

**2020 CALIFORNIA MAJOR REGULATIONS CALENDAR**

DF-130 (REV12/19)

Agency Name and Responsible Agency Unit: <b>California Air Resources Board, AQPSD</b>	
Name of Proposed Regulation: Proposed Amendments to the Antiperspirant and Deodorant; Consumer Products; Alternative Control Plan for Consumer Products; and Aerosol Coatings Regulations; and Test Method 310	Projected Date of Notice of Proposed Action: <b>October 2, 2020</b>
CCR Title and Sections Affected: Title 17, California Code of Regulations, Division 3, Chapter 1: Subchapter 8.5, Articles 1,2,3,4 Subchapter 8.6 Article 1	Statute(s), Propositions or Court Decision Being Implemented: <b>2018: SB1013</b>
Brief summary of the proposed regulation (1 paragraph or less):  In this rulemaking, California Air Resources Board staff is proposing amendments to the Regulation for Reducing Emissions from Consumer Products (Consumer Products Regulation) and CARB Test Method 310: Determination of Volatile Organic Compounds (VOC) in Consumer Products and Reactive Organic Compounds (ROC) in Aerosol Coating Products (Method 310). The primary purpose of the proposed amendments is to implement CARB's 2016 State Strategy for the State Implementation Plan for Federal Ozone and PM2.5 Standards by reducing VOC emissions from consumer products by 1-2 tons per day in the South Coast air basin by 2023 and 8-10 tons per day statewide by 2031. Agency Name and Responsible Agency Unit: <b>CalEPA - California Air Resources Board</b>	
Name of Proposed Regulation: <b>Proposed Control Measure for Harbor Craft</b>	Projected Date of Notice of Proposed Action: <b>November 2020</b>
CCR Title and Sections Affected: <b>Section 93118.5, title 17, Cal. Code Regs</b>	Statute(s), Propositions or Court Decision Being Implemented: HSC 38501, 38505, 38510, 38560, 38566, 39600, 39601, 39650, 39658, 39659, 39666, 41511, 43013, and 43018
Brief summary of the proposed regulation (1 paragraph or less): The existing Airborne Toxic Control Measure (ATCM) for Commercial Harbor includes in-use and new engine emission requirements for diesel engines on vessels operating in Regulated California Waters as ferries, excursion vessels, tugboats, towboats, crew boats and supply boats, as well as dredges and barges. Amendments to the ATCM will be proposed to further reduce toxic air contaminants and criteria pollutants from in-use harbor craft, and to require support facilities to report specified information and to allow installation of equipment to reduce in-use emissions from harbor craft. Agency Name and Responsible Agency Unit: <b>EPA/ARB/Monitoring and Laboratory Division</b>	
Name of Proposed Regulation: Amendments to Exhaust and Evaporative Emission Regulations for Small Off-Road Engines	Projected Date of Notice of Proposed Action: <b>November 19, 2020</b>
CCR Title and Sections Affected: <b>Title 13, sections 2400-2409, 2750-2774</b>	Statute(s), Propositions or Court Decision Being Implemented: <small>H&amp;SC 43013, 43017, 43018, 43101, 43102, 43104, 43150-43154, 43205.5, 43210-43212; 2016 State Implementation Plan</small>
Brief summary of the proposed regulation (1 paragraph or less):  The Board will consider amendments to the exhaust and evaporative emission regulations for small off-road engines that will phase in the transition of this emission source category to zero emissions and achieve further emission reductions during the transition period. Staff will propose gradual reductions of new emission standards to achieve an eventual end to spark-ignition engine sales, as well as other updates to the regulations to ensure engines meet the emission standards during real-world use throughout their useful life. **2020 CALIFORNIA MAJOR REGULATIONS CALENDAR**

DF-130 (REV12/19)

Agency Name and Responsible Agency Unit: <b>California Air Resources Board (CARB) - Mobile Source Control Division</b>	
Name of Proposed Regulation: Heavy-Duty Vehicle Inspection and Maintenance (HD I/M) Program	Projected Date of Notice of Proposed Action: <b>March 2021</b>
CCR Title and Sections Affected: <b>Title 13, Sections 2180-2187, 2190-2194</b>	Statute(s), Propositions or Court Decision Being Implemented: <b>Senate Bill (SB) 210</b>
Brief summary of the proposed regulation (1 paragraph or less): Currently, heavy-duty vehicles with gross vehicle weight rating (GVWR) greater than 14,000 pounds operating in California are subject to smoke opacity testing through the Heavy-Duty Vehicle Inspection Program and the Periodic Smoke Inspection Program. However, smoke opacity testing is not effective at ensuring all emissions control components on a vehicle are properly functioning. Senate Bill 210 was recently passed directing CARB and sister agencies to establish a more comprehensive HD I/M program that effectively ensures all emissions control components are operating as designed. The proposed HD I/M program would apply to all diesel and natural gas vehicles over 14,000 pounds GVWR that operate in California. Staff is considering requiring periodic on-board diagnostic (OBD) testing on applicable heavy-duty vehicles and establishing a statewide roadside remote sensing network to identify high emitting heavy-duty vehicles. For in-state heavy-duty vehicles, their vehicle registration renewal would be tied to compliance with the HD I/M program, similar to what is done now under the current Smog Check program for light-duty vehicles. Agency Name and Responsible Agency Unit: <b>California Energy Commission, Efficiency Division</b>	
Name of Proposed Regulation: Linear Fluorescent Lamps Exempt from Federal Regulations	Projected Date of Notice of Proposed Action: <b>June 2020</b>
CCR Title and Sections Affected: <b>Title 20, Sections 1601-1609</b>	Statute(s), Propositions or Court Decision Being Implemented: Public Resources Code Section 25402(c)(1)
Brief summary of the proposed regulation (1 paragraph or less): The U.S. Department of Energy (DOE) has regulations for linear fluorescent lamps. However, some linear fluorescent lamps are excluded or exempted from the federal regulations. California Energy Commission is proposing regulations to set standards for the following lamps that are not covered by federal regulations: <ul style="list-style-type: none"> <li>- Linear fluorescent lamps with a Color Rendering Index of 87 or greater</li> <li>- Impact-resistant linear fluorescent lamps</li> <li>- Two-foot and three-foot linear lamps</li> </ul> The proposed minimum energy efficiency standards for impact-resistant fluorescent lamps and fluorescent lamps with a color rendering index of 87 or greater are aligned with the federal standards for general service fluorescent lamps. The proposed minimum energy efficiency standard for 2-foot and 3-foot linear lamps are at approximately the average efficiency level for 2-foot and 3-foot linear light-emitting diode lamps. The proposed effective date for covered products that are sold or offered for sale in California is one year after adoption of any regulations by the Energy Commission.

DF-130 (REV12/19)

Agency Name and Responsible Agency Unit: <b>Department of Conservation / CA Geological Energy Management Division</b>	
Name of Proposed Regulation: <b>Public Health Rulemaking</b>	Projected Date of Notice of Proposed Action: <b>September 1, 2020</b>
CCR Title and Sections Affected: <b>14 CCR § 1712 et seq.</b>	Statute(s), Propositions or Court Decision Being Implemented:
Brief summary of the proposed regulation (1 paragraph or less): The CA Geological Energy Management Division is developing new regulations designed specifically to enhance public safety at production facilities near sensitive receptors. Current law and regulations typically do not have specific requirements for oil and gas facilities located close to housing, schools, hospitals, or other sensitive receptors. The Division has historically focused on "downhole" elements of permitting of oil and gas while relying on local lead agencies, the CEQA process, and air pollution control districts to impose mitigation and public health protections with respect to local land-use decisions. This has led to variable permit requirements for production facilities across the State and inconsistent protective measures by operators. This rulemaking will establish minimum protective measures at all oil and gas facilities in the State that will protect public health through consistent, rigorous, and protective regulations.	Contact Person: <b>Tim Shular, Regulations Manager</b>

Name of Proposed Regulation: <b>Geothermal Update 2</b>	Projected Date of Notice of Proposed Action: <b>December 1, 2020</b>
CCR Title and Sections Affected: <b>14 CCR § 1900-1986</b>	Statute(s), Propositions or Court Decision Being Implemented:
Brief summary of the proposed regulation (1 paragraph or less): As part of the Division's Renewal Plan, geothermal enforcement staff performed a comprehensive review of the geothermal regulations and developed a series of recommendations for improvement needed. The recommended regulatory changes are divided into two different packages and this proposed Geothermal Regulations Update 2 represents the second of recent efforts. The proposed regulations seek to include more specific requirements, better organization, correction of errors to authority cited and reference sections, and new authority references where they have not previously been provided. These proposed regulations will also update existing regulations for clarity and usage, as many provisions had not been changed since the 1970's and 1990's. The Division also recognizes that scientific knowledge about geothermal wells and their use has developed significantly since the bulk of the existing regulations were written. A primary goal of this package is to update requirements to reflect this new scientific understanding, particularly for testing requirements. These updates include the addition of lessons learned through oil and gas regulation and are designed to simplify oversight by creating consistent regulation between the Division's programs where possible. Name of Proposed Regulation: <b>Underground Gas Storage Updates</b>	Projected Date of Notice of Proposed Action: <b>December 1, 2020</b>
CCR Title and Sections Affected: <b>14 CCR § 1712 et seq.</b>	Statute(s), Propositions or Court Decision Being Implemented: <b>Senate Bill No. 463</b>
Brief summary of the proposed regulation (1 paragraph or less): As mandated by SB 463, the CA Geological Energy Management Division is reviewing existing gas storage regulations in consideration of recommendations made by both an independent root cause analysis of the 2015 well leak at the Aliso Canyon gas storage facility and the California Council on Science and Technology's review of underground gas storage in the State. The Division will update gas storage regulations and develop new requirements that will cover, at a minimum: reporting on the complete chemical inventory of materials found in gas storage wells at every phase, including any well kill fluids; cathodic protection measures for well casings; well control plans for a gas storage field that include the range of flow properties; requirements for investigating leaks and other pressure equipment integrity incidents that present a risk of leaks as determined by the Division; and other reports. DF-130 (REV12/19)

Agency Name and Responsible Agency Unit: <b>California Highway Patrol, Commercial Vehicle Section</b>	
Name of Proposed Regulation: <b>Electronic Logging Devices for Intrastate Motor Carriers and Drivers</b>	Projected Date of Notice of Proposed Action: <b>November 20, 2020</b>
CCR Title and Sections Affected: <b>Title 13, Sections 1213 &amp; 1213.2</b>	Statute(s), Propositions or Court Decision Being Implemented: Sections 31401, 34501, 34501.2, 34501.5, & 34508 Vehicle Code
<p>Brief summary of the proposed regulation (1 paragraph or less):</p> <p>Current federal regulation contained in Title 49, Code of Federal Regulations (CFR) requires states to remain compatible with federal regulations. Current state regulations contained in Title 13 of the California Code of Regulations, Sections 1213 and 1213.2 are currently in jeopardy of federal preemption. Therefore, an amendment is needed to create consistency between state and federal regulations. State regulations do not address or require the use of an Electronic Logging Device (ELD) as a method for recording a driver's record of duty status (RODS) for intrastate motor carriers and drivers; therefore, they are not compatible with federal regulations. In order for the California Highway Patrol (CHP) to fulfill the mandate established in Section 34501(a) of the California Vehicle Code, and be in compliance with federal law, the CHP must align RODS requirements.</p> <p>The use of ELDs would improve commercial motor vehicle safety by improving compliance with the applicable hours-of-service rules and reduce the overall paperwork burden for both motor carriers and drivers. Additionally, this rulemaking will serve to align state regulations with federal regulations. This rulemaking would adopt Title 49, CFR, Part 395, as it applies to driver's RODS.</p>	Contact Person: <b>David Kelly</b>

**2020 CALIFORNIA MAJOR REGULATIONS CALENDAR**

DF-130 (REV12/19)

Agency Name and Responsible Agency Unit: <b>Franchise Tax Board - Legal Division</b>	
Name of Proposed Regulation: <b>Domestic Pass-Through Entity Withholding</b>	Projected Date of Notice of Proposed Action: <b>June 2020</b>
CCR Title and Sections Affected: <b>Title 18, Section 18662-7</b>	Statute(s), Propositions or Court Decision Being Implemented: <b>Rev &amp; Tax Code 18662</b>
Brief summary of the proposed regulation (1 paragraph or less): The proposed new regulation relates to the requirement for domestic pass-through entities (including partnerships, S corporations, trusts and estates) to withhold tax on behalf of nonresident members. The proposed regulatory language replaces the prior scheme of requiring pass-through entities to withhold on “distributions paid” to nonresident members to instead withhold on the nonresident member’s “distributive share” of the pass-through entity’s California source income. The new regulation will also increase the withholding tax rate from the flat 7 percent tax rate to the highest marginal tax rate as well as change the withholding form filing due date from a quarterly basis to annual basis with a safe harbor for withholding information received late from a lower tier pass-through entity withholding agent. Agency Name and Responsible Agency Unit: <b>Franchise Tax Board - Legal Division</b>	
Name of Proposed Regulation: <b>Individual Shared Responsibility Penalty (SB 78)</b>	Projected Date of Notice of Proposed Action: <b>June 2020</b>
CCR Title and Sections Affected: <b>Title 18, Section 61000, 61010, 61020, 61023</b>	Statute(s), Propositions or Court Decision Being Implemented: <b>Part 32 of the Revenue &amp; Taxation Code</b>
Brief summary of the proposed regulation (1 paragraph or less): <b>State law (SB 78, Ch. 38, Statutes of 2019) created the Minimum Essential Coverage Individual Mandate to require California residents, their spouses, and dependents to have health coverage. State law also imposes the Individual Shared Responsibility Penalty for the failure to maintain qualifying health coverage. This project will create the necessary regulations to implement the penalty.</b>	Contact Person: <b>Erin Dendorfer</b>

Agency Name and Responsible Agency Unit: <b>Department of Justice; Bureau of Gambling Control</b>	
Name of Proposed Regulation: <b>Rotation of Player-Dealer Position</b>	Projected Date of Notice of Proposed Action: <b>March 2020</b>
CCR Title and Sections Affected: <b>11, section 2071</b>	Statute(s), Propositions or Court Decision Being Implemented: <b>Penal Code 330.11</b>
Brief summary of the proposed regulation (1 paragraph or less):  Business and Professions Code section 19826(g) assigns the Department's Bureau of Gambling Control the responsibility of approving the play of any controlled game in gambling establishments within California, including placing restrictions and limitations on how a controlled game may be played, and the approval of game rules by the Bureau, to ensure fairness to the public and compliance with state laws. Penal Code section 330.11 provides for rotation of the player-dealer position "continuously and systematically" amongst the each of the participants players. This regulation will define the parameters of rotation of the player-dealer position in a controlled game.	Contact Person: <b>Susanne George</b>

DF-130 (REV12/19)

Agency Name and Responsible Agency Unit: <b>Food and Agriculture/Animal Health and Food Safety Services</b>	
Name of Proposed Regulation: <b>Prop 12 Implementation</b>	Projected Date of Notice of Proposed Action: <b>June 1, 2020</b>
CCR Title and Sections Affected: <b>Title 3, adopt new sections</b>	Statute(s), Propositions or Court Decision Being Implemented: <b>H&amp;S Code 25990, 25991</b>
Brief summary of the proposed regulation (1 paragraph or less):  This proposal would require farms producing specified animal products for sale in California to be certified compliant with the minimum animal confinement standards described in Health and Safety Code section 25991, establish shipping document and/or product labeling statements, and require any person who is a handler of specified animal products for sale in California to register with the Department and maintain product traceability records. The proposal also establishes definitions to clarify the scope of covered animal products and applicable exceptions to confinement requirements.	Contact Person: <b>Dr. Stephen Beam</b>
