $933,000 and 3 positions associated with the Wildfire Mitigation Financial Assistance Pilot Program. However, it is also requested that $8,314,000 Greenhouse Gas Reduction Fund and 26 positions be maintained for CAL FIRE to meet other requirements of the legislation, including addressing workload related to defensible space compliance documentation requirements for home sellers in High and Very Fire Hazard Severity Zones, and assisting the California Natural Resources Agency with completing a regional forest health and fire prevention capacity review. (See row 42 of Attachment 1)

Department of Forestry and Fire Protection (CAL FIRE): Modification of Forest Resources Improvement Fund Expenditure Authority Re-Baseline—It is requested that Item 3540-001-0928 be decreased by $3,033,000, consistent with the withdrawal of various funding augmentations, without prejudice, that were included in the Governor's Budget. However, the Administration is proposing to retain clean-up statutory changes included in the Governor’s Budget to clarify the conditions under which required transfers from the Forest Resources Improvement Fund to the General Fund should occur. (See row 41 of Attachment 1)

Department of Forestry and Fire Protection: Modification of Fire Protection Enhancements: Relief Staffing—Over the past several years, the state has experienced unprecedented increases in wildfire activity driven by climate change. For these reasons, the May Revision maintains the $85.7 million General Fund ($135.1 million ongoing) proposed in the Governor’s Budget, which will be targeted towards phasing-in permanent firefighting positions to provide CAL FIRE with operational flexibility throughout the peak fire season and beyond as fire conditions dictate. The May Revision modifies the Governor’s Budget proposal by eliminating the proposed
non firefighter positions and various one-time investments, and instead dedicates the full amount of the proposed funding to firefighting positions.

Given urgent needs associated with preparing for the upcoming 2020 fire season, CAL FIRE will utilize the funding proposed for fiscal year 2020-21 to support the use of seasonal firefighters and other surge capacity resources, and begin the phase-in of permanent firefighting staff later in 2020-21. CAL FIRE will continue to phase in permanent firefighting positions in the coming fiscal years, and leverage the additional funding for surge capacity resources, as needed, to enhance its firefighting operations until all permanent positions are phased-in. (See row 43 of Attachment 1)

State Lands Commission: Modification of Increased Lease Costs—It is requested that Item 3560-001-0001 be decreased by $3,778,000, Item 3560-001-0212 be decreased by $406,000, and Item 3560-001-0347 be decreased by $222,000, for a total reduction of $4,406,000, to remove funding dedicated towards restacking and tenant improvement costs. (See row 44 of Attachment 1 and Section 1 of Attachment 2)

State Lands Commission: Modification of Oil and Gas Decommissioning: Environmental Review and Feasibility Study—It is requested that Item 3560-001-0001 be decreased by $2.5 million to reflect shifting funding for the South Ellwood Project’s environmental review and feasibility study to 2021-22. (See row 45 of Attachment 1 and Section 1 of Attachment 2)

State Lands Commission: Modification of Administrative Support Staffing—It is requested that Item 3560-001-0001 be decreased by $739,000 and 4 positions to reflect a decrease in General Fund resources for this proposal. (See row 46 of Attachment 1)

Department of Fish and Wildlife: Modification of Advancing Biodiversity Protection, Operational Modernization, and Regulatory Efficiencies—It is requested that Item 3600-001-0001 be decreased by $32,651,000 and 53 positions to reduce the level of resources requested in the Governor’s Budget. This modified proposal prioritizes land management activities and an initiative to cut green tape. (See row 47 of Attachment 1)

Native American Heritage Commission: Modification of Truth and Healing Council—It is requested that Item 3780-001-0140 be decreased by $350,000 to implement the Governor’s Budget proposal for the Truth and Healing Council with a modified level of resources of $100,000. (See row 48 of Attachment 1)

Department of Water Resources: Modification of Flood Planning Resourcing—It is requested that Item 3860-001-0001 be decreased by $2,283,000 and Item 3860-001-6088 be increased by $2,089,000 to shift the funding source from the General Fund to Proposition 68 bond funds at a decreased level to continue supporting workload associated with statutory updates to the Central Valley Flood Protection Plan. (See row 49 of Attachment 1)

Delta Stewardship Council: Modify Delta Plan Implementation—It is requested that Item 3885-001-0140 be decreased by $490,000 and 3 positions to reduce the level of
resources while still providing support for the statutory requirements for the implementation of the Delta Plan. (See row 50 of Attachment 1 and Section 1 of Attachment 2)

New Requests for May Revision:

Natural Resources Agency: Biological Opinions Litigation—It is requested that Item 0540-001-0001 be increased by $515,000 for litigation costs associated with the release of the federal biological opinions. (See row 55 of Attachment 1)

Natural Resources Agency: Salton Sea Management Plan Operations—It is requested that Item 0540-001-6088 be increased by 2 permanent positions to support increased workload associated with implementation of the Salton Sea Management Plan. (See row 54 of Attachment 1)

Natural Resources Agency: Loan from the Environmental Enhancement and Mitigation Program Fund to the General Fund—It is requested that Item 0540-011-0183 be added to authorize a $17 million loan from the Environmental Enhancement and Mitigation Program Fund to the General Fund. It is also requested that provisional language be added to authorize repayment of all or a portion of the loan under specified circumstances. (See row 127 of Attachment 1 and Section 2 of Attachment 2)

Natural Resources Agency: Proposition 84, Continuation of San Joaquin River Restoration Project—It is requested that Item 0540-101-6051 be added in the amount of $12,013,000 with extended encumbrance through June 30, 2023 to support continued restoration of the San Joaquin River. (See row 53 of Attachment 1 and Section 2 of Attachment 2)

Natural Resources Agency: Reappropriations—It is requested that Item 0540-490 be added to reappropriate the balances of funds from various support and local assistance appropriations, with funding available for encumbrance or expenditure until June 30, 2023. This will provide additional time for project completion and the funding to be spent for the same purposes for which the funds were originally appropriated. (See row 51 of Attachment 1 and Section 2 of Attachment 2)

Natural Resources Agency: Extension of Liquidations—It is requested that Item 0540-491 be added to extend the liquidation period for various local assistance appropriations to allow sufficient time for project completion. (See row 52 of Attachment 1 and Section 2 of Attachment 2)

Natural Resources Agency: Reversion of Legislative Investments—It is requested that Item 0540-495 be added to revert the unencumbered balance of various Legislative Investments in the 2019 Budget Act. (See row 56 of Attachment 1 and Section 2 of Attachment 2)

Natural Resources Agency: Good Neighbor Authority Fund Trailer Bill Language—it is requested that statutory changes be added to establish the Good Neighbor
Authority (GNA) Fund in the State Treasury to facilitate the implementation of forest management projects on federal lands. Under GNA Agreements, state and local agencies agree to complete vegetation management projects on federal lands in cooperation with the U.S. Forest Service. GNA Agreements authorize these entities to sell timber harvested during these activities to offset project costs and support implementation of new GNA projects. This new fund will serve as a depository for timber sale revenues generated by state agencies through the completion of GNA projects, which will be reinvested to help increase the pace and scale of forest treatment activities on federal lands. Statutory language for this proposal is forthcoming.

**Exposition Park: Budget Increase for Parking Operations**—It is requested that Item 3100-001-0267 be increased by $91,000 to provide for increased parking operations costs incurred by the Office of Exposition Park Management (OEPM) due to an overall increase in the available parking spaces at Exposition Park and increases in special events. *(See row 57 of Attachment 1)*

**Exposition Park: Ongoing Increase to Reimbursement Authority**—It is requested that Item 3100-001-0267 be increased by $400,000 to allow OEPM to recover additional security staff and overtime costs associated with an anticipated increase in special events. *(See row 58 of Attachment 1)*

**California Tahoe Conservancy: Lease Renewal**—It is requested that Item 3125-001-0140 be increased by $603,000 and budget bill language be added to make this amount available, upon approval of the Department of Finance, for costs associated with tenant improvement projects the California Tahoe Conservancy will undertake to facilitate its operations in conjunction with executing a new long-term lease for its current facility in South Lake Tahoe. *(See row 59 of Attachment 1 and Section 2 of Attachment 2)*

**California Tahoe Conservancy: Resources Agency Technical Proposals: Increase Reimbursement and Federal Trust Fund Authority**—It is requested that Item 3125-001-0140 be amended by increasing reimbursements by $210,000; and Item 3125-001-0890 be increased by $823,000 to reflect the anticipated level of federal, state, and local reimbursements that will be available to the California Tahoe Conservancy in 2020-21. These adjustments also reflect changes in the Conservancy’s projected reimbursement funding plan based on project work that has been completed to date. *(See row 62 of Attachment 1)*

**California Tahoe Conservancy: Proposition 68 Reappropriation**—It is requested that Item 3125-490 be added to reappropriate the unencumbered balance of Proposition 68 state operations funding to make the funds available for encumbrance or expenditure until June 30, 2021. This reappropriation will provide additional time for the Conservancy to complete planning, monitoring, and administration activities, consistent with the purpose for which the funds were originally appropriated. *(See row 61 of Attachment 1 and Section 2 of Attachment 2)*

**California Tahoe Conservancy: Resources Agency Technical Proposals: Proposition 1 Reappropriation**—It is requested that Item 3125-491 be added to reappropriate the unencumbered balance of Proposition 1 local assistance funding appropriated in
2015-16 to make the funds available for encumbrance or expenditure until June 30, 2023, and for liquidation until June 30, 2025. This reappropriation will provide additional time for: (1) the California Tahoe Conservancy to leverage unallocated funds to support grants for new projects, and (2) grantees to complete projects that have already been initiated. *(See row 60 of Attachment 1 and Section 2 of Attachment 2)*

**California Conservation Corps: Resources Agency Technical Proposals: Proposition 84**

_Funding for Local Conservation Corps_—It is requested that Item 3340-101-6051 be added in the amount of $1,293,000 with provisional language making the funds available until June 30, 2023 to enable the California Conservation Corps to provide grants to local conservation corps for conservation and facility development projects, consistent with the requirement of the bond. *(See row 63 of Attachment 1 and Section 2 of Attachment 2)*

**State Energy Resources Conservation and Development Commission: Reimbursement Authority for Hydrogen Refueling Infrastructure**—It is requested that Item 3360-001-3117 be amended by increasing reimbursements by $5 million to provide sufficient authority for the Commission to accept reimbursements from Bay Area Air Quality Management District to fund construction of hydrogen refueling stations. The additional reimbursement authority will enable the Commission to award as many as five additional hydrogen refueling station projects within California. *(See row 65 of Attachment 1 and Section 2 of Attachment 2)*

**State Energy Resources Conservation and Development Commission: Building Initiative for Low-Emissions Development Program**—It is requested that Item 3360-001-3373 be added in the amount of $4 million and 7 positions, Item 3360-002-3373 be added in the amount of $1 million, Item 3360-003-3373 be added in the amount of $5 million, and Item 3360-101-3373 be added in the amount of $30 million for the Commission to implement the Building Initiative for Low-Emissions Development Program as created by Chapter 378, Statutes of 2018 (SB 1477). As part of this program the Commission will disburse incentives to building developers for near-zero emission technologies in new, low-income residential housing. *(See row 66 of Attachment 1 and Section 2 of Attachment 2)*

**State Energy Resources Conservation and Development Commission: General Fund Loans**—It is requested that Items 3360-011-0314, 3360-011-0382, 3360-011-0479, and 3360-011-3117, be added to authorize various special fund loans to the General Fund. The funds providing these loans have sufficient balances such that programmatic activities will not be impacted by the loan. *(See row 128 of Attachment 1 and Section 2 of Attachment 2)*

**State Energy Resources Conservation and Development Commission: Reappropriation of Various Funds**—It is requested that Items 3360-490 and 3360-491 be added to reappropriate the balance of unexpended authority from various Budget Act support and local assistance appropriations, with funding available for encumbrance or expenditure until June 30, 2021, as specified in Item 3360-490 and for liquidation as specified in Item 3360-491. This reappropriation is needed to allow the Commission to address potential delays in awarding grants and recipients completing projects caused
by COVID-19. This will provide additional time for project completion and the funding to be spent for the same purposes for which the funds were originally appropriated. (See row 64 of Attachment 1 and Section 2 of Attachment 2)

Department of Conservation: Net-Zero Technical Reimbursement Authority Adjustment—It is requested that Item 3480-001-0001 be amended by decreasing reimbursements by $1,503,000. It is also requested that Item 3480-001-0338 be amended by increasing reimbursements by $1,503,000. This net-zero shift will consolidate all reimbursement authority associated with the Geologic Hazards and Mineral Resources Conservation Program into a single item. (See row 68 of Attachment 1)

Department of Conservation: Loan from the Hazardous and Idle-Deserted Well Abatement Fund to the General Fund—It is requested that Item 3480-011-0275 be added to authorize a loan of up to $10 million from the Hazardous and Idle-Deserted Well Abatement Fund to the General Fund. It is also requested that provisional language be added to authorize repayment of all or a portion of the loan under specified circumstances. (See row 129 of Attachment 1 and Section 2 of Attachment 2)

Department of Conservation: Loan from the Strong-Motion Instrumentation and Seismic Hazards Mapping Fund to the General Fund—It is requested that Item 3480-011-0338 be added to authorize a loan of up to $5,435,000 from the Strong-Motion Instrumentation and Seismic Hazards Mapping Fund to the General Fund. It is also requested that provisional language be added to authorize repayment of all or a portion of the loan under specified circumstances. (See row 130 of Attachment 1 and Section 2 of Attachment 2)

Department of Conservation: Well Statewide Tracking and Reporting (WellSTAR) System Reappropriation—It is requested that Item 3480-490 be added to reappropriate up to $2 million from Item 3480-001-3046, Budget Act of 2019, to make the funds available for encumbrance or expenditure until June 30, 2021. This request will enable the Department of Conservation to continue enhancing the functionality of the WellSTAR system. Although the project remains on schedule, certain services will be performed beyond the current availability of funding. (See row 67 of Attachment 1 and Section 2 of Attachment 2)

Department of Forestry and Fire Protection: Emergency Medical Services—Dispatch (SB 438)—It is requested that Item 3540-001-0001 be amended by increasing reimbursements by $1,480,000 and 2 positions to enable the Department of Forestry and Fire Protection to create connections out from its computer-aided dispatch (CAD) system to CAD systems operated by Emergency Medical Services (EMS) providers, consistent with Chapter 389, Statutes of 2019 (SB 438). Creating these CAD to CAD connections will enable EMS providers to more effectively and efficiently respond to emergency incidents. (See row 69 of Attachment 1)

Department of Forestry and Fire Protection: Innovation Procurement Sprint—It is requested that Item 3540-001-0001 be increased by $4,355,000 and 24 positions to enable CAL FIRE to implement the new, state-of-the-art technology that was procured through the Innovation Procurement Sprint process initiated by Executive Order N-04-19. The recently-executed contract will enable CAL FIRE to access a wildfire predictive
software program that can perform hundreds of millions of simulations daily, over large geographic areas, and generate predictions and wildfire forecasts based on simulated or actual/reported ignition points throughout the state. The output from this software program will be used to inform fire suppression operations and tactics, with the intent to more readily control and contain wildfires, and to protect people and assets at risk. (See row 72 of Attachment 1)

Department of Forestry and Fire Protection: Resources Agency Technical Proposals: Joint Institute for Wood Products Innovation Budget Bill Language—It is requested that provisional language be added to Item 3540-001-3212 to enable the Joint Institute for Wood Products Innovation, within the Board of Forestry and Fire Protection, to administer grants, consistent with the purpose for which the funding was appropriated, as described in the 2018-19 Forest Carbon Plan Budget Change Proposal. (See row 70 of Attachment 1 and Section 2 of Attachment 2)

Department of Forestry and Fire Protection: Resources Agency Technical Proposals: Board of Forestry and Fire Protection Effectiveness Monitoring Budget Bill Language—It is requested that provisional language be added to Item 3540-001-3212 to enable the Board of Forestry and Fire Protection to administer grants to facilitate its role in monitoring the effectiveness of the Z'berg-Nejedly Forest Practices Act and associated statutes and regulations. The Board partners with various partner entities, including academic institutions, public agencies, and consultants, to perform effectiveness monitoring activities. This provisional language will facilitate increased collaboration to facilitate these efforts by enabling the Board to also issue grants, when needed, to support these activities. (See row 71 of Attachment 1 and Section 2 of Attachment 2)

Department of Forestry and Fire Protection: Loan from the California Hazardous Liquid Pipeline Safety Fund to the General Fund—It is requested that Item 3540-011-0209 be added to authorize a loan of up to $3 million from the California Hazardous Liquid Pipeline Safety Fund to the General Fund. It is also requested that provisional language be added to authorize repayment of all of a portion of the loan under specified circumstances. (See row 131 of Attachment 1 and Section 2 of Attachment 2)

Department of Forestry and Fire Protection: Loan from the Forest Resources Improvement Fund to the General Fund—It is requested that Item 3540-011-0928 be added to authorize a loan of up to $2.8 million from the Forest Resources Improvement Fund to the General Fund. It is also requested that provisional language be added to authorize repayment of all of a portion of the loan under specified circumstances. (See row 132 of Attachment 1 and Section 2 of Attachment 2)

Department of Forestry and Fire Protection: Resources Agency Technical Proposals: Greenhouse Gas Reduction Fund Reappropriations and Extensions of Liquidation—It is requested that Item 3540-494 be added to reappropriate various Greenhouse Gas Reduction Fund appropriations from the 2017, 2018, and 2019 Budget Acts to provide extended encumbrance and liquidation availability to support implementation of forest health and fire prevention projects. The COVID-19 State of Emergency has resulted in a number of implementation challenges and project delays, so additional time is needed
to encumber and liquidate these funds for their intended purposes. (See row 73 of Attachment 1 and Section 2 of Attachment 2)

Department of Forestry and Fire Protection: Reversion of Legislative Investments—It is requested that Item 3540-497 be added to revert the unencumbered balance of various 2018 and 2019 Legislative investments. (See row 74 of Attachment 1 and Section 2 of Attachment 2)

State Lands Commission: Oil and Gas Plug Abandonment Reappropriation—It is requested that Item 3560-490 be added to reappropriate up to $15 million of funding from Item 3560-001-0001, Budget Act of 2019, to make the funds available for encumbrance or expenditure until June 30, 2021 to continue Phase I of the South Ellwood Project, also referred to as Platform Holly. (See row 75 of Attachment 1 and Section 2 of Attachment 2)

The 2018 Budget Act included $108.5 million over three fiscal years for the State Lands Commission to engage in plug and abandonment activities at two sites—Rincon Island in Ventura County and Platform Holly in Santa Barbara County. Although the Rincon Island activities are on schedule, the Platform Holly plug and abandonment activities are taking longer to complete, resulting in a project timeline that will stretch beyond the current funding availability.

State Lands Commission: Loan from the School Land Bank Fund to the General Fund—It is requested that Item 3560-011-0347 be added to authorize a loan of up to $32 million from the School Land Bank Fund to the General Fund. It is also requested that provisional language be added to authorize repayment of all of a portion of the loan under specified circumstances. (See row 133 of Attachment 1 and Section 2 of Attachment 2)

Department of Fish and Wildlife: Salton Sea Management Plan Operations—It is requested that Item 3600-001-0001 be increased by 2 permanent positions to support implementation of the Salton Sea Management Plan. (See row 77 of Attachment 1)

Department of Fish and Wildlife: Dedicated Fish and Game Preservation Fund Realignment—It is requested that Item 3600-001-0200 be increased by $757,000 to align program expenditures with the associated revenues of 12 dedicated accounts within the Fish and Game Preservation Fund. These resources will help the Department maintain stability, structural balance, and support workload. (See row 76 of Attachment 1)

Department of Fish and Wildlife: Resources Agency Technical Proposals: Augmentation of Reimbursements to Various Programs—It is requested that Item 3600-001-0200 be amended by increasing reimbursement authority by $9,565,000 to reflect ongoing work related to biodiversity conservation, environmental review and technical assistance, and fish hatchery operations, pursuant to agreements with various non-profit and government entities. (See row 78 of Attachment 1)

Department of Fish and Wildlife: Resources Agency Technical Proposals: Various Reappropriations—It is requested that Item 3600-492 be added to reappropriate various
support funds from the 2016 and 2017 Budget Acts and make those funds available for encumbrance or expenditure until June 30, 2021. This provides the Department of Fish and Wildlife sufficient time to collect associated reimbursements, perform financial adjustments, and complete expenditure reconciliations. (See row 79 of Attachment 1 and Section 2 of Attachment 2)

Department of Fish and Wildlife: Resources Agency Technical Proposals: Proposition 1 and 68 Reappropriation and Extension of Liquidation—It is requested that Item 3600-493 be added to reappropriate resources with funding available for encumbrance or expenditure until June 30, 2023, and liquidation until June 30, 2025, to continue existing programs. (See row 80 of Attachment 1 and Section 2 of Attachment 2)

Department of Fish and Wildlife: Resources Agency Technical Proposals: Federal Trust Fund Authority Increase for Various Programs—It is requested that Item 3600-001-0890 be increased by $3 million to reflect additional federal grant funding available to complete various projects under the State Wildlife Grant Program and the Sport Fish Restoration Act Program. (See row 81 of Attachment 1)

Department of Fish and Wildlife: Resources Agency Technical Proposals: Environmental Enhancement Fund Alignment—It is requested that Item 3600-001-0322 be increased by $760,000 to provide better alignment of program expenditures with associated revenues in the Environmental Enhancement Fund, to promote stability, structural balance, and support workload. (See row 82 of Attachment 1)

Department of Fish and Wildlife: Federal Endangered Species Act Litigation Attorney’s Fees—It is requested that Item 3600-001-0001 be increased by $344,000 to pay for one-time attorney’s fees related to federal Endangered Species Act litigation. (See row 83 of Attachment 1)

Department of Fish and Wildlife: Baseline Funding Reduction—It is requested that Item 3600-001-0001 be decreased by $33,704,000 to reduce the Department’s state operations funding. It is also requested that provisional language be added to authorize the Department to transfer funds between schedules with the Department of Finance’s approval to allow for additional flexibility to address priority needs. (See row 84 of Attachment 1 and Section 2 of Attachment 2)

Department of Fish and Wildlife: Reversion of 2019 Legislative Investments—It is requested that Item 3600-495 be added to revert the unencumbered balance of Legislative Investments in the 2019 Budget Act. (See row 85 of Attachment 1 and Section 2 of Attachment 2)

Department of Fish and Wildlife: Transfer from the General Fund to the Biodiversity Protection Fund—It is requested that Item 3600-012-0001 be added in the amount of $18,851,000 for an expenditure transfer to the new Biodiversity Protection Fund. It is also requested that Item 3600-002-3374 be added in the amount of $18,851,000 to reflect an expenditure to support the Department of Fish and Wildlife’s Biodiversity Conservation and Enforcement Programs. This proposal includes statutory changes to establish the Biodiversity Protection Fund and make this an annual General Fund transfer. Statutory
language for this proposal is forthcoming. (See row 86 of Attachment 1 and Section 2 of Attachment 2)

Department of Fish and Wildlife: Loan from Oil Spill Response Trust Fund (0321) to General Fund (0001)—It is requested that Item 3600-011-0321 be added to provide a $30 million loan to the General Fund. It is also requested that provisional language be added to authorize repayment of all or a portion of the loan under specified circumstances. (See row 134 of Attachment 1 and Section 2 of Attachment 2)

Department of Fish and Wildlife: Loan from Oil Spill Response Trust Fund (0321) to the Oil Spill Prevention and Administration Fund (0320)—It is requested that Item 3600-012-0321 be added to provide an up to $6.5 million loan from Oil Spill Response Trust Fund to the Oil Spill Prevention and Administration Fund to support existing level of expenditures. It is also requested that provisional language be added to authorize repayment of all or a portion of the loan under specified circumstances. (See row 135 of Attachment 1 and Section 2 of Attachment 2)

Department of Fish and Wildlife: Fees on Conditional Temporary Permit for Diversion of Surface Water to Underground Storage—It is requested that statutory changes be added to authorize the collection of permit fees pursuant to Chapter 678, Statutes of 2019 (AB 658) to include costs associated with the Department of Fish and Wildlife’s regulatory responsibilities to review conditional temporary permit for diversion of surface water to underground storage. Statutory language for this proposal is forthcoming.

Wildlife Conservation Board: Resources Agency Technical Proposals: Propositions 1, 12, and 84 Reappropriations—It is requested that Item 3640-490 be amended to reappropriate local assistance funding from prior years with funding available for encumbrance or expenditure until June 30, 2023. The reappropriations will provide additional time for projects to be completed. (See row 87 of Attachment 1 and Section 2 of Attachment 2)

Wildlife Conservation Board: Proposition 40 Reimbursement Authority Reduction—It is requested that Item 3640-302-6029 be amended by decreasing reimbursements by $1 million to reflect consistency with anticipated program reimbursements. (See row 88 of Attachment 1)

Wildlife Conservation Board: Resources Agency Technical Proposals: Wildlife Restoration Fund State Operations Authority Reduction—It is requested that Item 3640-001-0447 be decreased by $684,000 ongoing to align expenditures with anticipated revenues. (See row 89 of Attachment 1)

California Coastal Commission: Regulatory Compliance of Coastal Zone Transportation Projects—It is requested that Item 3720-001-0001 be increased by 6 permanent positions, reimbursed by the California Department of Transportation, to support additional duties pursuant to a multi-year interagency contract to carry out planning and regulatory activities that advance regulatory compliance for transportation projects in California’s coastal zones. (See row 90 of Attachment 1)
