

State and Consumer Services

The State and Consumer Services Agency's mission is to help educate consumers and make government more efficient, effective and accountable for all California taxpayers. The Agency is responsible for civil rights enforcement, consumer protection and the licensing of 2.3 million Californians in more than 230 different professions. The Agency administers the procurement of more than \$4 billion worth of goods and services, management and development of state real estate, oversight of two state employee pension funds, collection of state taxes, and hiring of state employees.

1100 California Science Center

The California Science Center, the Office of Exposition Park Management and the California African American Museum (CAAM), are located in Exposition Park, a 160-acre tract in south Los Angeles, which is owned by the state in the name of the Science Center. The California Science Center is an educational, scientific and technological center administered by a nine-member board of directors appointed by the Governor. The Science Center is a place where children, teachers and families can explore how science is relevant to their everyday lives. Through hands-on experiences, children, teachers and families are introduced to scientific principles in the context of the world that surrounds them. It is an approach intended to stimulate curiosity and challenge visitors to think, to question, and to see their world in an entirely new way.

CAAM is governed by a seven-member board of directors appointed by the Governor, researches, collects, preserves and interprets for public enrichment, the history, art and culture of African Americans with emphasis on California and the western United States. As a collecting institution providing education and exhibition programs, CAAM serves teachers, children and families of all diverse backgrounds.

Exposition Park Management is responsible for park maintenance, public safety and parking facilities. Since department programs drive the need for infrastructure investment, each department has a related capital outlay program to support this need. For the specifics on the California Science Center's Capital Outlay Program, see "Infrastructure Overview."

PROGRAM DESCRIPTIONS (Program Objectives Statement)

10 EDUCATION

The California Science Center provides a series of educational exhibits and conducts educational programs focusing on science and technology. Specifically, the programs consist of lectures, seminars, films, after school programs, science summer camps and teaching institutes led by eminent scientists from across the country. The Science Center's major exhibit facility opened in February 1998. In 2004, the Science Center, in cooperation with the Los Angeles Unified School District, opened the Science Center School (a science- and math-focused elementary charter school) and the Center for Science Learning on-site. The Center for Science Learning offers professional development programs to improve the math and science skills of teachers. The Science Center also includes a 3D IMAX theatre and the Air and Space Gallery. The Air and Space Gallery serves to fill the gap between the public's growing use of the benefits of space exploration and research, and the limited understanding of the basic use of these achievements in daily life.

20 EXPOSITION PARK MANAGEMENT

The Office of Park Management provides long-term executive leadership in the development and implementation of park usage policy and day-to-day management, operation and promotion of Exposition Park for its tenants and the public. This includes public safety, parking facilities, coordinating Park maintenance, and scheduling activities within the Park. The program consolidates responsibility for the outstanding and proposed leases that impact the state's interests, including upgrades of other facilities, the development of playground areas and ground leases, and other leaseholds that are held by the state.

30 CALIFORNIA AFRICAN AMERICAN MUSEUM

CAAM administers its mission to research, collect, preserve and interpret for public enrichment, the history, art and culture of African Americans through a variety of permanent, self-curated, temporary and traveling exhibits, lectures, seminars, film, workshops, educational programs, scholastic curriculums, cultural presentations, and active collection of art, artifacts and historical documents. Programs are delivered by CAAM's curatorial, educational and gallery services staff, trained volunteer docents, along with nationally and state recognized artists, historians, scholars, and community leaders. CAAM's programs and exhibitions are funded in significant part through private contributions from Friends, the Foundation of the California African American Museum.

40 ADMINISTRATION

This program provides personnel, budgeting, accounting, business services, contract negotiation and monitoring, and planning services in support of the Science Center. This function provides the essential administrative support services and assures the proper operation and maintenance of all facilities. The public parking operation is contracted with a private operator with the Science Center retaining certain parking lots for Science Center visitor parking.

INFRASTRUCTURE OVERVIEW

The California Science Center (CSC) operates in a 245,000 square foot (sf) museum featuring hands-on exhibits and other science learning programs for families, students, and educators. The museum's two themes include the World of Life and the Creative World. The World of Life is a permanent gallery that features exhibits on life processes common to all living things while the Creative World features exhibits which examine the man-made environment and the consequences of human innovation. The CSC also operates the Science Center School (K-5 Los Angeles Unified School District Charter School) and the Center for Science Learning. The museum also contains a museum store, a cafeteria, an IMAX theater, a conference center, special exhibit galleries, and warehouse and office space for CSC staff. The CSC Phase II Expansion - World of Ecology is a 170,000 sf facility that will be connected to the current museum. Phase II is under construction and is anticipated to open to the public in late 2009. Phase II will showcase the best features of science centers, museums, zoos, aquariums, and botanical gardens.

The California African American Museum (CAAM) occupies a 44,000 sf facility that includes three full-size exhibition galleries, a theater gallery, a 14,000 sf sculpture court, a conference center/special events room, an archive and research library, administrative offices, exhibit design, and artifact storage areas.

By authority of the Accountancy Act, the Board: qualifies California candidates for the National Uniform Certified Public Accountant (CPA) Examination; certifies, licenses, and renews licenses of individual CPAs and Public Accountants (PA); and registers CPA partnerships and corporations.

06 CALIFORNIA ARCHITECTS BOARD

The California Architects Board's objectives are (1) to ensure that only those persons possessing the necessary minimum qualifications are licensed as architects, (2) to enforce the provisions of the Architect Practice Act and subsequent regulations, and (3) to establish and enforce levels of professional competence, eliminate unlicensed activity and provide consumer/industry education.

09 STATE ATHLETIC COMMISSION

The State Athletic Commission approves, manages, and directs all professional and amateur boxing and full-contact martial arts events. The Commission protects consumers by ensuring bouts are fair and competitive while protecting the health and safety of participants.

The State Athletic Commission became a bureau directly under the Department of Consumer Affairs, effective July 1, 2006, pursuant to Business and Professions Code Section 101.1(b), but was reestablished as a commission, effective January 1, 2007, pursuant to Chapter 465, Statutes of 2006.

18 BOARD OF BEHAVIORAL SCIENCES

The Board of Behavioral Sciences licenses and regulates marriage and family therapists, licensed clinical social workers, and educational psychologists. The confidential and sensitive nature of services these licensees perform necessitates the development and enforcement of performance standards and competence consistent with the public welfare. The Board ensures that minimum competency standards are met by establishing educational and experience requirements, conducting examinations, investigating violations of professional ethics and law, and disciplining licensees when appropriate.

22 BOARD OF BARBERING AND COSMETOLOGY

The Board of Barbering and Cosmetology licenses barbers, cosmetologists, electrologists, estheticians, and manicurists after determining, through an examination, that applicants possess the minimum skills and qualifications necessary to provide safe and effective services to the public. The Board conducts both routine and directed health and safety inspections of licensed establishments operating in the state. The Board also investigates allegations of unprofessional

conduct, gross negligence, incompetence, fraud, or unlicensed activity. When warranted, the Board takes disciplinary action. The Board's mission is to protect consumers from harm by licensees through its licensing and enforcement programs.

30 CONTRACTORS' STATE LICENSE BOARD

The Contractors' State License Board protects consumers by regulating the construction industry through policies that promote the health, safety and general welfare of the public in matters relating to construction. The Board accomplishes this by ensuring that construction is performed in a safe, competent and professional manner; licensing contractors and enforcing licensing laws; providing resolution to disputes that arise from construction activities; and educating consumers so that they make informed choices.

36 DENTAL BOARD OF CALIFORNIA

The Dental Board of California establishes minimal standards of competency for those individuals seeking to practice as a dentist, registered dental hygienist, registered dental assistant, dental auxiliary in extended function, or dental hygienist in alternative practice. The Board enforces standards to protect California dental consumers from incompetent dental practitioners, and the utilization of dental auxiliaries contributes to providing quality dental services to Californians. The Committee on Dental Auxiliaries manages the licensing and examination processes for dental auxiliary professions, coordinates the approval process (including curriculum and site evaluation) of postsecondary dental assisting vocational education programs, and makes recommendations to the Dental Board on all aspects of the dental auxiliary professions. This includes making recommendations regarding legislation and regulations that affect dental auxiliaries.

51 BOARD FOR GEOLOGISTS AND GEOPHYSICISTS

The Board for Geologists and Geophysicists: (1) examines and licenses qualified geologists and geophysicists; (2) develops policies, rules and regulations; (3) acts on complaints and violations of the law by licensees and nonlicensees; and (4) provides education about environmental cleanups, site assessments, real estate development, and seismic issues to the public through an extensive web-based Public Outreach program.

The Medical Board of California licenses and regulates physicians, midwives, opticians, spectacle lens dispensers, contact lens dispensers and research psychoanalysts.

The Board assures the initial and continued competence of the health professions and occupations under its jurisdiction through licensure, investigation of complaints against its licensees, and discipline of those found guilty of violations of the law or regulations.

The Board's objective is to improve the quality of medical services within California. In order to accomplish this objective, the Board must ensure that only those persons possessing the necessary education, examination and experience qualifications receive licenses; that all licentiates obtain the required continuing medical education training; that the consumers are informed of their rights and how complaints may be directed to the Board; that consumer complaints against licentiates are promptly, thoroughly and fairly investigated; and that appropriate action is taken against licentiates whose care or behavior is outside of acceptable standards.

Physical therapists in independent practice treat patients who have disabilities resulting from accidents, congenital defects or illnesses. To ensure proper patient evaluation and treatment, those physical therapists must meet the minimum standards established according to law. This is accomplished by licensing those who possess the necessary qualifications, enforcing standards of ethical conduct established for licensees and policing against unlicensed practice.

59 PHYSICIAN ASSISTANT COMMITTEE

The Physician Assistant Committee facilitates the utilization of physician assistants by assuring the public that the Committee's licensees and approved programs have met certain minimum requirements.

Concern over the growing shortage and geographic maldistribution of health care services in California has been expressed in both the private and public sector. The effective use of physician assistants enables the physician to delegate health care tasks where such delegation is consistent with the patient's health and welfare, thereby freeing the physician to concentrate his or her skills on more complex health care services.

1760 Department of General Services

The Department of General Services provides centralized services to state agencies in the following areas: telecommunications; management of state-owned and leased real estate; approval of architectural designs for local schools and other state-owned buildings; printing services; procurement of commodities, services and equipment for state agencies; and maintaining the state's vehicle fleet. The Director of General Services also serves on several state boards and commissions.

The DGS Mission Statement is as follows: "Working together, we deliver innovative solutions and services with efficiency, economy and integrity to help our customers succeed."

Since department programs drive the need for infrastructure investment, each department has a related capital outlay program to support this need. For the specifics on the DGS' Capital Outlay Program, see "Infrastructure Overview."

DEPARTMENT AUTHORITY

Government Code, Title 2, Division 3, Part 5.5, Chapters 1-3.

MAJOR PROGRAM CHANGES

- Green Building Action Plan Resources - The Budget includes \$3.4 million and 4.7 positions to implement required energy savings programs and projects as specified in the Governor's Executive Order S-20-04 and the accompanying Green Building Action Plan. These resources will enable the state to systematically reduce state energy consumption by taking all cost-effective measures described in the Green Building Action Plan to retrofit, build, and operate state-owned facilities rated 'Silver' or higher as determined by the United States Green Building Council Leadership in Energy and Environmental Design.
- State Capitol Maintenance and Repairs - The Budget includes \$7.4 million General Fund to complete critical repairs to the State Capitol. A recently completed infrastructure report has identified the repair, system replacement, and maintenance activities necessary over the next 20 years to extend the useful life of the State Capitol.

The Budget also includes \$1.5 million General Fund to complete the Capitol Park Master Plan. The Capitol Park Master Plan will identify the historic landscape of the park, the current infrastructure conditions, security and maintenance needs, and future memorial locations and how to address all of the needs through the maintenance and reconstruction of the park over the next 50 years.

PROGRAM DESCRIPTIONS (Program Objectives Statement)

10 BUILDING REGULATION SERVICES

With a multi-billion dollar annual investment in facilities for state offices and public schools, centralized responsibilities for inspection and approval are needed. This is achieved in the following ways: (a) Assuring protection of lives and property in public buildings through plan review and field supervision; (b) Insuring that facilities constructed with state funds are accessible to the physically handicapped; (c) Developing uniform public health and safety regulations for state and public building construction; (d) Administering the State School Facility Program, which provides financial assistance to school districts for the development of school sites, construction, and modernization or replacement of school buildings; and (e) Adopting, codifying and publishing building standards for design and construction throughout California.

15 REAL ESTATE SERVICES

Centralized responsibilities for leasing, planning, acquisition, design, construction, maintenance and operation are needed to ensure quality, avoid redundancy and deliver property and facilities at the lowest possible cost. This is achieved by: (a) Providing adequate space for state operations at a cost below that which each agency could provide for itself; (b) Assuring protection of lives and property in public buildings through progressive design and proactive construction inspection; (c) Selecting the most qualified firms (both internal and external) to design and construct high quality facilities for other state departments in order to deliver their programs to the citizens of California; (d) Acquiring, managing and disposing of real property assets for state agencies, and providing public service facilities with economy of operations and uniform practices for protecting the public's interests and insuring equitable treatment of private property owners; and (e) Preserving the state's capital investment in buildings, grounds, and equipment through an efficient and effective centralized maintenance and operations program.

20 STATEWIDE SUPPORT SERVICES

To fulfill their program responsibilities, state agencies require support services for business transactions and activities which are basic to their organizational functions. These operational requirements include procurement of materials, communication, transportation, printing, and related business and office services. Other state agency support requirements include consulting services for legal contracts and insurance management. Additionally, licensing agencies require services of hearing officers for alleged violations by license holders. These diverse services are more effectively and economically provided under a consolidated program which centralizes resources, capabilities, talents, and facilities for efficient response to support requirements of client state agencies.

30 ADMINISTRATION

This program provides the executive leadership for the department by directing departmental operations, setting policy, making decisions concerning program operations and ensuring that departmental programs and services are carried out in accordance with the Governor's policies and legislative intent as codified in the State Constitution, the Government Code, the Administrative Procedures Act and the State Administrative Manual.

This program also provides the department with the necessary management and administrative services which include: personnel, training, information technology, budgeting, accounting and other support services necessary to ensure smooth and efficient operating of the line functions of the department.

INFRASTRUCTURE OVERVIEW

* Dollars in thousands, except in Salary Range.

1760 Department of General Services - Continued

The Department of General Services (DGS) is responsible for approximately 39 million square feet (sf) of space that supports a variety of state programs and functions. Of this amount, approximately 18.4 million sf is attributable to DGS-owned facilities and 20.6 million sf to DGS-managed leases. The DGS has control and jurisdiction over 52 office buildings totaling approximately 14.5 million sf, the Central Heating and Cooling Plant, the State Printing Plant, three state-owned, stand-alone parking structures in Sacramento, housing units and retail businesses managed by the Capitol Area Development Authority, the State Records Warehouse, and a large network of public emergency communications systems maintained, supported, and managed by the DGS Telecommunications Division.

MAJOR PROJECT CHANGES

- The Governor's Budget proposes \$4.8 million from various funds for the acquisition of several sites on which to relocate and decentralize the critical public safety communications system from the top floor of the Resources Building in Sacramento.
- The Governor's Budget proposes \$4.0 million from the Earthquake Safety and Public Buildings Rehabilitation Bond Fund for the renovation of H and J buildings at Patton State Hospital. H and J buildings will provide swing space necessary for the EB building renovation project.
- The Governor's Budget proposes \$2.2 million from the Earthquake Safety and Public Buildings Rehabilitation Bond Fund for the continuation of seven seismic renovation projects that are currently in the design phase.

PROGRAM DESCRIPTIONS (Program Objectives Statement)**11 CITIZENS INDEMNIFICATION**

This program reimburses certain expenses of victims of crime in California who are injured or threatened with injury and suffer financial hardship as a direct result of a violent crime. The victim of a qualifying crime, and eligible family members, may file a claim with the VCGCB for program benefits.

12 REVENUE RECOVERY DIVISION

This program serves victims of crime in California by maintaining the fiscal stability of the Restitution Fund through the recovery of monies owed from restitution fines and orders. The Division's primary emphasis is to educate the criminal justice community (the judiciary, district attorneys, chief probation officers, and court administrators) on the importance of the consistent imposition and collection of restitution fines and orders. The program also partners with the Department of Corrections and Rehabilitation, the Franchise Tax Board, and the Attorney General's Office on restitution-related activities.

31 CIVIL CLAIMS AGAINST THE STATE

This program receives, investigates, and processes claims for money or damages filed against the state.

41 CITIZENS BENEFITING THE PUBLIC

This program reimburses persons for certain expenses who sustained injury or losses as a result of a direct action that benefited the public, such as the prevention of a crime or a rescue of a person in immediate danger of injury or death (Good Samaritans).

51.01 ADMINISTRATION

This program provides support and direction to VCGCB staff in response to the program goals established by the governing board; serves as liaison between the Legislature and the VCGCB; provides legal, personnel, budget, legislative, audit, information systems, and business services to all programs under the VCGCB's jurisdiction; and acts on behalf of the governing board as specifically delegated.

71 COUNTIES' SPECIAL ELECTION REIMBURSEMENTS

This program provides reimbursement for expenses authorized and necessarily incurred in conducting special elections proclaimed by the Governor to fill a legislative vacancy at the federal or state level.

1880 State Personnel Board

The five-member State Personnel Board (SPB), whose members are appointed by the Governor for ten-year terms, was established in the California Constitution in 1934. The SPB is responsible for California's civil service system. SPB ensures that the state's civil service system is free from political patronage and that employment decisions are based on merit. SPB provides a variety of recruitment, selection, classification, appellate, goal setting, training and consultation services to state departments and local agencies.

1900 Public Employees' Retirement System

The California Public Employees' Retirement System (CalPERS) administers retirement and health benefits for more than 1.4 million active employees and retirees of state and local agencies in California. Benefits include retirement, disability, and survivor's retirement benefits; Social Security for state employees; and the development, negotiation, and administration of contracts with health maintenance organizations, group hospitals, and medical insurance plans. In addition, CalPERS administers a long-term care program for members and eligible individuals.

CalPERS is governed by a Board of Administration. The California Constitution provides that the Board of Administration has authority over the administration of the retirement system; therefore, the budget data presented here is for informational purposes only, with the exception of the component of the Health Benefits Program funded from the Public Employees' Contingency Reserve Fund.

PROGRAM DESCRIPTIONS (Program Objectives Statement)

10 RETIREMENT

Through this program, California Public Employees' Retirement System (CalPERS) provides retirement planning education, service and disability retirement, refunds, and survivor and death benefits for employees of California public employers. CalPERS provides special benefits based on death or disability incurred in the line of duty for members in certain occupations. As of June 30, 2006, there were 1,048,895 active and inactive members and 441,277 retirees/survivors/beneficiaries under the CalPERS system.

Basic retirement benefits are generally based upon three factors: age at retirement, years of service, and final compensation. There are different formulas for each of the member categories, such as Miscellaneous, Industrial, Peace Officer/Firefighter, California Highway Patrol, and Safety. Over 50 contract options are available to local cities, counties, and districts that contract with CalPERS. Benefits are modified by the selection of one of several options and by the employee's membership category. A member's retirement and death benefits are determined by contract provisions.

As of June 30, 2006, there were 2,597 public agency and school district employers providing CalPERS retirement, death, and survivor benefits to California public employees. CalPERS benefits are transferable for members who continue their careers with many other public employers in California as a result of agreements between CalPERS and other public agency retirement systems.

CalPERS also administers the Legislators', Judges', and Volunteer Firefighters' Retirement Systems.

30 HEALTH BENEFITS

Through this program, CalPERS contracts with health maintenance organizations, claim administrators, employee associations, and others to provide health and long term care insurance for state, California State University, and local Public Agency employees, retirees, and their dependents. The program negotiates and monitors health plan contracts; develops cost-effective programs; provides enrollment services to members and employers; meets and confers with employee organizations and employer representatives; maintains demographic and statistical information systems; establishes standards for Basic, Supplement to Medicare, and Managed Medicare health plans; establishes and maintains health benefits coverage for eligible employees and retirees; establishes coverage for public agencies; provides accurate and timely accounting for participating agencies and serves as an impartial intermediary between CalPERS enrollees and insurance carriers in resolving claim and service disputes.

40 INVESTMENT OPERATIONS

Through this program, CalPERS invests funds in various investment categories (stocks, bonds, real estate, etc.) for the purpose of minimizing the employers' contributions to the system needed to provide benefits to active participants, retired members, and their beneficiaries. Since CalPERS' establishment in 1932 the System's assets have grown from \$800,000 to a total of \$208.2 billion, as of June 30, 2006.

50 ADMINISTRATION

Through this program, CalPERS provides executive direction, specialized information, and administrative support necessary to administer all CalPERS programs. The various services include: Audits; Diversity Outreach; Executive; Fiscal Services; Human Resources; Information Technology Services; Legal; Enterprise Compliance; Governmental Affairs; Operation Support; Strategic Management Services; Public Affairs; and the R Street Construction Project.

PROGRAM DESCRIPTIONS (Program Objectives Statement)

10 SERVICE TO MEMBERS AND EMPLOYERS

The primary functions of the California State Teachers' Retirement System (CalSTRS) are as follows:

- Maintain a financially sound retirement system.
- Maintain an efficient operational system for the administration of CalSTRS.
- Continuously improve the delivery of benefits, products and services to CalSTRS members.
- Develop and improve upon benefits and products to CalSTRS members.

The Teachers' Retirement Board (Board) has exclusive control over the investment and administration of the Teachers' Retirement Fund. The Board makes rules, sets policies, and has the power and authority to hear and determine all facts pertaining to application for benefits under the retirement system. The twelve-member Board consists of four ex-officio members, including the Superintendent of Public Instruction, the State Treasurer, the State Controller, and the Director of Finance. The Governor-appointed members of the Board include three Public Members, one retiree of CalSTRS, one school board member or community college trustee. Three representatives are elected by active CalSTRS members.

Income to the CalSTRS is derived from contributions from members and employing school districts, appropriations from the General Fund, and investment earnings (see 6300-Teachers Retirement System Contributions for state contributions for benefits). The cost of administration is paid from the Teachers' Retirement Fund as provided in Section 22304 of the Education Code.

The CalSTRS is responsible for the determination and payment of benefits to members, retirees, and their beneficiaries, and for the distribution of information to all members, employers, and other interested groups. The CalSTRS Defined Benefit Program includes service retirement, benefits for survivors, and disability benefits. The basic retirement allowance is determined on the basis of a member's age, years of credited service, and final compensation. The member may modify the basic allowance by selecting a joint and survivor annuity option to provide benefits for their beneficiary after the member dies. Generally, the payments of benefits are made within 30 days following the effective date of the member's retirement.
