

October 2020

**Report E-TE2: Census 2010 and Population Test Estimates - March 31, 2020  
Maps of Population and Housing Unit Change  
California and Counties**

**Content**

These population estimates are produced once a decade by the Department of Finance to provide the best estimate of population and housing as of March 31, 2020 for the state, counties, and incorporated municipalities. The 10-year perspective allows for retrospective consideration of the trends and changes that have occurred over the decade. Additionally, these estimates provide for evaluation and invite comparison to the Census 2020 results which will be released by the Census Bureau beginning in spring of 2021.

**These estimates are purely for informational and research use only.** They are not to be used by local areas to calculate their annual appropriations limit. Likewise, this March 31, 2020, estimate should not be used for budget or programmatic applications.

Additional information and data used to create these maps are available at
