Equal Employment Opportunity Reports
1980 Census

The enclosed reports were developed by the California State Data Center (CaSDC) within the Demographic Research Unit from the Equal Employment Opportunity (EEO) Special File. There are three reports:

- Total Labor Force by sex, race, and Hispanic origin (1-page)
- Occupational groups by sex, race, and Hispanic origin (3-pages)
- Detailed occupations by sex, race, and Hispanic origin (86-pages)

The universe for these reports is the civilian labor force. Race categories include: Hispanic (all races); White, not Hispanic; Black, not Hispanic; American Indian, not Hispanic; Asian and Pacific Islander, not Hispanic; and Other Race, not Hispanic.

Census occupation categories, generally based on the 1977 Standard Occupational Classification system, are fully defined in the *Classified Index of Industries and Occupations*, online at http://archive.org/download/classifiedindexo804unse/classifiedindexo804unse.pdf . Census occupation codes provide 503 specific occupational categories for employed individuals. Occupation is not coded for military personnel.

The EEO Special File serves as the primary external benchmark for comparing the race, ethnicity, and sex composition of an organization's internal workforce, to the analogous external labor market, within a specified geography and occupation.

Questions about these reports should be addressed to:
