

# Transition to data.census.gov

California State Data User Conference  
November 5, 2019

KaNin Reese  
Center for Enterprise Dissemination (CED)  
U.S. Census Bureau

U.S. Department of Commerce  
U.S. CENSUS BUREAU  
[census.gov](https://www.census.gov)

1

## [data.census.gov](https://data.census.gov): Changing the way you get data at the U.S. Census Bureau

### Transitioning from American FactFinder (AFF) to [data.census.gov](https://data.census.gov):

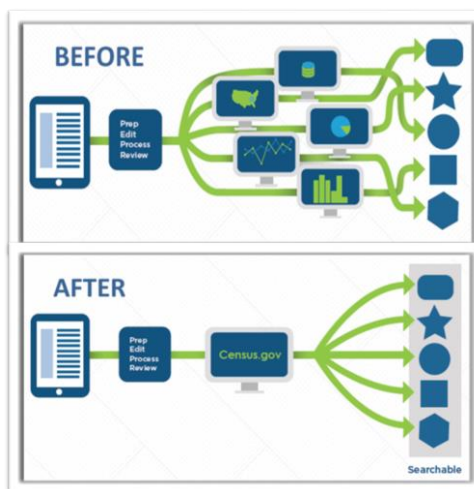

- Streamline access to data
- Maintain best of current tools
- Reduce redundancies and costs
- Provide greater access to Census API

### Most AFF data migrated to the Census API and [data.census.gov](https://data.census.gov):

- Spring 2020

### First major releases exclusively on [data.census.gov](https://data.census.gov) this September:

- 2017 Economic Census
- 2018 American Community Survey 1-Year Estimates

U.S. Department of Commerce  
U.S. CENSUS BUREAU

4

# How to Use data.census.gov

## 1. How to Search

## Two Options To Start Your Search:

1. Single Search:
  - Free form search box
2. Advanced Search
  - Select search criteria in a step-by-step filtering experience where you select desired checkboxes

**Explore Census Data**

The Census Bureau is the leading source of quality data about the nation's people and economy.

🔍 I'm looking for ...

[Advanced Search](#)

### Tips:

- You can find many results with either search option
- You can only access some complex topics/geographies using the advanced search. Give advanced search a try if you're not finding a quick answer to your data question with single search.

## Single Search: Keywords and Codes

The screenshot shows the U.S. Census Bureau search interface. On the left, there are three search boxes with the following queries: "commuting sacramento", "s0801 sacramento", and "dp sacramento". Below these are two more search boxes: "gas stations in sacramento" and "447 sacramento". Red arrows point from each search box to a corresponding search result. The first result is a table titled "COMMUTING CHARACTERISTICS BY SEX". The second result is a table titled "SELECTED SOCIAL CHARACTERISTICS IN THE UNITED STATES". The third result is a table titled "SELECTED ECONOMIC CHARACTERISTICS".

**Type keywords or codes to specify your:**

- Geography
- Topic(s)
- Table ID
- Table prefix
- NAICS code

United States Census Bureau  
U.S. Department of Commerce  
U.S. CENSUS BUREAU  
census.gov

7

## Advanced Search: More Complex Searches

The screenshot shows the U.S. Census Bureau Advanced Search interface. The header includes the "United States Census Bureau" logo and a search bar. The main heading is "Advanced Search". Below it, the text "Narrow search with filters" is displayed. A section titled "FIND A FILTER" contains a search bar with the example text "e.g. 336111 - Automobile Manufacturing". To the left of the search bar is a "BROWSE FILTERS" section with a red border, containing the following options: Topics, Geography, Years, Surveys, and Codes. Below the search bar, the text "Please select a filter to narrow your search." is displayed. At the bottom, there is a "Selected Filters:" section, a "CLEAR FILTERS" button, a "SEARCH" button, and a "MORE" link.

Use Advanced Search to specify:

- Geographies with:
  - Complex names (ex: tracts)
  - Collections (ex: all counties in TN)
  - Components (ex: urban/rural)
- Multiple Topics
- Survey/Program/Table Type
- Population Groups
  - Race, Tribal, Hispanic Origin, Ancestry, and Foreign Born groups

8

## Advanced Search Example: Commuting by Earnings in 2018: California, Sacramento County, Sacramento, Sacramento-Roseville-Arden-Arcade Metro Area

Find and select checkboxes in a series of step by step clicks

- Year
- Topics
- Geographies

Selected Filters: Commuting, Earnings (Individuals), 2018, California, Sacramento County, California, Sacramento city, California, Sacramento-Roseville-Arden-Arcade, CA Metro Area

9

## Advanced Search Example: Economic Data - Gas Stations in California

Find and select codes by industry, product, service, and commodity through step by step clicks

44-45 - Retail trade

447 - Gasoline stations

California

Geography Area Series: County Business Patterns by Employment...

## Data Notes

The screenshot shows the 'Data Notes' section for the 'MEANS OF TRANSPORTATION TO WORK BY WORKERS' EARNINGS IN THE PAST 12 MONTHS (IN 2018 INFLATION-ADJUSTED DOLLARS)' table. The 'Data Notes' button is highlighted in the top navigation bar. The 'Data Notes' section contains the following text:

**MEANS OF TRANSPORTATION TO WORK BY WORKERS' EARNINGS IN THE PAST 12 MONTHS (IN 2018 INFLATION-ADJUSTED DOLLARS)**

Survey/Program: American Community Survey  
 Universe: Workers 16 years and over with earnings  
 Year: 2018  
 Estimates: 1-Year  
 Table ID: B08119

Source: U.S. Census Bureau, 2018 American Community Survey 1-Year Estimates

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities, and towns and estimates of housing units for states and counties.

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see ACS Technical Documentation). The effect of nonsampling error is not represented in these tables.

Workers include members of the Armed Forces and civilians who were at work last week.

While the 2018 American Community Survey (ACS) data generally reflect the July 2015 Office of Management and Budget (OMB) delineations of metropolitan and micropolitan statistical areas, in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB delineations due to differences in the effective dates of the geographic entities.

## More Data

The screenshot displays the 'More Data' section of the Census Bureau's data tool. The top navigation bar includes options like 'Data Notes', 'Geographies', 'Years', 'Topic', 'Survey', '123 Code', 'Hide', 'Filter', 'Sort', 'Transpose Table', 'Margin of Error', 'Restore Layout', 'Download', 'Print', 'Share', 'More Data' (highlighted with a red box), and 'Map'. Below this, the 'Download / Print / Share' section has tabs for 'DOWNLOAD', 'EMBED', 'SHARE', 'API', 'PRINT', and 'MORE DATA'. The 'MORE DATA' tab is active, showing a 'More Data' section with a link to download larger data files. A red box highlights the 'CONTINUE TO SITE' button. Below the main content, there is a table with columns 'Name', 'Last modified', and 'Size Description'. The table lists a file named 'NS1700NONEMP.zip' with a last modified date of '27-Jun-2019 11:20 24M'. A red box highlights this row. To the right, a Windows File Explorer window shows the file 'NS1700NONEMP.zip' in the 'Downloads' folder, with a size of 246 MB. The file is highlighted with a red box. The bottom of the page features the United States Census Bureau logo and the text 'U.S. Department of Commerce U.S. CENSUS BUREAU census.gov'.

19

## How to Use data.census.gov

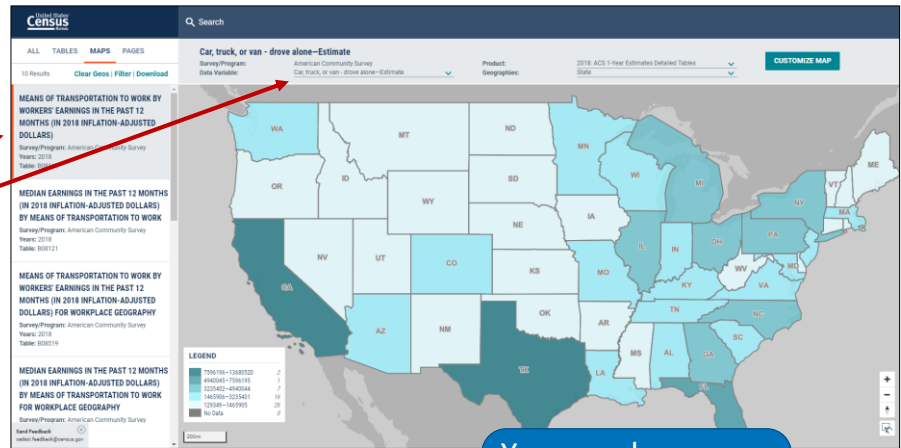

### 5. Mapping the data

20

# Mapping

Map a data variable from a table

1. Select your table
2. Select your variable
3. Add or remove geographies:
  - ✓ Filter option
  - ✓ Rectangle selection tool
  - ✓ Click on the map

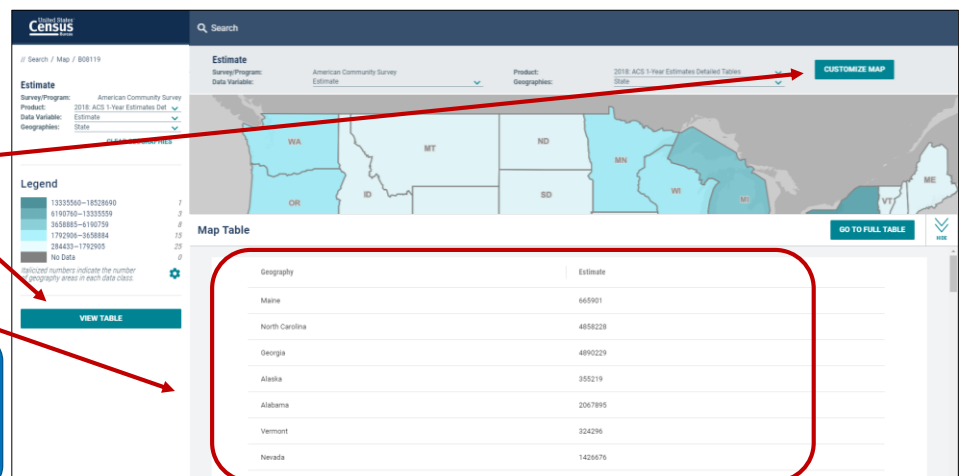

You can change your geography or variable within the map view

## Table View of Mapped Estimate

You can now create a table view of the single estimate you mapped

1. Click Customize Map
2. Click View Table in the left panel
3. View your table

Tip: View table allows for a create your own geographic comparison similar to the functionality of AFF.

Data Notes   HIDE

**PUBLIC HEALTH INSURANCE COVERAGE BY TYPE AND SELECTED CHARACTERISTICS**  
Survey/Program: American Community Survey  
Year: 2018  
Estimates: 1-Year  
Table ID: S2704  
Source: U.S. Census Bureau, 2018 American Community Survey 1-Year Estimates

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities, and towns and estimates of housing units for states and counties.

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see [ACS Technical Documentation](#)). The effect of nonsampling error is not represented in these tables.

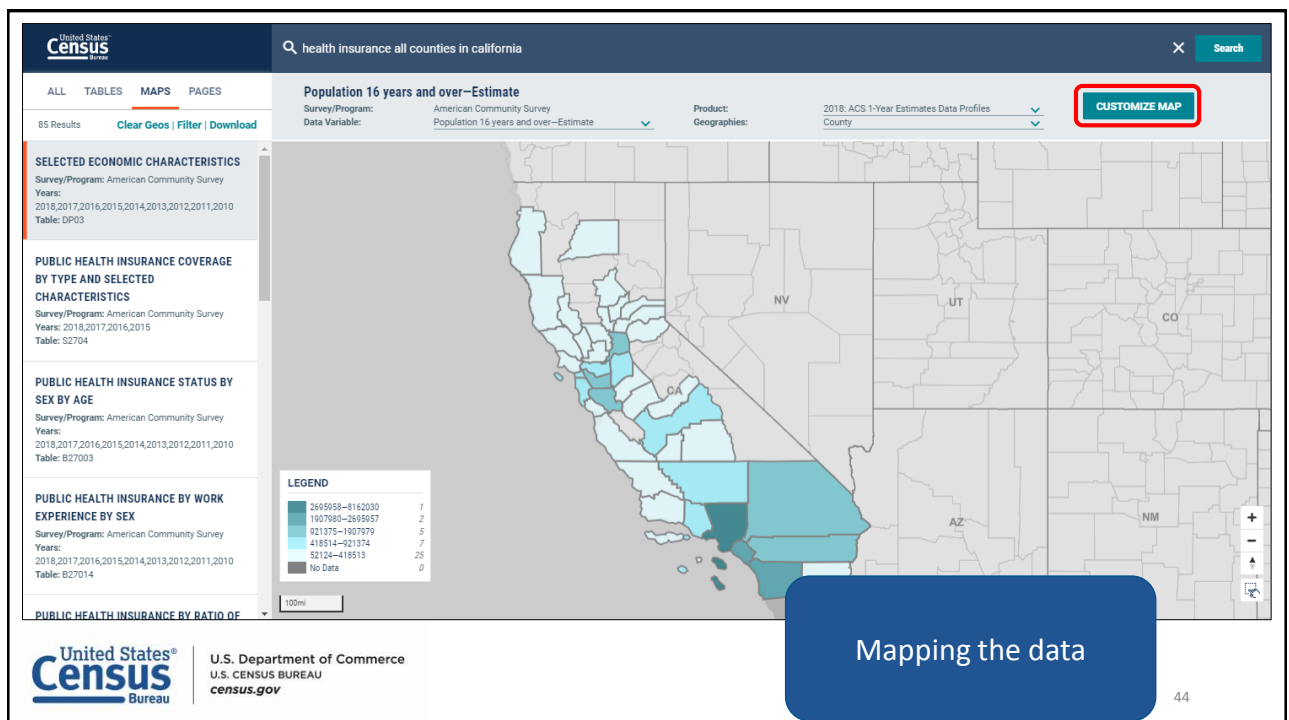

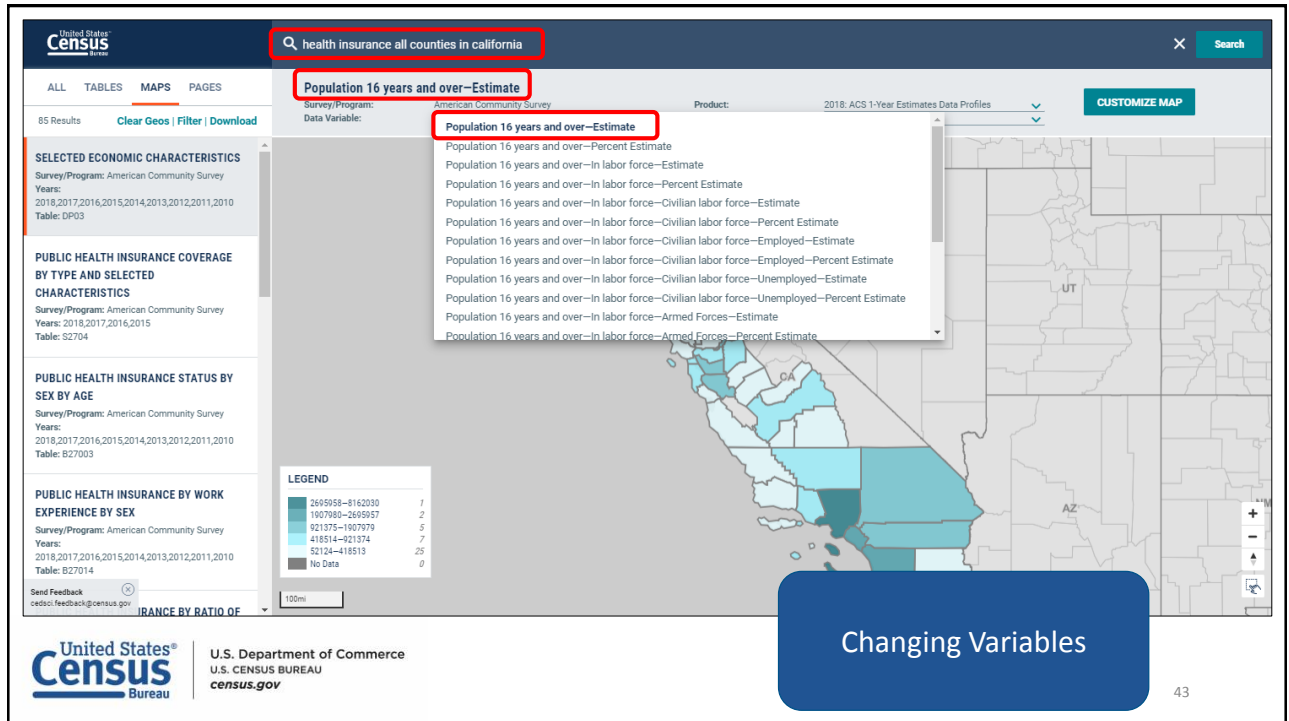

Logical coverage edits applying a rules-based assignment of Medicaid, Medicare and military health coverage were added as of 2009 – please see [https://www.census.gov/library/working-papers/2010/demo/coverage\\_edits\\_final.html](https://www.census.gov/library/working-papers/2010/demo/coverage_edits_final.html) for more details. The 2008 data table in American FactFinder does not incorporate these edits. Therefore, the estimates that appear in these tables are not comparable to the estimates in the 2009 and later tables. Select geographies of 2008 data comparable to the 2009 and later tables are available at <https://www.census.gov/data/tables/time-series/acs/1-year-re-run-health-insurance.html>. The health insurance coverage category names were modified in 2010. See [https://www.census.gov/topics/health/health-insurance/about/glossary.html#par\\_textimage\\_18](https://www.census.gov/topics/health/health-insurance/about/glossary.html#par_textimage_18) for a list of the insurance type definitions.

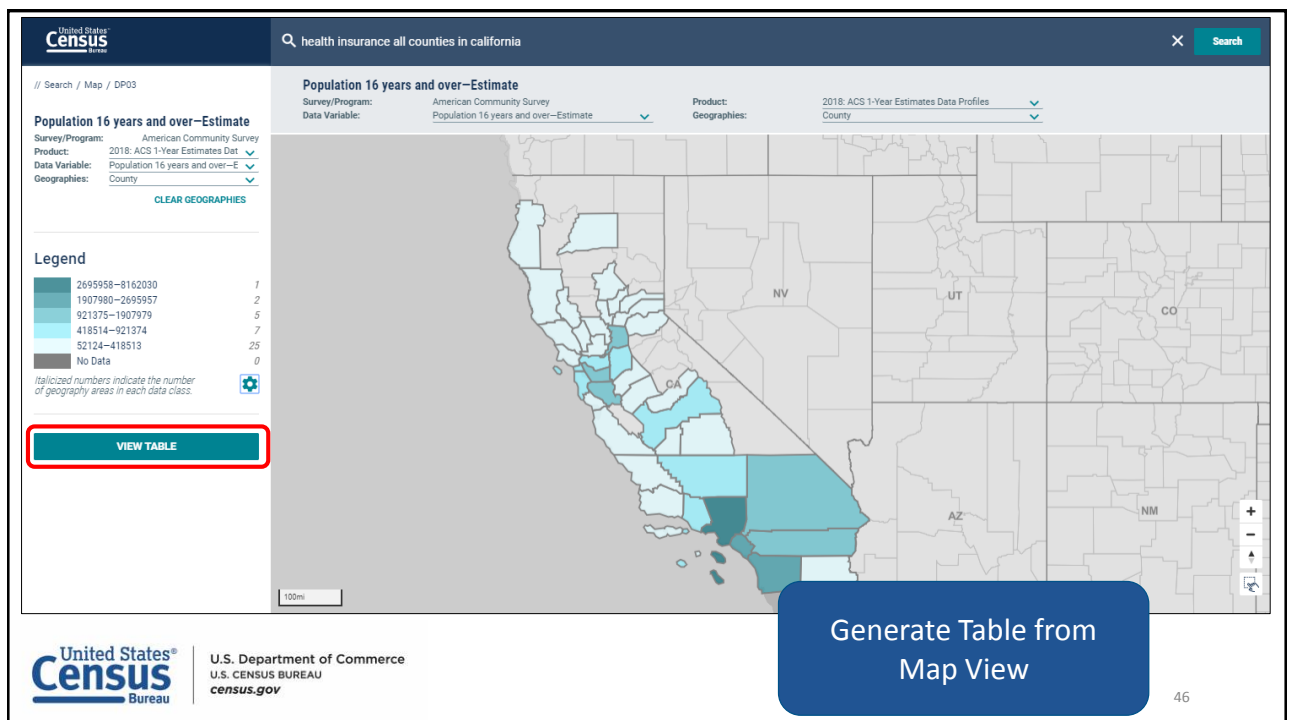

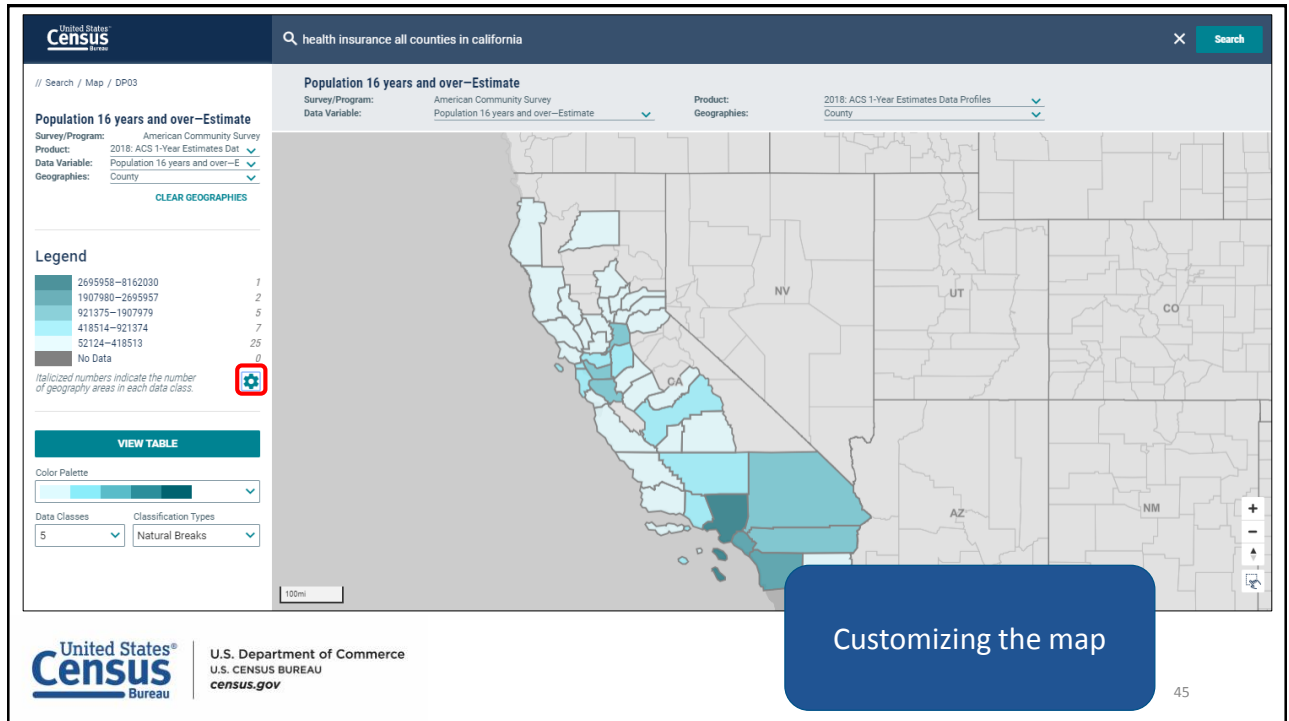

Beginning in 2017, selected variable categories were updated, including age-categories, income-to-poverty ratio (IPR) categories, and the age universe for certain categories. See ["Health Insurance Table Updates"](#) for further details.

While the 2018 American Community Survey (ACS) data generally reflect the July 2015 Office of Management and Budget (OMB) delineations of metropolitan areas, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB delineations due to differences in the effective dates of the geographic boundaries.

# Collections of Geographies: Where Are the Checkboxes to Select All Geos in a List?

**More checkboxes coming for 2018 ACS 5-year release in December. In the meantime:**

- Use maps on [data.census.gov](https://data.census.gov) to select individual geographies or small groupings
- Use FTP sites or API
- Use American FactFinder to get data for collections of geographies from 2017 ACS 5-year release until we build the checkbox on [data.census.gov](https://data.census.gov)

Example: "All census tracts in Utah"

U.S. Department of Commerce  
U.S. CENSUS BUREAU  
[census.gov](https://census.gov)

51

## Print Functionality and PDF Downloads

**We hope to be able to build additional functionality on [data.census.gov](https://data.census.gov) in the future. In the meantime:**

Try right click options to get a table view in Excel

- Copy cells
- Copy cells with header
- Export entire table: Small tables less than 400 rows by 400 columns

Print from Excel or convert to PDF

## Geographic Comparison Tables and Ranking Tables

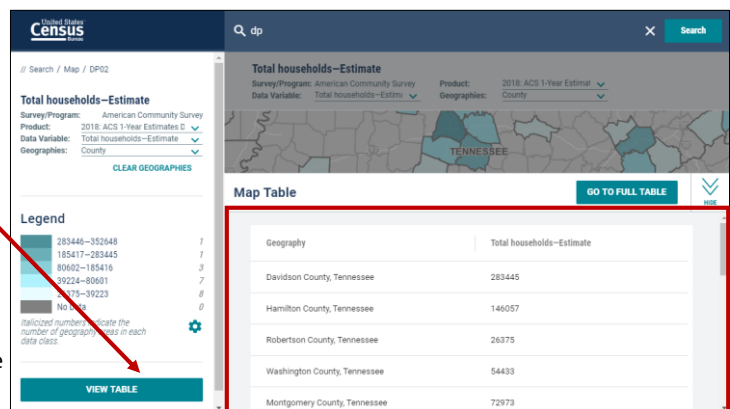

### Geographic Comparison Table:

[data.census.gov](https://data.census.gov) offers more flexibility to create a view similar to a Geographic Comparison Table for any estimate and set of geographies

- Map the estimate you are interested in and select “View Table” in the left panel of the “Customize Map” view

### Ranking Table:

- Download ACS Ranking Tables from the FTP site (new for 2018 ACS 1-year release)

# Topics Hierarchy

Topics Hierarchy has changed: Familiarize yourself with new topics layout.

The screenshot displays the Census Bureau's Topics Hierarchy interface. It features a sidebar with filters and a main area with various topic categories. Red boxes highlight the following items:

- Filters:** American Indian and Alaska Native
- Topics:** American Indian
- AMERICAN INDIAN AND ALASKA NATIVE:** American Indian
- AMERICAN INDIAN:** Navajo
- NAVAJO:** 244 - Navajo Nation tr grouping alone (F62-F)
- POPULATIONS AND PEOPLE:** Populations and People
- NATIVE AND FOREIGN BORN:** Foreign Born

The United States Census Bureau logo and U.S. Department of Commerce U.S. CENSUS BUREAU [census.gov](https://www.census.gov) are visible at the bottom left.

## Download Errors

Break your download into smaller pieces by using:

- Fewer geographies
- Fewer tables/vintages in a single download
- Smaller tables

Example: Download median income from Detailed Table B19013 instead of Subject Table S1903

Download from FTP Sites:
