

Pass Through Payment Calculations

Q. Does Section 34188 require that county auditor-controllers reduce pre-AB 1290 and AB 1290 pass through payments so they do not exceed the share of property tax which an affected taxing entity (ATE) would otherwise receive from within the project areas of the former redevelopment agency pursuant to the standard AB 8 property tax distributions? Or does Section 34183 control this issue such that pass throughs are to be paid in full?

A. As restated in Section 36 of AB 1484, Section 34183 controls and requires that pass throughs are to be paid in full.
