

# **Environmental Protection**

---

California Environmental Protection Agency programs restore and protect environmental quality, and protect public health. The Secretary coordinates the state's environmental regulatory programs and ensures fair and consistent enforcement of environmental law, which safeguards the state's residents and promotes the state's economic vitality.

## 3900 Air Resources Board

The Air Resources Board has primary responsibility for protecting air quality in California. This responsibility includes establishing ambient air quality standards for specific pollutants, administering air pollution research studies, evaluating standards adopted by the U.S. Environmental Protection Agency and developing and implementing plans to attain and maintain these standards. These plans include emission limitations for vehicular and industrial sources established by the Board and local air pollution control districts. The Air Resources Board also has the responsibility, in coordination with the Secretary for Environmental Protection, to develop measures to reduce greenhouse gas emissions to 1990 levels by 2020, pursuant to Chapter 488, Statutes of 2006 (AB 32).

Since department programs drive the need for infrastructure investment, each department has a related capital outlay program to support this need. For the specifics on the Air Resources Board's Capital Outlay Program see "Infrastructure Overview."

### 3-YR EXPENDITURES AND POSITIONS (Summary of Program Requirements)

	Positions			Expenditures

### LEGAL CITATIONS AND AUTHORITY

#### PROGRAM AUTHORITY

15-Mobile Source:

Health and Safety Code Sections 38500 et seq. and 43000 et seq.

25-Stationary Source:

Health and Safety Code Sections 38500 et seq. and 39000 et seq.

35-Subvention:

Health and Safety Code Section 39800 et seq.

### MAJOR PROGRAM CHANGES

- Heavy-Duty Vehicle Regulatory Implementation - The Budget includes \$1.6 million Motor Vehicle Account and 4.8 positions to provide compliance assistance and outreach to businesses and individuals subject to new heavy-duty diesel-powered vehicle regulations aimed at reducing toxic air contaminant and criteria pollutant emissions to meet federal clean air standards.

\* Dollars in thousands

### 3900 Air Resources Board - Continued

- Greenhouse Gas Reporting-Emission Verification - The Budget includes \$362,000 Air Pollution Control Fund and one position to ensure the correctness of emission reduction credits used to meet the requirements of greenhouse gas regulations and to oversee and validate the third-party verification of greenhouse gas emissions from major sources beginning January 1, 2010.

#### PROGRAM DESCRIPTIONS (Program Objectives Statement)

##### 15 - MOBILE SOURCE

The Mobile Source Program works to improve air quality by reducing emissions from internal combustion engines as follows:

- Develop, implement and enforce laws and regulations limiting emissions from new and in-use vehicles and assess the effectiveness of established procedures.
- Develop testing and evaluation procedures for vehicles, engines, emission control components, fuel additives and test equipment to ensure that emission standards are met.
- Conduct information and training seminars for vehicle dealers, mechanics, inspectors and members of the public on vehicle emissions and resulting air pollution.
- Develop measures for reducing greenhouse gas emissions from mobile and other sources as required by the California Global Warming Solutions Act of 2006.

##### 25 - STATIONARY SOURCE

The Stationary Source Program works with air pollution control districts and the business and scientific communities to reduce emissions from stationary sources to comply with state and federal laws as follows:

- Develop measures for reducing emissions from stationary and other sources as required by the California Clean Air Act and work with local air pollution control districts to achieve and maintain state and federal ambient air quality standards.
- Identify substances that are toxic air contaminants and develop measures to control their emissions.
- Assist industries wishing to locate or expand in California and provide comments to lead agencies and districts on applications for permits to construct or modify facilities that are major sources of air pollution.
- Develop measures for reducing greenhouse gas emissions from stationary and other sources as required by the California Global Warming Solutions Act of 2006.

\* Dollars in thousands

**3900 Air Resources Board - Continued****35 - SUBVENTION**

The Air Resources Board provides subventions to local air pollution control districts in order to encourage and provide support for effective district programs. The state's 35 local air pollution control districts have the primary responsibility for controlling stationary sources of air pollution in California.

**INFRASTRUCTURE OVERVIEW**

The Air Resources Board has a headquarters location and several specialized field offices including motor vehicle testing and analysis laboratories and 42 air monitoring sites. The air monitoring sites are leased from public or private entities and consist of mainly air monitoring equipment. Many of these air monitoring sites are located on building rooftops, in small areas within buildings, or in a field.

**3910 California Integrated Waste Management Board**

The California Integrated Waste Management Board protects public health and safety and the environment through the regulation of solid waste facilities, including landfills. The Board promotes the following waste management practices: (1) source reduction, (2) recycling and composting, (3) reuse, and (4) environmentally safe transformation and land disposal. Additional Board activities include research, permitting, inspection, enforcement, public awareness, market development to promote recycling industries, and technical assistance to local agencies in the development of local integrated waste management plans.

### LEGAL CITATIONS AND AUTHORITY

#### DEPARTMENT AUTHORITY

Health and Safety Code Section 4500, Public Resources Code Section 40000 et seq., Public Resources Code Section 48020 et seq., and Public Resources Code Section 42860 et seq.

### MAJOR PROGRAM CHANGES

- **Waste Tire Recycling Program:** The budget includes \$8.6 million Tire Recycling Management Fund and 4.3 positions to implement the Waste Tire Recycling Management Program activities as described in the Options to Increase Waste Tire Diversion Rates: Report to the Legislature (May 2008). The augmentation includes \$4.0 million for a new equipment loan program, \$2.1 million for local assistance grants, and \$2.0 million for public outreach and education.
- **Reduction of Greenhouse Gas Emissions:** The budget includes the redirection of \$1.3 million Integrated Waste Management Account and an additional 5.7 positions to implement Chapter 488, Statutes of 2006 (AB 32). The Integrated Waste Management Board will implement targeted activities to reduce greenhouse gas emissions from landfills including increased source reduction and development of markets to divert waste materials.

### PROGRAM DESCRIPTIONS (Program Objectives Statement)

#### 11 - WASTE REDUCTION AND MANAGEMENT

The objectives of the Waste Reduction and Management Program include:

- Ensuring that all nonhazardous solid wastes are stored, collected, processed, and disposed of in a safe and environmentally sound manner.
- Participating in the development and maintenance of local solid waste management plans, which describe how each city and county will reduce the amount of solid waste disposed to achieve a 50 percent diversion of waste from landfills.
- Cleaning up solid waste disposal sites for which the responsible party either cannot be identified or is unable or unwilling to pay for timely remediation, and where cleanup is needed to protect health and safety or the environment.
- Reducing the amount of waste generated and promoting composting, recycling, and the use of recycled materials in manufacturing processes.
- Reducing the number of used tires that are placed in landfills or illegally dumped or stockpiled and promoting technologies that turn waste tires into useful products.
- Reducing the amount of improperly disposed used oil and promoting used oil recycling.
- Reducing electronic waste by providing for the safe and convenient collection and recycling of specified electronic equipment.
- Assisting schools by incorporating environmental concepts into the California State Science Framework and establishing an integrated systems model to incorporate resource conservation and sustainability into educational materials.

**3930 Department of Pesticide Regulation**

The Department of Pesticide Regulation protects public health and the environment by regulating all aspects of the sale and use of pesticides and by promoting reduced-risk pest management strategies. The Department ensures compliance with pesticide laws and regulations through its oversight of County Agricultural Commissioners, who enforce pesticide laws at the local level.

#### LEGAL CITATIONS AND AUTHORITY

##### PROGRAM AUTHORITY

10-Pesticide Programs:

Food and Agricultural Code, Divisions 2, 6 and 7.

#### MAJOR PROGRAM CHANGES

- Pesticide Pollution Prevention Alliance Grants - The Budget includes \$404,000 Department of Pesticide Regulation Fund to continue funding for Pesticide Pollution Prevention Grants. These grants, authorized on a two-year limited term basis in the 2007 Budget Act, focus on the implementation of integrated pest management practices that reduce or eliminate pollution and pesticide exposure in agricultural and urban environments.
- Light Brown Apple Moth Eradication Monitoring - The Budget includes \$201,000 in reimbursement authority and 1.9 positions to monitor pesticide applications the California Department of Food and Agriculture conducts to eradicate the Light Brown Apple Moth.

### PROGRAM DESCRIPTIONS (Program Objectives Statement)

#### 10 - PESTICIDE PROGRAMS

This program protects California residents and the environment from adverse pesticide impacts with particular emphasis on the protection of children, vulnerable populations and communities. Specific activities are to:

- Evaluate whether to register pesticide products for sale or use in California.
- Assess the human health risks from pesticides.
- Administer licensing and certification of pest control applicators, businesses, dealers and advisors.
- Collect and evaluate trends of pesticide use.
- Monitor pesticide residues in fresh produce, air, ground and surface water, and occupational settings.
- Mitigate human health and environmental hazards from pesticides.
- Oversee local enforcement of pesticide laws and regulations by the County Agricultural Commissioners.
- Prevent the sale and distribution of unregistered pesticide products and ensure compliance with mill assessment responsibilities.
- Promote the implementation of reduced risk pest management policies.

**3940 State Water Resources Control Board**

The State Water Resources Control Board (State Board) and the nine Regional Water Quality Control Boards (Regional Boards) preserve and enhance the quality of California's water resources and ensure proper allocation and effective use. These objectives are achieved through the Water Quality and Water Rights programs.

**3-YR EXPENDITURES AND POSITIONS (Summary of Program Requirements)**

Funding provided by the State Water Quality Control Fund and the Federal Trust Fund offsets State operations expenditures for the State Water Pollution Control Revolving Fund.

Loan repayments from public agencies as well as funding provided by the State Water Pollution Control Revolving Fund and the Federal Trust Fund offset local assistance expenditures for the State Water Pollution Control Revolving Fund.

**LEGAL CITATIONS AND AUTHORITY****PROGRAM AUTHORITY**

10-Water Quality:

\* Dollars in thousands

## 3940 State Water Resources Control Board - Continued

California Water Code Section 13000 et seq., and powers delegated to the state by federal water pollution control legislation.

20-Water Rights:

Division 2 of the California Water Code and Title 23 of the California Administrative Code.

### MAJOR PROGRAM CHANGES

- **Groundwater Quality:** The budget includes \$1.9 million to develop pilot projects in the Tulare Lake Basin and the Salinas Valley that focus on nitrate contamination in groundwater. The State Water Resources Control Board's actions, outlined by SB X2 1, will improve the understanding of the causes of groundwater contamination, identify potential remediation solutions, and recommend funding sources to recover costs expended by the state for cleanup activities.
- **Wastewater Treatment for Small and Disadvantaged Communities:** Pursuant to Chapter 609, Statutes of 2008 (AB 2356), the budget includes \$1 million State Water Pollution Control Revolving Fund Small Community Grant Fund to provide advanced payment and streamlined processing of financial assistance to small and/or disadvantaged communities to meet their wastewater treatment obligations and improve water quality.

### PROGRAM DESCRIPTIONS (Program Objectives Statement)

#### 10 - WATER QUALITY

This program ensures the highest possible quality of water for the state. Specific activities are to:

- Formulate, adopt and update water quality control plans and policies that set standards and provide guidance in water management decisions.
- Monitor water quality to determine compliance with control plans, permit terms, conditions and water standards; implement the Total Maximum Daily Loads program to address pollution in the state's most seriously impaired water bodies by developing plans that allocate responsibility for reducing pollution.
- Ensure that the waters of the state are not degraded by hazardous waste spills or tank leaks, or by spills or tank leaks from solid and hazardous waste treatment, storage, and disposal facilities.
- Require waste dischargers, including storm water dischargers, to prevent and abate water pollution and inspect dischargers to determine compliance with requirements.
- Assist owners and operators of underground tanks in financing the cleanup of unauthorized releases from their tanks.

#### 20 - WATER RIGHTS

This program ensures that California's water resources are put to beneficial use, while protecting prior rights, water quality

\* Dollars in thousands

### 3940 State Water Resources Control Board - Continued

and the environment. Specific activities are to:

- Allocate the unappropriated waters of the state to ensure the use of water in accordance with state laws.
- Maintain a record of title of appropriative water rights initiated and maintained since 1914, including those for stockponds, livestock and small domestic use ponds.
- Maintain records of water diversion and use under riparian and pre-1914 rights, stockpond water rights, groundwater extractions in four southern counties, and cessation of, or reduction in, extractions of groundwater by use of water from a contributory source.
- Enforce permit and license terms and conditions, abate illegal diversions, protect public trust resources, and prevent waste or unreasonable use under all rights.
- Assist the courts in determining existing rights to surface water throughout the state through court reference and statutory adjudication proceedings, and in determining rights to groundwater through the groundwater adjudication process.

#### 30 - ADMINISTRATION

This program includes management, program and policy direction, budgeting, accounting, human resources, data processing, legislation and public information for the department's programs, and coordination with the nine Regional Water Quality Control Boards.

### 3960 Department of Toxic Substances Control

The Department of Toxic Substances Control protects public health and the environment by: (a) regulating hazardous waste management activities, (b) overseeing and performing cleanup activities at sites contaminated with hazardous substances, (c) encouraging pollution prevention and the development of environmentally protective technologies, and (d) providing regulatory assistance and public education.

Since department programs drive the need for infrastructure investment, each department has a related capital outlay program to support this need. For the specifics on the Department of Toxic Substances Control's Capital Outlay Program see "Infrastructure Overview."

21-State as Certified Unified Program Agency:

Health and Safety Code Section 25404 et seq.

### MAJOR PROGRAM CHANGES

- **Green Chemistry:** The budget includes the redirection of \$2.3 million and 12.3 positions within the Department of Toxic Substances Control to implement Chapter 559, Statutes of 2008 (AB 1879) and Chapter 560, Statutes of 2008 (SB 509). AB 1879 provides for a systematic and consistent approach to the evaluation of chemicals of concern in consumer products. SB 509 authorizes an online Toxics Information Clearinghouse that will allow consumers, manufacturers, and businesses to have access to information on chemicals in products and their effects on people and the environment.

### PROGRAM DESCRIPTIONS (Program Objectives Statement)

#### 12 - SITE MITIGATION AND BROWNFIELDS REUSE

This program implements the state's site cleanup laws and the federal Superfund program. The program currently oversees approximately 1,000 hazardous substances release site investigations and cleanups, and monitors long-term operations and maintenance activities at approximately 200 sites where the cleanup process has been completed. Additionally, the department is responsible for ensuring compliance with the terms of the 469 land use restrictions now in place on properties throughout the state. New sites are identified through surveillance and enforcement efforts, through emergency response activities, by examination of other previously identified potential sites, and voluntarily by public and private entities that request departmental oversight in order to return the properties to productive use. These sites and projects include the cleanup of federal and state superfund properties, abandoned mines, and other abandoned and underutilized properties known as "brownfields," and open and closed military installations. The program is responsible for overseeing environmental assessments and cleanups at proposed new or expanding school sites to prevent or reduce potential exposure of students and staff to hazardous materials. The program also is responsible for the Stringfellow Hazardous Waste Site, a former hazardous waste disposal site and federal Superfund Site. The program works with the California Emergency Management Agency and other state agencies to assure California is ready to respond to acts of terrorism involving the use of toxic chemicals. This program also continues to work closely with other State agencies, the United States Environmental Protection Agency, and local agencies throughout the state to establish and implement viable grant and loan programs to aid in assessment and cleanup of brownfield sites.

#### 13 - HAZARDOUS WASTE MANAGEMENT

This program regulates the generation, storage, transportation, treatment and disposal of hazardous waste to minimize risks to public health and the environment. The program oversees 124 permitted facilities which manage hazardous waste, approximately 930 registered businesses which transport hazardous waste, over 620 facilities/generators subject to corrective action, and over \$1.8 billion in financial assurance. This program monitors hazardous waste transfer, storage, treatment and disposal facilities for illegal activity; including electronic manifest surveillance and monitoring of registered hazardous waste transporters; and takes appropriate enforcement action against hazardous waste handlers that violate hazardous waste requirements found through routine inspections, complaint investigations, and focused enforcement initiatives. The program also ensures compliance with hazardous waste requirements related to electronic waste fraud and

\* Dollars in thousands

## 3960 Department of Toxic Substances Control - Continued

certain consumer products including lead in jewelry and toxic substances in packaging.

### 19 - ADMINISTRATION

This program provides accounting, budgeting, revenue collection, human resource and workforce management, data processing, performance management, business services, and other administrative support to the Department's programs. The Program also supports operations in Sacramento, Clovis, Berkeley, Chatsworth, Cypress, San Diego and El Centro including two environmental chemistry laboratories located in Northern and Southern California.

### 20 - SCIENCE, POLLUTION PREVENTION AND TECHNOLOGY

This program provides scientific leadership in the areas of green chemistry, pollution prevention, and hazardous waste source reduction; analytical and environmental chemistry; biomonitoring; human and ecological exposure and risk assessment; industrial hygiene and workplace safety; innovative environmental technologies development; and nanotechnology issue.

These ongoing activities not only provide the scientific basis for informed regulatory, enforcement, and site clean-up decision-making, but also support governments, businesses, the universities and the public in (1) the early detection of toxic substances via biomonitoring and product monitoring, (2) the statewide reduction in the use of toxic substances and the use of safer green chemistry alternatives, (3) the encouragement of independent research on green chemistry alternatives, (4) adoption of pollution prevention strategies, (5) the evaluation and deployment of new environmental technologies, and (6) the development of California of strategies for emerging issues, such as nanomaterials.

### 21 - STATE AS CERTIFIED UNIFIED PROGRAM AGENCY

The California Environmental Protection Agency designated the Department of Toxic Substances Control as the Certified Unified Program Agency (CUPA) in Trinity and Imperial Counties. As the CUPA, the department is responsible for implementing the six elements of the Unified Program: hazardous waste generator and onsite treatment activities, spill prevention control and countermeasure plans for owners of aboveground petroleum storage tanks, underground storage tank program, hazardous material release response plans and inventories, California Accidental Release Prevention program, and certain Uniform Fire Code requirements pertaining to hazardous material management plans and inventories.

**INFRASTRUCTURE OVERVIEW**

The Department of Toxic Substances Control leases nine facilities throughout California. These facilities include space for offices, specialized fieldwork, sample and field equipment storage, two environmental chemistry laboratories, and an information center for the Stringfellow Superfund site. These facilities comprise a total of approximately 405,469 square feet located in Sacramento, Clovis, Berkeley, Chatsworth, Los Angeles, Glen Avon, Cypress, San Diego, and El Centro.

**3980 Office of Environmental Health Hazard Assessment**

The Office of Environmental Health Hazard Assessment protects and enhances public health and the environment through objective scientific evaluation of risks posed by hazardous substances. The Office performs risk assessments for various regulatory programs under the California Environmental Protection Agency, as well as other state and local agencies, and provides these programs with the scientific tools and information upon which to base risk management decisions. Distinct programs focus on assessing health risks, including risks to children and other sensitive subpopulations, from exposure to chemicals in air, water, food, consumer products, hazardous and municipal waste facilities, fish and shellfish, and sediments in bay and estuarine waters.

### MAJOR PROGRAM CHANGES

- Proposition 65 Workload - The Budget includes \$675,000 Safe Drinking Water and Toxic Enforcement Fund and 4.3 positions to provide legal and legislative support and to identify and list chemicals subject to the provisions of Proposition 65.
- Light Brown Apple Moth Eradication - The Budget includes \$665,000 in increased reimbursement authority and 2.9 positions for the Office of Health Hazard Assessment to assist the California Department of Food and Agriculture by providing health risk assessments for proposed pesticide formulations to be used to control this insect and other invasive species that endanger California's agriculture industry.
- Cumulative Impact of Multiple Environmental Contaminants - The Budget includes \$245,000 increased reimbursement authority and one position for the Office of Environmental Health Hazard Assessment to develop a process to assess the cumulative health impacts of exposure to multiple environmental contaminants.

### PROGRAM DESCRIPTIONS (Program Objectives Statement)

\* Dollars in thousands

## 3980 Office of Environmental Health Hazard Assessment - Continued

### 10 - HEALTH RISK ASSESSMENT

This program provides tools that form the basis for a scientific approach to assessing both health and environmental risks across all environmental exposure sources. The program identifies chemicals with the potential to cause adverse health effects, quantifies risks and recommends health-based goals and standards, develops scientific policies and guidelines for hazard identification and risk assessment, and provides medical, scientific, and public health support, consultation, and training to state regulators, local governmental agencies, and the public. Particular attention is paid to protecting the health of infants and children.
