Fund Balance Reconciliation Guide

(Special Funds and Certain Non-Governmental Cost Funds)

June 2024

FOREWORD

Government Code section 13344 requires the Department of Finance to implement procedures that facilitate annual reconciliations of General Fund and Special Fund balances between those provided by a state department to Finance and the State Controller's Office (SCO).

Government Code section 13031 requires Finance to instruct departments to certify that the budget and accounting information provided to Finance reconciles to the year-end financial reports submitted to the SCO.

Government Code section 12460 requires the information in the State Controller's Budgetary/Legal Basis Annual Report to account for funds on the same basis as the applicable Governor's Budget and Budget Act.

The Fund Balance Reconciliation Guide provides instructions and forms to departments to facilitate the annual reconciliation of fund balances for funds with a Fund Condition Statement in the Governor's Budget. The guide also includes the annual certification form that departments must complete and submit to Finance. A list of frequently asked questions and answers is provided at the end of the guide for additional information. Departmental accounting and budget staff must coordinate to complete this task.

Multi-year appropriations may require different treatment. See pages 11 and 13 or contact your Finance Budget Analyst for further assistance.

A Complete set of instructions is available at Finance's website:

1. General Instructions

1.1 Important Background Information

Departmental accounting and budget staff should become familiar with the information provided in Budget Letters (BL) related to fund reconciliation and the development of the 2025-26 Governor's Budget. The BLs remind departments of the most updated requirements for reporting past year financial data when submitting budget documents for the development of the Governor's Budget. Staff should also review statewide policies, BLs, California Government Code (GC), and State Administrative Manual (SAM) references provided in Appendix 10.3.

1.2 Consistency between Governor's Budget and Year-End Financial Reports

The reconciliation of fund balances is required under GC sections 12460 and 13344. GC section 12460 requires information in the SCO's Budgetary/Legal Basis Annual Report to account for funds on the same basis as the applicable Governor's Budget. GC section 13344 requires departments to prepare and maintain financial and accounting data for the Governor's Budget and related documents, and the Budgetary/Legal Basis Annual Report described in GC section 12460, according to the methods and bases provided in regulations, BLs, and other directives of Finance. By law, year-end financial reports must be prepared consistent with the applicable budget. Information provided to Finance for the Governor's Budget must be consistent with information provided to the SCO for the Budgetary/Legal Basis Annual Report.

SAM section 6400 requires that fund balance, revenues, expenditures, and other accounting data included in the past year's presentation of the Governor's Budget reconcile with similar data published in the SCO's Budgetary/Legal Basis Annual Report. Therefore, departments must ensure that data included in budget schedules reconcile with year-end financial reports. In very limited circumstances, there may be differences between the amounts in the Governor's Budget and the year-end financial reports (e.g., pending budget decisions or legislation).

1.3 Detailed Fund Balance Report, Form DF-303

The Detailed Fund Balance (DFB) report, Form DF-303, is used by state departments to reconcile accounting data to budget data. Departments will use the DFB report to prepare the past year portion of the Fund Condition Statement (FCS) for the 2025-26 Governor's Budget.

The display of the DFB report is similar to the FCS. Both have the same basic components: a beginning fund balance, prior year adjustments, revenues, transfers, expenditures, and an ending fund balance. The FCS provides a summary of a fund. The DFB provides the details of a fund. The DFB report will assist departmental accounting and budget staff in reconciling year-end financial reports to budget schedules in accordance with the Government Code and state policy and preparing the past year portion of the FCS.

1. General Instructions

1.4 Funds Requiring a Detailed Fund Balance Report

A DFB report must be prepared for all funds with a FCS in the 2025-26 Governor's Budget. Refer to the 2024-25 Enacted Budget for funds with a FCS. However, departments should confirm with their Finance Budget Analyst which funds will have a FCS in the 2025-26 Governor's Budget. Departments will submit the DFB report to Finance as part of a Fund Reconciliation Packet described in Section 1.11 Submission to Finance Budget Analyst.

Departments will use a different form for non-governmental cost funds that will not have a FCS in the 2025-26 Governor's Budget. Departments will use Form DF-304, The Non-Governmental Cost Fund Past Year Expenditure - Reconciliation to reconcile accounting data to budget data for non-governmental cost funds.

1.5 Fund Administrators' Authority and Responsibilities

Finance designates an administering department for each fund. The administering department is responsible for the overall management and reconciliation of the fund. A fund's administering department and organization code is provided in the Manual of State Funds located on the Finance [website](#). The administering department (fund administrator) is responsible for submitting the DFB report, supporting year-end financial reports and FCS to Finance. The fund administrator will submit the required documents to Finance on a flow basis but not later than September 30 for non-shared funds and October 7 for shared funds.

The fund administrator of a **shared** fund will use the DFB report and supporting year-end reports received from the fund users to compile the documents described in Section 1.11 Submission to Finance Budget Analyst. The fund administrator of a shared fund has the authority to request from the fund users all the necessary accounting reports and reconciliations required to reconcile and manage the fund. The shared fund administrator is responsible for coordinating the timely receipt of information from the fund users. Shared fund administrators are encouraged to contact fund users prior to year-end to set expectations of due dates and discuss any potential delays in fund users' submission of the required documents.

It is the responsibility of the fund administrator (of both shared and non-shared funds) to communicate to Finance any potential problems that may prevent the timely submission of reports to Finance. For a complete list of the authority and responsibilities of the fund administrator for shared and non-shared funds, refer to Section 10.4. Fund Administrator and Fund User Authority and Responsibilities.

1.6 Fund Users' Responsibilities

Fund users are departments that spend from the fund, collect revenues for the fund, or transfer cash to or from a fund. Departments that levy assessments for statewide projects/programs are not considered fund users, e.g., ProRata.

1. General Instructions

Fund users are responsible for calculating their portion of the prior year adjustment, and fully reconciling past year revenues, expenditures, and transfers between their year-end financial reports and budget schedules.

Users of shared funds will prepare the DFB report using their year-end financial reports and submit the DFB report, supporting reports and certification to the fund administrator by the date established by the fund administrator. The fund administrator of a shared fund will also prepare a DFB report using their year-end financial reports. The fund user is responsible for communicating to the fund administrator any potential problems that may prevent the submission of timely reports.

The timely submission of the DFB report and supporting reports will allow the fund administrator to prepare the consolidated DFB worksheet and FCS and submit the Fund Reconciliation Packet to Finance on a flow basis but not later than September 30 for non-shared funds and October 7 for shared funds.

1.7 Shared Funds

Shared funds are funds in the State Treasury not accounted for entirely by one department. As stated in Section 1.6, Fund Users Responsibilities, the users of a shared fund must complete the DFB report using their year-end financial reports to show their activity in a shared fund. The administrator of a shared fund will use the fund users' DFB report and supporting year-end financial reports to compile a DFB consolidated worksheet. The DFB consolidated worksheet will consolidate all fund user activity in the shared fund and compile a fund report for the fund as a whole.

The DFB consolidated worksheet has the same components and display as the DFB report. The worksheet consolidates prior year adjustments, revenues, transfers, and expenditure information for all the fund users into one worksheet to reflect the overall activity for the shared fund. See Section 6, DFB Consolidated Worksheet Instructions, for instructions on preparing a DFB consolidated worksheet.

The fund administrator will coordinate the timely receipt of DFB reports and supporting information from fund users. Early communication and discussion of expectations and due dates between fund administrators and fund users are encouraged. For the fund administrator to reconcile the overall fund and prepare a DFB consolidated worksheet, the fund users must complete a DFB report for their portion of the fund. Fund users must submit the following documents to the fund administrator by the date established by the fund administrator:

- a. Certification Form DF-117 signed as fund user
- b. DFB report and supporting year-end financial reports
- c. Other supporting documents and explanations related to year-end financial reports, if requested by the fund administrator to reconcile the fund

1.8 Accounting and Budget Staff Responsibilities

As described in Section 1.2 Consistency Between Governor's Budget and Year-End Financial Reports, departments shall use their year-end financial reports as the basis for the preparation of

1. General Instructions

the past year portion of budget documents for the Governor's Budget.

The division of responsibility between accounting and budget staff within a department is as follows:

- Accounting staff will use the year-end Budgetary/Legal financial reports to prepare the DFB report.
- Accounting staff will submit the DFB report and supporting year-end financial reports to their budget office to prepare budget schedules and past year portion of the FCS.
- Budget staff will review the DFB report and supporting year-end reports and ensure the information on the DFB report reconciles with information reported on budget documents.
- Budget staff will prepare the past year portion of the FCS and Past Year Hyperion Entries.
- Accounting and budget staff will work together to reconcile the year-end financial reports to the past year portion of budget documents and resolve any differences prior to submitting the Fund Reconciliation Packet and corresponding Hyperion entries to their Finance Budget Analyst. If differences cannot be resolved, please contact Finance's Fiscal Systems and Consulting Unit as soon as possible for policy guidance.
- If year-end financial reports are revised, accounting will inform budget staff to update the FCS and Hyperion entries, if necessary, and resubmit the FCS to the Finance Budgets Analyst.

1.9 Certification for Fund Requiring a DFB Report

Departments must certify that information provided to Finance reconciles to year-end financial reports submitted to the SCO. The department head or designee must use form DF-117, Certification of Past and Prior Year Information, to certify:

- Past/prior year accounting/budget information for fiscal year 2023-24 has been reconciled to reflect full compliance with state law, and the information is accurate and reconciles between budget and accounting information.
- Budget and accounting information provided to Finance reconciles to the year-end financial reports submitted to the SCO.

See Section 10.5 DF-117, Certification of Past and Prior Year Information for a copy of the form.

1.10 Template and Instructions

Departments will prepare the DFB report, DFB Consolidated Worksheet, and FCS using this guide and templates provided on the Finance [website](#). The templates and instructions are located in this guide at:

- Detailed Fund Balance (DFB) template and instructions—Sections 3 and 4
- DFB Consolidated Worksheet—Sections 5 and 6
- Fund Condition Statement—Section 9

4. Instructions - Detailed Fund Balance (DFB) Report

These instructions describe the data required in the Detailed Fund Balance (DFB) report, Form DF-303. The DFB report should be completed by:

- The fund administrator of a non-shared fund
- The fund administration and all fund users of a shared fund

For a shared fund, fund users will prepare a DFB report to show their activity in the fund. The shared fund administrator will also complete a DFB report to report their activity in the shared fund. However, to reconcile and report activity for a shared fund as a whole, the shared fund administrator will prepare a second report, the DFB consolidated worksheet. See Section 1.6 Fund Users' Responsibilities, Section 1.7 Shared Funds, and Section 6 DFB Consolidated Worksheet Instructions.

Use the DFB report template provided on the Finance [website](#). The template contains formulas that will calculate sub-totals and grand totals. Insert lines as needed to list all fund revenues, transfers, expenditures, and prior year adjustments. When inserting lines, verify that template's formulas are generating correct sub-totals and totals. The template provides drop-down lists for department name and number, fund name and number, and revenue receipt codes.

The beginning fund balance should also match the beginning balance in the past year column of the FCS for the 2025-26 Governor's Budget when the department's budget staff prepares the FCS.</p> <p>Research and resolve any difference in the beginning fund balance. See Section 4.2 Prior Year Adjustments and Fund Adjustments for a discussion of adjustment to align the FCS and financial reports.</p> <p>Shared Fund User Use the balance in GL account 5570-Fund Balance Clearing Account from last year's Report 8, Post Closing Trial Balance. You may also use the beginning fund balance from Report 9, Analysis of Change in Fund Balance</p>

See description below for each type of prior year adjustment.</p> <p>Expenditures Use Report 6 (use opposite sign) or Report 15 (use opposite sign) Prior Year Adjustment should include adjustments for any character codes, state operations, local assistance, capital outlay, and unclassified.</p>

4. Instructions - Detailed Fund Balance (DFB) Report

<p>4.2 B - Prior Year Adjustment (cont'd)</p>	<p>List prior year scheduled reimbursements below the corresponding prior year expenditure line, if applicable. This method of presentation will match the format of the FCS that shows reimbursements netted against expenditures.</p> <p>Note: When listing prior year adjustments for expenditures and scheduled reimbursements, use the opposite sign from the financial reports. For example, if Report 6 or Report 15 shows prior year expenditure amount of -\$2,000, list this amount as \$2,000 in the prior year adjustment section. (Negative expenditures have a positive impact on the fund balance which is why they are added back.)</p> <p>Multi-Year appropriations (continuing and continuous) Multi-year appropriations are appropriations that have more than one year of encumbrance availability (e.g., capital outlay and continuous appropriations). Due to system limitations, expenditures for multi-year appropriations are allowed to be posted as prior year adjustments or past year expenditures. However, departmental accounting and budgets must coordinate before submitting to their Finance Budget Analyst.</p> <p>Note: There may be exceptions. Consult with your Finance Budget Analyst to determine if appropriate.</p> <p>Transfers Use Report 6 (use opposite sign) or Report 15 (use opposite sign)</p> <p>Revenues Use Report 4 (use same sign) or Report 15 (use opposite sign)</p> <p>Refunds to Reverted Appropriations Use Report 9 (use same sign) or Report 15 (use opposite sign)</p> <p>Non-Governmental Cost Funds—Use Report 6 or Report 9 to obtain total prior year adjustments.</p>

<p>4.2 C-Fund Adjustments (cont'd)</p>	<p>Explain the reason for the PY adjustment in a footnote to the DFB report and provide supporting documentation. The sum of the PY adjustment and the beginning fund balance per financial reports should equal the beginning balance per the Enacted Budget. Any difference in the beginning fund balance that does not meet this criterion should be resolved in conjunction with your Finance Budget Analyst.</p>
<p>4.3 D- Revenues, Transfers and Other Adjustments</p>	<p>Revenue Use Report 4 (same sign) Report 9 (same sign) or Report 15 (opposite sign)</p> <p>List revenue by receipt code. Use the drop-down menu to select the appropriate source code and title. The list contains FI\$Cal Chart of Accounts values with the Uniform Codes Manual value in parentheses.</p> <p>Transfers and Other Adjustments Use Report 6 (use opposite sign), Report 9 (Use opposite sign) or Report 15 (use opposite sign)</p> <p>Enter FY 2023-24 Operating Transfers In and Operating Transfers Out. Also, indicate the authority for transfers relating to loan repayments. Revenues and transfers should match what is reported on past year budget documents.</p> <p>Revenues, transfers, and loans reported in year-end financial reports should reconcile to what will be reported in Hyperion for the past year. Once the 2024-25 Budget is enacted, the final amounts for 2023-24 will be rolled over in Hyperion and become the starting point for the new past year. Departments will be instructed to report incremental changes and complete the past year amounts. The rolled-over amounts plus the incremental changes should equal to or reconcile to actual amounts reported in the year-end financial reports (i.e., Report 4, 6, or 15). Finance will issue Budget Letters to provide instructions on the rolled-over process and methods to provide incremental changes to 2023-24 amounts.</p>
<p>4.4 E-Expenditures and Expenditure Adjustments</p>	<p>Expenditures Use Report 6 (same sign), Report 9 (same sign) or Report 15 (same sign)</p> <p>List expenditures by the organization code of departments that spend from the fund. F- Ending Fund Balance (cont'd)

Shared Fund User

Use the balance in GL account 5570-Fund Balance Clearing from FY 23-24 Report 8, Post Closing Trial Balance and add the FY 23-24 year-to-date activity in GL 1140, Cash in State Treasury per the Trial Balance of General Ledger Accounts. Shared fund users will validate their portion of current year activity in the shared fund.

Note: The shared fund administrator will validate the fund's beginning and ending balance for the whole fund. See Section 6 DFB Consolidated Worksheet instructions. The shared fund administrator will validate the beginning and ending fund balance by adding the balance in GL 5570, Fund Balance Clearing account for all fund users, and the GL 1140 balance for the fund per the SCO's Fund Reconciliation Report.

Note 3 of the DFB report provides a validation matrix to assist non-shared fund administrators and shared fund users to reconcile the ending fund balance to the year-end financial reports.

After the accounting staff has completed the DFB report, budget staff will prepare the FCS. See Section 7.3 Fund Condition Statement Example for an example of a FCS for a non-shared fund. The example on page 15 illustrates how information from the DFB report will flow to the FCS. Departmental staff should research and resolve the difference between accounting and budget data before the DFB report packet, including the FCS, is submitted to Finance.

6. Instructions – DFB Consolidated Worksheet (for Shared Funds)

These instructions describe the data required in the DFB Consolidated Worksheet. As described in Section 1.7 Shared Funds, a shared fund administrator will prepare the DFB consolidated worksheet using the information provided by fund users. The fund administrator is responsible for ensuring the overall fund reconciles to the DFB and year-end financial reports submitted by fund users. The shared fund administrator will use the DFB consolidated worksheet to prepare the FCS and submit the fund reconciliation packet to Finance.

Use the DFB Consolidated worksheet template provided on the Finance website. The template contains formulas that calculate sub-totals and grand totals. Insert lines as needed to list all fund revenues, transfers, expenditures and prior year adjustments. When inserting lines, verify that the templates' formulas are generating the correct sub-totals and totals. The template provides drop-down lists for department name and organization code, fund name and number, and revenue receipt codes.

NOTES:

1/ The Detailed Fund Balance (DFB) Report will be used by the fund administrator of non-shared funds and users of shared funds to reconcile accounting data to budgetary data. See section 1.6.
 For **non-shared funds**, the fund administrator will use the DFB report to prepare the past year portion of the Fund Condition Statement (FCS) for the 2025-26 Governor's Budget.
 For **shared funds**, the fund administrator will consolidate all the DFB reports received from fund users and prepare a DFB Consolidated Worksheet. The consolidated worksheet will be used to prepare the past year portion of the FCS. See sections 5 and 6 for worksheet instructions.

2/ Enter an adjustment to align the FCS and year-end financial reports if the beginning balance per financial reports does not match the beginning fund balance per past year column of the 2025-26 Governor's Budget and the difference requires an adjustment to the department's accounting records.
 Enter an adjustment to align the FCS and year-end financial reports due to delays in completing the financial reports. Estimated accruals have been used for preparing the past year portion of the FCS for the Governor's Budget. The difference between the department's actual accruals and estimated accruals should be identified here.
 Explain the reason for the PY adjustment in a footnote to the DFB report and provide supporting documentation. The sum of the PY adjustment and the beginning fund balance per financial reports should equal the beginning balance per the Governor's Budget.
 Note: Any difference in beginning fund balance that does not meet this criterion should be resolved in conjunction with Finance.

3/ **Ending Fund Balance in Section F must reconcile to Report 8 Post Closing Trial Balance:**

NOTES:

1/ The DFB Consolidation Worksheet will be used by a shared fund administrator to consolidate the DFB reports submitted by the users of a shared fund and compile a fund report for the fund as a whole. See section 1.7. The shared fund administrator will use the consolidated worksheet to prepare the past year portion of the FCS (see section 6.)

2/ Enter an adjustment to align the FCS and year-end financial reports if the beginning balance per financial reports does not match the beginning fund balance per past year column of the 2025-26 Governor's Budget and the difference requires an adjustment to the department's accounting records.
Enter an adjustment to align the FCS and year-end financial reports due to delays in completing the financial reports. Estimated accruals have been used for preparing the past year portion of the FCS for the Governor's Budget. The difference between the department's actual accruals and estimated accruals should be identified here.
Explain the reason for the PY adjustment in a footnote to the DFB report and provide supporting documentation. The sum of the PY adjustment and the beginning fund balance per financial reports should equal the beginning balance per the Governor's Budget.
Note: Any difference in the beginning fund balance that does not meet this criterion should be resolved in conjunction with Finance.

3/ **Ending Fund Balance in Section F must reconcile to Report 8, Post Closing Trial Balance:**
The Shared Fund Administrator will reconcile the Ending Fund Balance in Section F to Fund Users Report 8, Post Closing Trial Balance and SCO's GL 1140 balance using the matrix below.

NOTES:

1/ The Detailed Fund Balance (DFB) Report will be used by the fund administrator of non-shared funds and users of shared funds to reconcile accounting data to budgetary data. See section 1.6.
 For **non-shared funds**, the fund administrator will use the DFB report to prepare the past year portion of the Fund Condition Statement (FCS) for the 2025-26 Governor's Budget.
 For **shared funds**, the fund administrator will consolidate all the DFB reports received from fund users and prepare a DFB Consolidated Worksheet. The consolidated worksheet will be used to prepare the past year portion of the FCS. See sections 5 and 6 for worksheet instructions.

NOTES:			
<p>1/ The Detailed Fund Balance (DFB) Report will be used by the fund administrator of non-shared funds and users of shared funds to reconcile accounting data to budgetary data. See section 1.6. For non-shared funds, the fund administrator will use the DFB report to prepare the past year portion of the Fund Condition Statement (FCS) for the 2025-26 Governor's Budget. For shared funds, the fund administrator will consolidate all the DFB reports received from fund users and prepare a DFB Consolidated Worksheet. The consolidated worksheet will be used to prepare the past year portion of the FCS. See sections 5 and 6 for worksheet instructions.</p>			
<p>2/ Enter an adjustment to align the FCS and year-end financial reports if the beginning balance per financial reports does not match the beginning fund balance per past year column of the 2025-26 Governor's Budget and the difference requires an adjustment to the department's accounting records. Enter an adjustment to align the FCS and year-end financial reports due to delays in completing the financial reports. Estimated accruals have been used for preparing the past year portion of the FCS for the Governor's Budget. The difference between the department's actual accruals and estimated accruals should be identified here. Explain the reason for the PY adjustment in a footnote to the DFB report and provide supporting documentation. The sum of the PY adjustment and the beginning fund balance per financial reports should equal the beginning balance per the Governor's Budget. Note: Any difference in beginning fund balance that does not meet this criterion should be resolved in conjunction with Finance.</p>

Appendix 10.4 Fund Administrator and Fund User Authority and Responsibilities

Department of Finance designates an administering department for each fund, which is indicated in the description of the fund in the Manual of State Funds. The administering department is responsible for the overall management of the fund.

This section outlines the responsibilities of a fund administrator for both non-shared and shared funds, and users of shared funds. Responsibilities pertaining to Fund Condition Statements apply to Fund Condition Statements prepared for and published in the Governor's Budget and the Enacted Budget.

Responsibilities of a Fund Administrator that is the sole user of a (non-shared) fund:

1. Verifies the accuracy of departmental accounting records by performing monthly reconciliations with source documents and corresponding appropriation and general ledger accounts maintained by the State Controller's Office(SCO).
2. Calculates prior year adjustments and keeps documentation for such adjustments.
3. Submits Fund Condition Statement to Finance with prior year adjustment, past year revenues, transfers, loans, and past year expenditures, and appropriate backup documents. Departments should work with Finance to determine any special adjustments or reserves.
4. Ensures accuracy and consistency of data between budget documents (e.g., Fund Condition Statement) and year-end financial reports submitted to the SCO.
5. Ensures both sets of documents are prepared with the same method and on the same accounting basis as in the Governor's Budget and Budget Act per Government Code section 12460. No variance should exist. No exceptions, unless approved by Finance or authorized in law.
6. Coordinates with Finance Budget Analyst who oversees the fund to ensure there are no other statewide changes to be included in the Fund Condition Statement.
7. Tracks and manages changes and ensures a prudent reserve is maintained, working with Finance to determine the level necessary for a prudent reserve.
8. Provides all necessary information on a timely basis when Finance performs its review of the fund's components, including the following:
 - DF-303, Detailed Fund Balance Report (applies to funds with a published Fund Condition Statement).
 - Year-end financial reports or other backup documents related to the fund's prior year adjustments and past year revenues/expenditures.
 - DF-117, Certification of Past and Prior Year Information.

Authority and Responsibilities of a Shared Fund Administrator:

1. Performs all responsibilities as listed above.
2. Possesses authority to request information from user department(s). User departments include departments that collect revenues and/or spend from the fund. The shared fund administrator can request the following information from user

departments at any time:

- DF-303, Detailed Fund Balance Report (applies to funds with a published Fund Condition Statement).

11. Frequently Asked Questions and Answers

1. Why do I have to prepare a Detailed Fund Balance Report (DF-303)?

The Detailed Fund Balance Report (DF-303) is a Department of Finance form used by departments to reconcile the fund balance on year-end financial reports to fund balance in the Governor's Budget. Government Code section 13344 requires state departments prepare and maintain financial and accounting data for inclusion in the Governor's Budget and SCO's Budgetary/Legal Annual Report according to the directives of Finance.

2. What are statewide assessments?

Statewide assessments are assessments for statewide activities and projects. The assessments represent amounts sufficient to support certain statewide functions such as:

- a) Pro Rata
- b) Supplementary Pension Assessment

3. Who is responsible for recording statewide assessments?

The fund administrator will record and report statewide assessments for both shared and non-shared funds. The fund administrator should obtain amounts from SCO's journal entries for these assessments.

4. I am the administrator of a shared fund. How can I find out who are the fund users of my shared fund?

The fund users for a shared fund are listed in the Fund Condition Statement in the Governor's Budget. In addition, you can contact the SCO at blfinrep@sco.ca.gov for more information.

5. I am the administrator of a shared fund. Last year, some fund users did not submit the DFB and required supporting information on time. What can I do to avoid a similar situation this year?

Contact the fund users early, prior to year-end, to set expectations of due dates and the required information. Remind the fund users of their responsibilities, as stated in section 10.4, Fund Administrator and Fund User Authority and Responsibilities. Notify your Finance Budget Analyst of the situation as soon as possible.

6. Why does the ending fund balance on the Consolidated DFB report for my shared fund not reconcile to the Report 8, Post Closing Trial Balance for all fund users?

Differences could be due to GL accounts such as GL 1210–SMIF or GL 1410–Due from General Fund not being reported on your year-end financial reports. If the GL accounts are not on your year-end financial reports, you will need to add these amounts to the ending fund balance on Report 8, Post-Closing Trial Balance.

7. What does our department do if we revise our year-end financial reports?

Revised year-end financial reports should be submitted to both SCO and Finance to help prevent differences in the fund balance. In addition, if requested by the Finance Budget Analyst, the department will submit revised DFB and budget documents.
