## 2025 CALIFORNIA MAJOR REGULATIONS CALENDAR

Agency Name and Responsible Agency Unit:	
<b>CalEPA - California Air Resources Board</b>	
Name of Proposed Regulation: Amendments to Tier 4 Off-Road Compression Ignition Engine Emission Standards and Test Procedures and Adoption of New Tier 5 Off-Road Compression-Ignition Engine Emission Standards and Test Procedures	Projected Date of Notice of Proposed Action: <b>8/12/2025</b>
CCR Title and Sections Affected: Title 13, §§ 2116, 2118, 2127, 2128, 2137, 2139, 2140, 2143, 2420, 2421, 2422, 2423, 2424, 2425, 2425.1, 2427, 2449; Proposed new Title 13 §§ 2139.1, 2421.1, 2422, 2423.1, and 2425.2.	Statute(s), Propositions or Court Decision Being Implemented: Health & Safety Code §§ 38501, 38505, 38510, 38560, 39600, 39601, 43000, 43009.5, 43013, 43018, 43101, 43104, 43105, 43106, 43107, 43204, 43205, and 43205.5
Brief summary of the proposed regulation (1 paragraph or less): The Amendments to the Tier 4 off-road compression-ignition engine emission Standards and Test Procedures and Adoption of New Tier 5 Off-Road Compression-Ignition Engine Emission Standards and Test Procedures would impose new requirements on engine manufacturers that would reduce emissions by up to 90 percent from engines in new off-road equipment versus current Tier 4 levels. These new standards are designed to reduce emissions of oxides of nitrogen (NOx), particulate matter (PM), and non-methane hydrocarbons (NMHC), improve air quality and safeguard public health. Additionally, first-time carbon dioxide (CO2), nitrous oxide (N2O), and methane (CH4) tailpipe emission standards are being proposed for off-road new diesel engines to help meet California's greenhouse gas (GHG) emission reduction goals. Agency Name and Responsible Agency Unit: <b>CalEPA - California Air Resources Board</b>	
Name of Proposed Regulation: Regulations for carbon capture, utilization, and sequestration in California	Projected Date of Notice of Proposed Action: <b>Winter 2025</b>
CCR Title and Sections Affected: <b>Title 17, sections TBD</b>	Statute(s), Propositions or Court Decision Being Implemented: Senate Bill (SB) 905 (Chapter 359, Statutes of 2022)
Brief summary of the proposed regulation (1 paragraph or less): SB 905 directs the CARB, in consultation with other state agencies, to create a carbon capture, utilization and storage (CCUS) program to evaluate the efficacy, safety, and viability of CCUS technologies and carbon dioxide removal (CDR) technologies and facilitate the capture and sequestration of carbon dioxide from those technologies, where appropriate, and to adopt associated regulations. As part of the rulemaking, CARB will develop a unified permit application for the construction and operation of CCUS and CDR projects; financial responsibility requirements for CCUS and CDR projects; reporting requirements to ensure efficacy, safety, and viability of CCUS and CDR projects; and other requirements for project monitoring to protect public health and safety. The rulemaking may identify and include adoption of protocols to support additional methods of CCUS or CDR.	Contact Person: <b>Rachel Danielson</b>

Agency Name and Responsible Agency Unit: <b>CalEPA - California Air Resources Board</b>	
Name of Proposed Regulation: <b>Regulation on Commercialization of Alternative Diesel Fuels</b>	Projected Date of Notice of Proposed Action: <b>12/15/2025</b>
CCR Title and Sections Affected: <b>2293 - 2295 &amp; Appendix 1 of Sub-article 2</b>	Statute(s), Propositions or Court Decision Being Implemented: Heath & Safety Code (HSC) § 38566 (SB 32), HSC 38500 et seq. (AB 32), HSC § 43013, HSC 43018
Brief summary of the proposed regulation (1 paragraph or less):  The Board will consider amendments to the Regulation on Commercialization of Alternative Diesel Fuels, known as the Alternative Diesel Fuels (ADF) Regulation. The regulation contains a requirement where certain blends of bio-diesel above the pollutant control level for nitric oxide emissions must employ one of the listed in-use requirements. The regulation has provisions to sunset the in-use requirement once certain requirements are met. Staff will propose to either extend the time before the sunset date will take effect, or potentially remove the sunset provision in its entirety.	Contact Person: <b>Tristan Pulido</b>

Name of Proposed Regulation: Revisions to Current Regulations of the Farm and Ranch Solid Waste Cleanup and Abatement Grant Program	Projected Date of Notice of Proposed Action: <b>February, 2026</b>
CCR Title and Sections Affected: 17990 through 17994, Title 14, Division 7, Chapter 4.5	Statute(s), Propositions or Court Decision Being Implemented: Public Resources Code sections 48100-48106.
Brief summary of the proposed regulation (1 paragraph or less):  The Farm and Ranch program has operated under regulations written in 2000, but the needs and situations of grantees have evolved. The program remained under subscribed historically in part due to difficulties that applicants have had meeting administrative requirements. This included eligibility requirements as well as the restriction that prevents any HHW from being part of a clean-up grant. Staff proposes broadening the definition of public entity to expand the type of applicants allowed and also to provide alternative affidavits for proof that the owner of the land was not the source of illegal dumping. Staff additionally proposes allowing incidental amounts of HHW within the clean-up activities. These proposals have been piloted and have subsequently led to much more participation in the farm and ranch grants, leading to increased clean up of illegal dump sites across California.
