

American Community Survey Topics Table Codes

The **first character** of a table identifier is a letter indicating the type of table or map.

- **B** is used for Base (Detailed) Tables, which provide the most detailed estimates
- **C** is used for a Collapsed version of a Base (Detailed) Table. A C table is similar to a B table with the same number (e.g., C07001 and B07001), but two or more lines from the B table have been collapsed to a single line in the C table. Not every B table has a collapsed version.
- **GCT** is used for Geographic Comparison Tables
- **R** is used for Ranking Tables (1-year estimates only)
- **S** is used for Select Population Profiles (1-year and 3-year estimates only) and Subject Tables
- **M** is used for Thematic Maps

Comparison Profiles (1-year estimates only) and Data Profiles use the following designations instead of numbers: Social Characteristics, Economic Characteristics, Housing Characteristics, and Demographic Characteristics.

The **next two characters** are numeric and identify the primary topic of the table:

The **next three digits** (Base / Collapsed / Detailed Tables) or **two digits** (Geographic Comparison Tables, Ranking Tables, Selected Population Profiles, Subject Tables, and Thematic Maps) are a sequential number, such as 001 or 01, to uniquely identify the table within a given topic.

There may be a **one-letter suffix** for some tables. Those indicate iterations by major race group or ethnicity. The designations are as follow:

- A = White Alone
- B = Black or African American Alone
- C = American Indian and Alaska Native Alone
- D = Asian Alone
- E = Native Hawaiian and Other Pacific Islander Alone
- F = Some Other Race Alone
- G = Two or More Races
