State Preschool Wraparound Care Eligibility (Amends Education Code Section 8263)

SEC 1. 8263. (a) (1) The Superintendent shall adopt rules and regulations on eligibility, enrollment, and priority of services needed to implement this chapter. In order to be eligible for federal and state subsidized child development services, families shall meet at least one requirement in each of the following areas:

(A) A family is (i) a current aid recipient, (ii) income eligible, (iii) homeless, or (iv) one whose children are recipients of protective services, or whose children have been identified as being abused, neglected, or exploited, or at risk of being abused, neglected, or exploited.

(B) A family needs the child care services (i) because the child is identified by a legal, medical, or social services agency, a local educational agency liaison for homeless children and youths designated pursuant to Section 11432(g)(1)(J)(ii) of Title 42 of the United States Code, a Head Start program, or an emergency or transitional shelter as (I) a recipient of protective services, (II) being neglected, abused, or exploited, or at risk of neglect, abuse, or exploitation, or (III) being homeless or (ii) because the parents are (I) engaged in vocational training leading directly to a recognized trade, paraprofession, or profession, (II) engaged in an educational program for English language learners or to attain a high school diploma or general educational development certificate, (III) employed or seeking employment, (IV) seeking permanent housing for family stability, or (V) incapacitated.

(C) Families may be eligible for the State Preschool Program without meeting the requirements of subparagraph (B).

(2) If only one parent has signed an application for enrollment in child care services, as required by this chapter or regulations adopted to implement this chapter, and the information provided on the application indicates that there is a second parent who has not signed the application, the parent who has signed the application shall self-certify the presence or absence of the second parent under penalty of perjury. The parent who has signed the application shall not be required to submit additional information documenting the presence or absence of the second parent.

(b) Except as provided in Article 15.5 (commencing with Section 8350), priority for federal and state subsidized child development services is as follows:

(1) First priority shall be given to neglected or abused children who are recipients of child protective services, or children who are at risk of being neglected or abused, upon written referral from a legal, medical, or social services agency. If an agency is unable to enroll a child in the first priority category, the agency shall refer the family to local resource and referral services to locate services for the child.

(2) Second priority shall be given equally to eligible families, regardless of the number of parents in the home, who are income eligible. Within this priority, families with the lowest gross monthly income in relation to family size, as determined by a schedule adopted by the Superintendent, shall be admitted first. If two or more families are in the same priority in relation to income, the family that has a child with exceptional needs shall be admitted first. If there is no family of the same priority with a child with exceptional needs, the same priority family that has been on the waiting list for the longest time shall be admitted first. For purposes of determining order of admission, the grants of public assistance recipients shall be counted as income.

(3) The Superintendent shall set criteria for, and may grant specific waivers of, the priorities established in this subdivision for agencies that wish to serve specific populations, including children with exceptional needs or children of prisoners. These new waivers shall not include proposals to avoid appropriate fee schedules or admit ineligible families, but may include proposals to accept members of special populations in other than strict income order, as long as appropriate fees are paid.

(c) Notwithstanding any other law, in order to promote continuity of services, a family enrolled in a state or federally funded child care and development program whose services would otherwise be terminated because the family no longer meets the program income, eligibility, or need criteria may continue to receive child development services in another state or federally funded child care and development program if the contractor is able to transfer the family's enrollment to another program for which the family is eligible before the date of termination of services or to exchange the family's existing enrollment with the enrollment of a family in another program, provided that both families satisfy the eligibility requirements for the program in which they are being enrolled. The transfer of enrollment may be to another program within the same administrative agency or to another agency that administers state or federally funded child care and development programs.

(d) A physical examination and evaluation, including age-appropriate immunization, shall be required before, or within six weeks of, enrollment. A standard, rule, or regulation shall not require medical examination or immunization for admission to a child care and development program of a child whose parent or guardian files a letter with the governing board of the child care and development program stating that the medical examination or immunization is contrary to his or her religious beliefs, or provide for the exclusion of a child from the program because of a parent or guardian having filed the letter. However, if there is good cause to believe that a child is suffering from a recognized contagious or infectious disease, the child shall be temporarily excluded from the program until the governing board of the child care and development program is satisfied that the child is not suffering from that contagious or infectious disease.

(e) Regulations formulated and promulgated pursuant to this section shall include the recommendations of the State Department of Health Care Services relative to health care screening and the provision of health care services. The Superintendent shall seek the advice and assistance of these health authorities in situations where service under this chapter includes or requires care of children who are ill or children with exceptional needs.

(f) The Superintendent shall establish guidelines for the collection of employer-sponsored child care benefit payments from a parent whose child receives subsidized child care and development services. These guidelines shall provide for the collection of the full amount of the benefit payment, but not to exceed the actual cost of child care and development services provided, notwithstanding the applicable fee based on the fee schedule.

(g) The Superintendent shall establish guidelines according to which the director or a duly authorized representative of the child care and development program will certify children as eligible for state reimbursement pursuant to this section.

(h) (1) Except as provided in paragraphs (2) and (3), upon establishing initial eligibility or ongoing eligibility for services under this chapter, a family shall be considered to meet all eligibility and need requirements for those services for not less than 12 months, shall receive those services for not less than 12 months before having their eligibility or need recertified, and shall not be required to report changes to income or other changes for at least 12 months.

(2) A family that establishes initial eligibility or ongoing eligibility on the basis of income shall report increases in income that exceed the threshold for ongoing income eligibility as described in subdivision (b) of Section 8263.1, and the family's ongoing eligibility for services shall at that time be recertified.

(3) A family may at any time voluntarily report income or other changes. This information shall be used, as applicable, to reduce the family's fees, increase the family's services, or extend the period of the family's eligibility before recertification.

(i) (1) Because a family that meets eligibility requirements at its most recent eligibility certification or recertification is considered eligible until the next recertification, as provided in subdivision (h), a payment made by a child development program for a child during this period shall not be considered an error or an improper payment due to a change in the family's circumstances during that same period.

(2) Notwithstanding paragraph (1), the Superintendent or his or her designated agent may seek to recover payments that are the result of fraud.

(j) (1) Notwithstanding the rulemaking provisions of the Administrative Procedure Act (Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code) and Section 33308.5 of this code, until regulations are filed with the Secretary of State to implement subdivision (h), the department shall implement subdivision (h) through management bulletins or similar letters of instruction on or before October 1, 2017.

(2) The department shall initiate a rulemaking action to implement subdivision (h) on or before December 31, 2018. The department shall convene a workgroup of parents, advocates, department staff, child development program representatives, and other stakeholders to develop recommendations regarding implementing subdivision (h).

(k) Public funds shall not be paid directly or indirectly to an agency that does not pay at least the minimum wage to each of its employees.

(l) This section shall become operative on July 1, 2019.

State Priorities Addressed in Charter School Local Control and Accountability Plans (Amends Education Code Sections 47605 and 47605.6)

SEC. 11. 47605. (a) (1) Except as set forth in paragraph (2), a petition for the establishment of a charter school within a school district may be circulated by one or more persons seeking to establish the charter school. A petition for the establishment of a charter school shall identify a single charter school that will operate within the geographic boundaries of that school district. A charter school may propose to operate at multiple sites within the school district if each location is identified in the charter school petition. The petition may be submitted to the governing board of the school district for review after either of the following conditions is met:

(A) The petition is signed by a number of parents or legal guardians of pupils that is equivalent to at least one-half of the number of pupils that the charter school estimates will enroll in the charter school for its first year of operation.

(B) The petition is signed by a number of teachers that is equivalent to at least one-half of the number of teachers that the charter school estimates will be employed at the charter school during its first year of operation.

(2) A petition that proposes to convert an existing public school to a charter school that would not be eligible for a loan pursuant to subdivision (c) of Section 41365 may be circulated by one or more persons seeking to establish the charter school. The petition may be submitted to the governing board of the school district for review after the petition is signed by not less than 50 percent of the permanent status teachers currently employed at the public school to be converted.

(3) A petition shall include a prominent statement that a signature on the petition means that the parent or legal guardian is meaningfully interested in having his or her child or ward attend the charter school, or in the case of a teacher's signature, means that the teacher is meaningfully interested in teaching at the charter school. The proposed charter shall be attached to the petition.

(4) After receiving approval of its petition, a charter school that proposes to establish operations at one or more additional sites shall request a material revision to its charter and shall notify the authority that granted its charter of those additional locations. The authority that granted its charter shall consider whether to approve those additional locations at an open, public meeting. If the additional locations are approved, there shall be a material revision to the charter school's charter.

(5) A charter school that is unable to locate within the jurisdiction of the chartering school district may establish one site outside the boundaries of the school district, but within the county in which that school district is located, if the school district within the jurisdiction of which the charter school proposes to operate is notified in advance of the charter petition approval, the county superintendent of schools and the Superintendent are notified of the location of the charter school before it commences operations, and either of the following circumstances exists:

(A) The school has attempted to locate a single site or facility to house the entire program, but a site or facility is unavailable in the area in which the school chooses to locate.

(B) The site is needed for temporary use during a construction or expansion project.

(6) Commencing January 1, 2003, a petition to establish a charter school may not be approved to serve pupils in a grade level that is not served by the school district of the governing board

considering the petition, unless the petition proposes to serve pupils in all of the grade levels served by that school district.

(b) No later than 30 days after receiving a petition, in accordance with subdivision (a), the governing board of the school district shall hold a public hearing on the provisions of the charter, at which time the governing board of the school district shall consider the level of support for the petition by teachers employed by the school district, other employees of the school district, and parents. Following review of the petition and the public hearing, the governing board of the school district shall either grant or deny the charter within 60 days of receipt of the petition, provided, however, that the date may be extended by an additional 30 days if both parties agree to the extension. In reviewing petitions for the establishment of charter schools pursuant to this section, the chartering authority shall be guided by the intent of the Legislature that charter schools are and should become an integral part of the California educational system and that the establishment of charter schools should be encouraged. The governing board of the school district shall grant a charter for the operation of a school under this part if it is satisfied that granting the charter is consistent with sound educational practice. The governing board of the school district shall not deny a petition for the establishment of a charter school unless it makes written factual findings, specific to the particular petition, setting forth specific facts to support one or more of the following findings:

(1) The charter school presents an unsound educational program for the pupils to be enrolled in the charter school.

(2) The petitioners are demonstrably unlikely to successfully implement the program set forth in the petition.

(3) The petition does not contain the number of signatures required by subdivision (a).

(4) The petition does not contain an affirmation of each of the conditions described in subdivision (d).

The goals identified in that program shall include the objective of enabling pupils to become self-motivated, competent, and lifelong learners.

(ii) The annual goals for the charter school for all pupils and for each subgroup of pupils identified pursuant to Section 52052, to be achieved in the state priorities, as described in subdivision (d)(2)-(8) of Section 52060, that apply for the grade levels served, ~~or the nature of the program operated,~~ by the charter school, and specific annual actions to achieve those goals. A charter petition may identify additional school priorities, the goals for the school priorities, and the specific annual actions to achieve those goals.

(iii) If the proposed charter school will serve high school pupils, the manner in which the charter school will inform parents about the transferability of courses to other public high schools and the eligibility of courses to meet college entrance requirements. Courses offered by the charter school that are accredited by the Western Association of Schools and Colleges may be considered transferable and courses approved by the University of California or the California State University as creditable under the “A to G” admissions criteria may be considered to meet college entrance requirements.

(B) The measurable pupil outcomes identified for use by the charter school. “Pupil outcomes,” for purposes of this part, means the extent to which all pupils of the charter school demonstrate that they have attained the skills, knowledge, and attitudes specified as goals in the charter school’s educational program. Pupil outcomes shall include outcomes that address increases in pupil academic achievement both schoolwide and for all groups of pupils served by the charter school, as that term is defined in subparagraph (B) of paragraph (3) of subdivision (a) of Section 47607. The pupil outcomes shall align with the state priorities, as described in subdivision

(d)(2)-(8) of Section 52060, that apply for the grade levels served, ~~or the nature of the program operated,~~ by the charter school.

(C) The method by which pupil progress in meeting those pupil outcomes is to be measured. To the extent practicable, the method for measuring pupil outcomes for state priorities shall be consistent with the way information is reported on a school accountability report card.

(D) The governance structure of the charter school, including, but not limited to, the process to be followed by the charter school to ensure parental involvement.

(E) The qualifications to be met by individuals to be employed by the charter school.

(F) The procedures that the charter school will follow to ensure the health and safety of pupils and staff. These procedures shall include the requirement that each employee of the charter school furnish the charter school with a criminal record summary as described in Section 44237.

(G) The means by which the charter school will achieve a racial and ethnic balance among its pupils that is reflective of the general population residing within the territorial jurisdiction of the school district to which the charter petition is submitted.

(H) Admission policies and procedures, consistent with subdivision (d).

(I) The manner in which annual, independent financial audits shall be conducted, which shall employ generally accepted accounting principles, and the manner in which audit exceptions and deficiencies shall be resolved to the satisfaction of the chartering authority.

(J) The procedures by which pupils can be suspended or expelled from the charter school for disciplinary reasons or otherwise involuntarily removed from the charter school for any reason. These procedures, at a minimum, shall include an explanation of how the charter school will comply with federal and state constitutional procedural and substantive due process requirements that is consistent with all of the following:

(i) For suspensions of fewer than 10 days, provide oral or written notice of the charges against the pupil and, if the pupil denies the charges, an explanation of the evidence that supports the charges and an opportunity for the pupil to present his or her side of the story.

(ii) For suspensions of 10 days or more and all other expulsions for disciplinary reasons, both of the following:

(I) Provide timely, written notice of the charges against the pupil and an explanation of the pupil's basic rights.

(II) Provide a hearing adjudicated by a neutral officer within a reasonable number of days at which the pupil has a fair opportunity to present testimony, evidence, and witnesses and confront and cross-examine adverse witnesses, and at which the pupil has the right to bring legal counsel or an advocate.

(iii) Contain a clear statement that no pupil shall be involuntarily removed by the charter school for any reason unless the parent or guardian of the pupil has been provided written notice of intent to remove the pupil no less than five schooldays before the effective date of the action. The written notice shall be in the native language of the pupil or the pupil's parent or guardian or, if the pupil is a foster child or youth or a homeless child or youth, the pupil's educational rights holder, and shall inform him or her of the right to initiate the procedures specified in clause (ii) before the effective date of the action. If the pupil's parent, guardian, or educational rights holder initiates the procedures specified in clause (ii), the pupil shall remain enrolled and shall not be removed until the charter school issues a final decision. For purposes of this clause, "involuntarily removed" includes disenrolled, dismissed, transferred, or terminated, but does not include suspensions specified in clauses (i) and (ii).

(K) The manner by which staff members of the charter schools will be covered by the State Teachers' Retirement System, the Public Employees' Retirement System, or federal social security.

(L) The public school attendance alternatives for pupils residing within the school district who choose not to attend charter schools.

(M) The rights of an employee of the school district upon leaving the employment of the school district to work in a charter school, and of any rights of return to the school district after employment at a charter school.

(N) The procedures to be followed by the charter school and the entity granting the charter to resolve disputes relating to provisions of the charter.

(O) The procedures to be used if the charter school closes. The procedures shall ensure a final audit of the charter school to determine the disposition of all assets and liabilities of the charter school, including plans for disposing of any net assets and for the maintenance and transfer of pupil records.

(6) The petition does not contain a declaration of whether or not the charter school shall be deemed the exclusive public employer of the employees of the charter school for purposes of Chapter 10.7 (commencing with Section 3540) of Division 4 of Title 1 of the Government Code.

(c) (1) Charter schools shall meet all statewide standards and conduct the pupil assessments required pursuant to Section 60605 and any other statewide standards authorized in statute or pupil assessments applicable to pupils in noncharter public schools.

(2) Charter schools shall, on a regular basis, consult with their parents, legal guardians, and teachers regarding the charter school's educational programs.

(d) (1) In addition to any other requirement imposed under this part, a charter school shall be nonsectarian in its programs, admission policies, employment practices, and all other operations, shall not charge tuition, and shall not discriminate against a pupil on the basis of the characteristics listed in Section 220. Except as provided in paragraph (2), admission to a charter school shall not be determined according to the place of residence of the pupil, or of his or her parent or legal guardian, within this state, except that an existing public school converting partially or entirely to a charter school under this part shall adopt and maintain a policy giving admission preference to pupils who reside within the former attendance area of that public school.

(2) (A) A charter school shall admit all pupils who wish to attend the charter school.

(B) If the number of pupils who wish to attend the charter school exceeds the charter school's capacity, attendance, except for existing pupils of the charter school, shall be determined by a public random drawing. Preference shall be extended to pupils currently attending the charter school and pupils who reside in the school district except as provided for in Section 47614.5. Preferences, including, but not limited to, siblings of pupils admitted or attending the charter school and children of the charter school's teachers, staff, and founders identified in the initial charter, may also be permitted by the chartering authority on an individual charter school basis. Priority order for any preference shall be determined in the charter petition in accordance with all of the following:

(i) Each type of preference shall be approved by the chartering authority at a public hearing.

(ii) Preferences shall be consistent with federal law, the California Constitution, and Section 200.

(iii) Preferences shall not result in limiting enrollment access for pupils with disabilities, academically low-achieving pupils, English learners, neglected or delinquent pupils, homeless pupils, or pupils who are economically disadvantaged, as determined by eligibility for any free or reduced-price meal program, foster youth, or pupils based on nationality, race, ethnicity, or sexual orientation.

(iv) In accordance with Section 49011, preferences shall not require mandatory parental volunteer hours as a criterion for admission or continued enrollment.

(C) In the event of a drawing, the chartering authority shall make reasonable efforts to accommodate the growth of the charter school and shall not take any action to impede the charter school from expanding enrollment to meet pupil demand.

(3) If a pupil is expelled or leaves the charter school without graduating or completing the school year for any reason, the charter school shall notify the superintendent of the school district of the pupil's last known address within 30 days, and shall, upon request, provide that school

district with a copy of the cumulative record of the pupil, including report cards or a transcript of grades, and health information. If the pupil is subsequently expelled or leaves the school district without graduating or completing the school year for any reason, the school district shall provide this information to the charter school within 30 days if the charter school demonstrates that the pupil had been enrolled in the charter school. This paragraph applies only to pupils subject to compulsory full-time education pursuant to Section 48200.

(e) The governing board of a school district shall not require an employee of the school district to be employed in a charter school.

(f) The governing board of a school district shall not require a pupil enrolled in the school district to attend a charter school.

(g) The governing board of a school district shall require that the petitioner or petitioners provide information regarding the proposed operation and potential effects of the charter school, including, but not limited to, the facilities to be used by the charter school, the manner in which administrative services of the charter school are to be provided, and potential civil liability effects, if any, upon the charter school and upon the school district. The description of the facilities to be used by the charter school shall specify where the charter school intends to locate. The petitioner or petitioners also shall be required to provide financial statements that include a proposed first-year operational budget, including startup costs, and cashflow and financial projections for the first three years of operation.

(h) In reviewing petitions for the establishment of charter schools within the school district, the governing board of the school district shall give preference to petitions that demonstrate the capability to provide comprehensive learning experiences to pupils identified by the petitioner or petitioners as academically low achieving pursuant to the standards established by the department under Section 54032, as that section read before July 19, 2006.

(i) Upon the approval of the petition by the governing board of the school district, the petitioner or petitioners shall provide written notice of that approval, including a copy of the petition, to the applicable county superintendent of schools, the department, and the state board.

(j) (1) If the governing board of a school district denies a petition, the petitioner may elect to submit the petition for the establishment of a charter school to the county board of education. The county board of education shall review the petition pursuant to subdivision (b). If the petitioner elects to submit a petition for establishment of a charter school to the county board of education and the county board of education denies the petition, the petitioner may file a petition for establishment of a charter school with the state board, and the state board may approve the petition, in accordance with subdivision (b). A charter school that receives approval of its petition from a county board of education or from the state board on appeal shall be subject to the same requirements concerning geographic location to which it would otherwise be subject if it received approval from the entity to which it originally submitted its petition. A charter petition that is submitted to either a county board of education or to the state board shall meet all otherwise applicable petition requirements, including the identification of the proposed site or sites where the charter school will operate.

(2) In assuming its role as a chartering agency, the state board shall develop criteria to be used for the review and approval of charter school petitions presented to the state board. The criteria shall address all elements required for charter approval, as identified in subdivision (b), and shall define "reasonably comprehensive," as used in paragraph (5) of subdivision (b), in a way that is consistent with the intent of this part. Upon satisfactory completion of the criteria, the state board shall adopt the criteria on or before June 30, 2001.

(3) A charter school for which a charter is granted by either the county board of education or the state board based on an appeal pursuant to this subdivision shall qualify fully as a charter school for all funding and other purposes of this part.

(4) If either the county board of education or the state board fails to act on a petition within 120 days of receipt, the decision of the governing board of the school district to deny the petition shall be subject to judicial review.

(5) The state board shall adopt regulations implementing this subdivision.

(6) Upon the approval of the petition by the county board of education, the petitioner or petitioners shall provide written notice of that approval, including a copy of the petition, to the department and the state board.

(k) (1) The state board may, by mutual agreement, designate its supervisorial and oversight responsibilities for a charter school approved by the state board to any local educational agency in the county in which the charter school is located or to the governing board of the school district that first denied the petition.

(2) The designated local educational agency shall have all monitoring and supervising authority of a chartering agency, including, but not limited to, powers and duties set forth in Section 47607, except the power of revocation, which shall remain with the state board.

(3) A charter school that is granted its charter through an appeal to the state board and elects to seek renewal of its charter shall, before expiration of the charter, submit its petition for renewal to the governing board of the school district that initially denied the charter. If the governing board of the school district denies the charter school's petition for renewal, the charter school may petition the state board for renewal of its charter.

(l) Teachers in charter schools shall hold a Commission on Teacher Credentialing certificate, permit, or other document equivalent to that which a teacher in other public schools would be required to hold. These documents shall be maintained on file at the charter school and are subject to periodic inspection by the chartering authority. It is the intent of the Legislature that charter schools be given flexibility with regard to noncore, noncollege preparatory courses.

(m) A charter school shall transmit a copy of its annual, independent financial audit report for the preceding fiscal year, as described in subparagraph (l) of paragraph (5) of subdivision (b), to its chartering entity, the Controller, the county superintendent of schools of the county in which the charter school is sited, unless the county board of education of the county in which the charter school is sited is the chartering entity, and the department by December 15 of each year. This subdivision does not apply if the audit of the charter school is encompassed in the audit of the chartering entity pursuant to Section 41020.

(n) A charter school may encourage parental involvement, but shall notify the parents and guardians of applicant pupils and currently enrolled pupils that parental involvement is not a requirement for acceptance to, or continued enrollment at, the charter school.

47605.6 (a) (1) In addition to the authority provided by Section 47605.5, a county board of education may also approve a petition for the operation of a charter school that operates at one or more sites within the geographic boundaries of the county and that provides instructional services that are not generally provided by a county office of education. A county board of education may approve a countywide charter only if it finds, in addition to the other requirements of this section, that the educational services to be provided by the charter school will offer services to a pupil population that will benefit from those services and that cannot be served as well by a charter school that operates in only one school district in the county. A petition for the establishment of a countywide charter school pursuant to this subdivision may be circulated throughout the county by any one or more persons seeking to establish the charter school. The petition may be submitted to the county board of education for review after either of the following conditions is met:

(A) The petition is signed by a number of parents or guardians of pupils residing within the county that is equivalent to at least one-half of the number of pupils that the charter school estimates will enroll in the school for its first year of operation and each of the school districts

where the charter school petitioner proposes to operate a facility has received at least 30 days' notice of the petitioner's intent to operate a charter school pursuant to this section.

(B) The petition is signed by a number of teachers that is equivalent to at least one-half of the number of teachers that the charter school estimates will be employed at the school during its first year of operation and each of the school districts where the charter school petitioner proposes to operate a facility has received at least 30 days' notice of the petitioner's intent to operate a charter school pursuant to this section.

(2) An existing public school shall not be converted to a charter school in accordance with this section.

(3) After receiving approval of its petition, a charter school that proposes to establish operations at additional sites within the geographic boundaries of the county board of education shall notify the school districts where those sites will be located. The charter school shall also request a material revision of its charter by the county board of education that approved its charter and the county board of education shall consider whether to approve those additional locations at an open, public meeting, held no sooner than 30 days following notification of the school districts where the sites will be located. If approved, the location of the approved sites shall be a material revision of the charter school's approved charter.

(4) A petition shall include a prominent statement indicating that a signature on the petition means that the parent or guardian is meaningfully interested in having his or her child or ward attend the charter school, or in the case of a teacher's signature, means that the teacher is meaningfully interested in teaching at the charter school. The proposed charter shall be attached to the petition.

(b) No later than 60 days after receiving a petition, in accordance with subdivision (a), the county board of education shall hold a public hearing on the provisions of the charter, at which time the county board of education shall consider the level of support for the petition by teachers, parents or guardians, and the school districts where the charter school petitioner proposes to place school facilities. Following review of the petition and the public hearing, the county board of education shall either grant or deny the charter within 90 days of receipt of the petition. However, this date may be extended by an additional 30 days if both parties agree to the extension. A county board of education may impose any additional requirements beyond those required by this section that it considers necessary for the sound operation of a countywide charter school. A county board of education may grant a charter for the operation of a charter school under this part only if it is satisfied that granting the charter is consistent with sound educational practice and that the charter school has reasonable justification for why it could not be established by petition to a school district pursuant to Section 47605. The county board of education shall deny a petition for the establishment of a charter school if it finds one or more of the following:

(1) The charter school presents an unsound educational program for the pupils to be enrolled in the charter school.

(2) The petitioners are demonstrably unlikely to successfully implement the program set forth in the petition.

(3) The petition does not contain the number of signatures required by subdivision (a).

(4) The petition does not contain an affirmation of each of the conditions described in subdivision (e).

(5) The petition does not contain reasonably comprehensive descriptions of all of the following:

Offset to Additional State Aid to Meet the Minimum State Aid Guarantee (Amends Education Code Section 47635)

SEC. 13. 47635. (a) A sponsoring local educational agency shall annually transfer to each of its charter schools funding in lieu of property taxes equal to the lesser of the following two amounts:

(1) The average amount of property taxes per unit of average daily attendance, including average daily attendance attributable to charter schools, received by the local educational agency, multiplied by the charter school's average daily attendance.

(2) The local control funding formula grant funding computed pursuant to subdivision (d) of Section 42238.02, per unit of average daily attendance, multiplied by the charter school's average daily attendance in each of the four corresponding grade level ranges: kindergarten and grades 1, 2, and 3; grades 4, 5, and 6; grades 7 and 8; and grades 9 to 12, inclusive.

(3) Notwithstanding paragraph (2), until the Superintendent determines that a charter school is funded pursuant to Section 42238.02, the Superintendent shall apportion funding per unit of average daily attendance pursuant to this article. The base grant for purposes of paragraph (2) shall be the lesser of the amount calculated pursuant to paragraph (2) or the sum of the entitlements for the charter school in the specified fiscal year as computed pursuant to paragraphs (1) to (4), inclusive, of subdivision (a), and paragraph (3) of subdivision (b), of Section 42238.03, multiplied by the ratio of local control funding formula base grant funding computed pursuant to subdivision (d) of Section 42238.02 to the local control funding formula amount for the fiscal year computed pursuant to Section 42238.02.

(4) If the sum of the funding transferred pursuant to this subdivision and the funding calculated pursuant to subdivision (e) of Section 42238.03 exceeds the sum of the amounts calculated pursuant to subdivisions (e), (f), and (i) of Section 42238.02 ~~(a) and (b) of Section 42238.03~~, the excess funding shall be used to offset funding calculated pursuant to subdivision (e) of Section 42238.03.

(1) For the months of August to February, inclusive, a charter school's funding in lieu of property taxes shall be computed based on the amount of property taxes received by the sponsoring local educational agency during the preceding fiscal year, as reported to the Superintendent for purposes of the second principal apportionment. A sponsoring local educational agency shall transfer to the charter school the charter school's estimated annual entitlement to funding in lieu of property taxes as follows:

(A) Six percent in August.

(B) Twelve percent in September.

(C) Eight percent each month in October, November, December, January, and February.

(2) For the months of March to June, inclusive, a charter school's funding in lieu of property taxes shall be computed based on the amount of property taxes estimated to be received by the sponsoring local educational agency during the fiscal year, as reported to the Superintendent for purposes of the first principal apportionment. A sponsoring local educational agency shall transfer to each of its charter schools an amount equal to one-sixth of the difference between the school's estimated annual entitlement to funding in lieu of property taxes and the amounts provided pursuant to paragraph (1). An additional one-sixth of this difference shall be included in the amount transferred in the month of March.

(3) For the month of July, a charter school's funding in lieu of property taxes shall be computed based on the amount of property taxes estimated to be received by the sponsoring local educational agency during the prior fiscal year, as reported to the Superintendent for purposes of the second principal apportionment. A sponsoring local educational agency shall transfer to each of its charter schools an amount equal to the remaining difference between the school's estimated annual entitlement to funding in lieu of property taxes and the amounts provided pursuant to paragraphs (1) and (2).

(4) Final adjustments to the amount of funding in lieu of property taxes allocated to a charter school shall be made in June, in conjunction with the third recertification of annual apportionments to schools.

(5) Subdivision (a) and paragraphs (1) to (4), inclusive, do not apply for pupils who reside in, and are otherwise eligible to attend a school in, a basic aid school district, but who attend a charter school in a nonbasic aid school district. With regard to these pupils, the sponsoring basic aid school district shall transfer to the charter school an amount of funds equivalent to the local control funding formula grant pursuant to Section 42238.02, as implemented by Section 42238.03, earned through average daily attendance by the charter school for each pupil's attendance, not to exceed the average property tax share per unit of average daily attendance for pupils residing and attending in the basic aid school district. The transfer of funds shall be made in not fewer than two installments at the request of the charter school, the first occurring not later than February 1 and the second not later than June 1 of each school year. Payments shall reflect the average daily attendance certified for the time periods of the first and second principal apportionments, respectively. The Superintendent may not apportion any funds for the attendance of pupils described in this subdivision unless the amount transferred by the basic aid school district is less than the local control funding formula grant pursuant to Section 42238.02, as implemented by Section 42238.03, earned by the charter school, in which event the Superintendent shall apportion the difference to the charter school from state funds.

Special Education Concentration Grants (Adds Education Code Article 6.5 and Sections 56836.40 and 56836.41)

SEC. 20. Article 6.5 Findings and Declarations

(a) The Legislature finds and declares all of the following:

(1) Student success in school is not only driven by educational experiences but deeply connected to other factors that impact a child's life, such as poverty, housing, access to health care, and safe environments.

(2) A quality education ensures that students receive appropriate interventions and services as needed before the student falls behind academically.

(3) Intervention services and supports provided to children who are at risk of becoming significantly delayed, including children with disabilities, can reduce the need for additional services in future years.

(4) Students with disabilities who are taught within the general education classroom with supports and systematic instruction achieve better outcomes in the areas of academics, communication, and behavior.

(5) In order to ensure the success of students with disabilities, additional resources for interventions and support should be focused in high-need schools, including those with high concentrations of students living in poverty, students who are English language learners, and youth in foster care.

56836.40. (a) Commencing with the 2019-20 fiscal year, and for each fiscal year thereafter, the Superintendent shall make the following computations to determine the amount of funding for local educational agencies for the purposes specified in this section:

(1) Determine the percentage of unduplicated pupils for each school district and charter school pursuant subdivision (b) of Section 42238.02 and for county offices of education pursuant to subdivision (b) of Section 2574.

(2) Determine the total number of pupils enrolled in Kindergarten through grade twelve that have been identified as individuals with exceptional needs pursuant to Section 56026 for each local educational agency for the current fiscal year and the two prior fiscal years. The sum of these totals is the total K-12 statewide enrollment of individuals with exceptional needs.

(3) Compute the enrollment percentage of individuals with exceptional needs for each local educational agency education pursuant to the following:

(A) For the 2019-20 fiscal year and each fiscal year thereafter, divide the sum of the enrollment of individuals with exceptional needs in each local educational agency determined in paragraph (2) in the current fiscal year and the two prior fiscal years by the sum of the total enrollment in each local educational agency in the current fiscal year and the two prior fiscal years.

(4) Compute the statewide average enrollment percentage of individuals with exceptional needs for the state pursuant to the following:

(A) For the 2019-20 fiscal year and each fiscal year thereafter, divide the sum of the enrollment of individuals with exceptional needs in all local educational agencies determined in paragraph (2) in the current fiscal year and the two prior fiscal years by the sum of the total enrollment in all local educational agencies in the current fiscal year and the two prior fiscal years.

(5) Identify the local educational agencies that meet both of the following conditions: 1) the percentage of individuals with exceptional needs as computed in subparagraph (A) of paragraph (3) exceeds the average statewide percentage of individuals with exceptional needs computed in subparagraph (A) of paragraph (4), and 2) the percentage of unduplicated pupils exceeds 55 percent.

(6) For each local educational agency that meets the requirements specified in paragraph (5), subtract the statewide average percentage of individuals with exceptional needs calculated in

subparagraph (A) of paragraph (4) from the average percentage of individuals with exceptional needs for each calculated in subparagraph (A) of paragraph (3). Then multiply the result by the total pupil enrollment for each local educational agency. The resulting product is the number of individuals with exceptional needs attending each local educational agency in excess of the statewide average of individuals with exceptional needs. The sum of these totals is the total number of individuals with exceptional needs in excess of the statewide average.

(7) Calculate a per pupil special education concentration grant by dividing the amount appropriated for this purpose in Item 6100-161-0001 of the annual Budget Act by the total number of individuals with exceptional needs in excess of the statewide average calculated in paragraph (6).

(8) Calculate the special education concentration grant for each local educational agency identified in paragraph (5), by multiplying the per pupil special education concentration grant calculated in paragraph (7) by the number of individuals with exceptional needs attending each local educational agency in excess of the statewide average calculated in paragraph (6).

(9) The superintendent shall appropriate funds calculated in paragraph (8) to the local educational agency identified.

(b) In each year, commencing with the 2020-21 fiscal year, the concentration grant provided in Budget Act Item 6100-161-0001 of the previous fiscal year shall be adjusted by the percentage change in the annual average value of the Implicit Price Deflator for State and Local Government Purchases of Goods and Services for the United States pursuant to Section 42238.02.

(c) It is the intent of the Legislature that funds allocated in this section supplement existing special education resources currently required pursuant to federal and state law. This funding may be used to provide services and supports determined to improve school readiness and long-term outcomes for students identified including, but not limited to the following:

(1) Early intervention services, including preschool and supportive services for young children who are not meeting age-appropriate developmental milestones, or other supports or services not identified in an individualized education program or individualized family support plan, but are determined to benefit the future educational outcomes of the child.

(2) One-time programs or resources for students with exceptional needs that are not medically or educationally necessary as to be outlined in an individualized education program, but which a local educational agency believes will have a positive impact on a student with exceptional needs.

(3) Strategies to improve student outcomes identified through the state system of support and other activities to build upon or expand local multi-tiered systems of support, including inclusive educational programming that ensures a student's right to placement in the least restrictive educational environment.

(4) Wraparound services for students with exceptional needs not required by federal or state law.

(5) Professional development activities and the coordination of services with other educational agencies, programs, resources, and professional development providers in order to provide special education training and development to school employees.

(d) For purposes of this section and Section 56836.41, "local educational agency" means a school district, a county office of education, or a charter school.

56836.41. (a) For the 2019-20 fiscal year, the Superintendent shall make the following computation to determine the amount of funding for each local educational agency eligible for one-time concentration grant funding provided for this purpose in the Items 6100-485 and 6100-488 of the Budget Act of 2019 and subparagraph (A) of paragraph (2) of subdivision (a) of Section 41207.47 of the Education Code:

(1) Identify the local educational agencies eligible for funding pursuant to paragraph (5) of subdivision (a) of Section 56836.40.

(2) Calculate a one-time per pupil special education concentration grant by dividing one hundred eighty-six million five hundred eighty-nine thousand dollars (\$186,589,000) by the total number of individuals with exceptional needs in excess of the statewide average computed pursuant to paragraph (6) of subdivision (a) of Section 56836.40.

(3) Calculate the one-time special education concentration grant for each local educational agency identified in paragraph (1), by multiplying the one-time per pupil special education concentration grant calculated in paragraph (2) by the number of individuals with exceptional needs attending each local educational agency in excess of the statewide average calculated pursuant to paragraph (6) of subdivision (a) of Section 56836.40.

(4) The superintendent shall appropriate funds calculated in paragraph (3) to the local educational agencies identified.

(b) This funding may be used for one-time services, supports, and infrastructure investments developed to improve the long-term outcomes for individuals with exceptional needs or increase access to general education classes.

School Plan for Student Achievement (Amends Education Code Section 64001)

SEC. 21. 64001. (a) Notwithstanding any other law, as a condition of receiving funding for a program under Part 36 (commencing with Section 64000), a local educational agency shall ensure that each school of the local educational agency that operates any programs subject to Part 36 (commencing with Section 64000) consolidates any plans that are required by those programs into a single plan, unless otherwise prohibited by law. That plan shall be known as the School Plan for Student Achievement (SPSA). In the case that a plan is not required by a program subject to Part 36 (commencing with Section 64000), the governing board or body of a local educational agency may require any school that receives funding from the consolidated application to develop a SPSA.

(b) A local educational agency shall not be required to submit the SPSA to the department as part of the consolidated application.

(c) A local educational agency shall ensure, in the consolidated application, that the SPSA has been prepared in accordance with law, that schoolsite councils have developed and approved a SPSA for each school participating in programs funded through the consolidated application process, and that SPSAs were developed with the review, certification, and advice of the school English learner advisory committee, if required.

(d) The department shall monitor and review to ensure that the consolidated application and the SPSA were developed in accordance with law and with the involvement of applicable advisory committees and schoolsite councils.

(e) Onsite school and district compliance reviews of categorical programs shall continue, and SPSAs shall be required and reviewed as part of these onsite visits and compliance reviews. The Superintendent shall monitor such compliance. To that end, the Superintendent shall develop monitoring instruments and establish the process and frequency for conducting reviews of district achievement and compliance with state and federal categorical program requirements. The state board shall review the content of these instruments for consistency with state board policy.

(f) (1) A complaint that a local educational agency has not complied with the requirements of Part 36 (commencing with Section 64000), this part, or Part 38 (commencing with Section 65000) may be filed with a local educational agency pursuant to the Uniform Complaint Procedures set forth in Chapter 5.1 (commencing with Section 4600) of Division 1 of Title 5 of the California Code of Regulations.

(2) The department may require submission of the SPSA for any school that is the specific subject of a complaint involving any program or service subject to this part.

(3) The department may require a local educational agency to submit other data or information as may be necessary for the department to effectively administer any program subject to this part.

(g) (1) Notwithstanding any other law, the schoolsite council shall develop the content of the SPSA. SPSAs shall be reviewed in accordance with paragraph (4) of subdivision (a) of Section 52062.

(2) The development of the SPSA shall include both of the following actions:

(A) Administration of a comprehensive needs assessment pursuant to Section 1114(b)(6) of the federal Every Student Succeeds Act (Public Law 114-95) that forms the basis of the school's goals contained in the SPSA. The comprehensive needs assessment shall include an analysis of verifiable state data, consistent with all state priorities as noted in Sections 52060 and 52066, and informed by all indicators described in Section 1111(c)(4)(B) of the federal Every Student Succeeds Act, including pupil performance against state-determined long-term goals. The school may include any data voluntarily developed by districts to measure pupil outcomes. In the case that the plan is required by the local governing board or body of the local educational agency only, the local governing board or body of the local educational agency may determine the extent to which the needs assessment is applicable.

(B) Identification of the process for evaluating and monitoring the implementation of the SPSA and progress towards accomplishing the goals set forth in the SPSA.

(3) The SPSA shall include all of the following:

(A) Goals set to improve pupil outcomes, including addressing the needs of pupil groups as identified through the needs assessment in subparagraph (A) of paragraph (2).

(B) Evidence-based strategies, actions, or services.

(C) Proposed expenditures, based on the projected resource allocation from the governing board or body of the local educational agency, to address the findings of the needs assessment consistent with the state priorities, including identifying resource inequities, which may include a review of the local educational agency's budgeting, its local control and accountability plan, and school-level budgeting, if applicable.

(h) SPSAs created under this part may serve as school improvement plans required under federal law for schools identified for targeted support as described in Section 1003(e)(1)(A) of the federal Every Student Succeeds Act (Public Law 114-95) or comprehensive support as described in Section 1003(e)(1)(B) of the federal Every Student Succeeds Act, as long as the SPSAs also meet the requirements as established by the federal Elementary and Secondary Education Act of 1965 (Public Law 89-10), as amended by the federal Every Student Succeeds Act. A local educational agency may utilize the schoolsite council to meet the stakeholder requirements established in Section 1111(d)(1)(B) and Section 1111(d)(2)(B) of the federal Every Student Succeeds Act.

(i) The SPSA required by this section shall be reviewed annually and updated, including proposed expenditure of funds allocated to the school through the consolidated application and the local control and accountability plan, if any, by the schoolsite council. The SPSAs shall be reviewed and approved by the governing board or body of the local educational agency at a regularly scheduled meeting whenever there are material changes that affect the academic programs for pupils covered by programs identified in this part. If a SPSA is not approved by the governing board or body of the local educational agency, specific reasons for that action shall be communicated to the schoolsite council. Modifications to any SPSA shall be developed, recommended, and approved or disapproved by the governing board or body of the local educational agency in the same manner.

(j) Single school districts and charter schools may utilize the local control and accountability plan to serve as the SPSA, provided that the local control and accountability plan meets federal

school planning requirements and the stakeholder requirements established in subdivision (a) of Section 52062, and is adopted at a public hearing pursuant to subdivision (b) of Section 52062 or subdivisions (a) and (e) of Section 47606.5.

(b) Commencing with the 2018–19 fiscal year, the amount appropriated in the annual Budget Act for the K–12 component of the Strong Workforce Program is provided to create, support, or expand high-quality career technical education programs at the K–12 level that are aligned with the workforce development efforts occurring through the Strong Workforce Program.

(c) (1) Pursuant to subdivision (b), one hundred fifty million dollars (\$150,000,000) shall be apportioned by the chancellor’s office to the fiscal agent of each consortium based on the following weighted factors in each region:

(A) The unemployment rate. This factor shall comprise 33 percent of the allocation formula.

(B) The region’s total average daily attendance for pupils in grades 7 to 12, inclusive. This factor shall comprise 33 percent of the allocation formula. For purposes of this section, average daily attendance shall be those figures that are reported at the time of the second principal apportionment for the previous fiscal year.

(C) The proportion of projected job openings. This factor shall comprise 34 percent of the allocation formula.

(2) Of the amounts apportioned to each consortium pursuant to paragraph (1), 4 percent is designated for applicants with total average daily attendance of less than or equal to 140, 8 percent is designated for applicants with total average daily attendance of more than 140 and less than or equal to 550, and 88 percent is designated for applicants with total average daily attendance of more than 550, unless otherwise determined by the K-12 Selection Committee formed pursuant to Section 88829, in consultation with the consortium. For any applicant consisting of more than one school district, county office of education, charter school, or regional occupational center or program (ROCP) operated by a joint powers authority or county office of education, or any combination of those entities, the sum of the average daily attendance for each of the constituent entities shall be used for purposes of this subdivision.

(3) The chancellor’s office shall provide to the Superintendent of Public Instruction, the Department of Finance, and the Legislative Analyst a schedule of proposed allocations, as determined pursuant to paragraph (1), for each consortium no later than August 30 of each year. The Department of Finance shall approve the allocation plan before the release of funding.

(d) Funds appropriated in the annual Budget Act to support consortia administrative costs shall be apportioned by the chancellor’s office in an amount equal to 1 percent of each consortium’s K–12 allocation pursuant to this section to support the costs to administer the regional grant process and to support the duties of the K–12 Selection Committee.

88828. This section applies to the K–12 component only. Each consortium shall administer a competitive grant program to distribute funding allocated pursuant to subdivision (c) of Section 88827 to eligible grant recipients. Consortia are encouraged to collaboratively develop a uniform grant application process that includes a process for grant renewals and for a grant applicant to appeal a grant award decision of the K–12 Selection Committee. As part of the application process, each consortium shall ask applicants to indicate whether they have received a grant under the California Career Technical Education Incentive Grant Program established pursuant to Chapter 16.5 (commencing with Section 53070) of Part 28 of Division 4 of Title 2. To the extent an applicant's career technical education program, or programs, offered in the 2018–19 fiscal year do not align with its consortium's plan developed pursuant to Section 88823, the applicant shall be deemed to meet this requirement by including in its grant application the steps that it will take during the 2018–19 fiscal year to align its career technical education program, or programs, with its consortium's plan.

(c) (1) The local educational agency shall provide matching funds for any grant funding received from this program as follows:
