

REVENUE ESTIMATES

As 2007 progressed, economic problems had an increasingly negative effect on California's revenue collections. Baseline revenues in 2007-08 are now expected to total \$96.4 billion—\$4.8 billion below the forecast that was used for enactment of the 2007 Budget. For 2008-09, baseline revenues are expected to grow to \$99.1 billion, a 2.8-percent increase from 2007-08. With the Administration's revenue proposals for addressing the budget problem, revenues are estimated to be \$101.2 billion in the current year and \$102.9 billion in budget year.

Figure REV-01 summarizes the forecast for 2007-08 and 2008-09 and provides a preliminary report of actual receipts for 2006-07, compared to the 2007 Budget Act forecast. The Governor's Budget forecast was prepared in early December, before individuals and corporations made final withholding and estimated payments for the 2007 tax year, and before consumers completed their December purchases. The strength of this late December and early January activity can have a large impact on state revenues. This forecast will be revised in early May when these data and April income tax receipts are available.

The state's tax system is outlined in Figure REV-02. Tax collections per capita and per \$100 of personal income are displayed in Schedule 2 in the Appendix. The revenue generated from each state tax from 1970-71 through 2008-09 is displayed in Schedule 3 in the Appendix.

Retail Sales and Use	Sales or lease of taxable item	5.75% ¹⁴	Equalization	See below ¹⁴

¹ Min. tax \$800 per year for existing corporations. New corporations are exempt from the min. tax for the first two years.

² This tax is levied at the combined rate of 10 cents/pack of 20 cigarettes for the General Fund, 25 cents/pack for the Cigarette and Tobacco Products Surtax Fund, 2 cents/pack for the Breast Cancer Fund, and 50 cents/pack for the California Children and Families First Trust Fund.

³ A tax equivalent to the tax on cigarettes. The rate reflects the 50 cents/pack established by the California Children and Families First Initiative, with funding for Cigarette and Tobacco Products Surtax Fund and California Children and Families First Trust Fund.

⁴ The Fair and Exposition Fund supports county fairs and other activities, the Satellite Wagering Account funds construction of Satellite Wagering Facilities and health and safety repairs at fair sites. Wildlife Restoration Fund and General Fund also receive monies.

⁶ The Economic Growth and Tax Relief Reconciliation Act of 2001 phases out the federal estate tax by 2010. As part of this, the Act eliminates the State pick-up tax beginning in 2005. The federal Act sunsets after 2010; at that time, the federal estate tax will be reinstated along with the State's estate tax, unless future federal legislation is enacted.

⁷ Ocean marine insurance is taxed at the rate of 5 percent of underwriting profit attributable to California business. Special rates also apply to certain pension and profit sharing plans, surplus lines, and nonadmitted insurance.

⁸ Department of Motor Vehicles. Beginning January 1, 1999, vehicle owners paid only 75 percent of the calculated tax, and the remaining 25 percent (offset percentage) was paid by the General Fund. Chapter 74, Statutes of 1999, increased the offset to 35 percent on a one-time basis for the 2000 calendar year. Chapters 106 and 107, Statutes of 2000, and Chapter 5, Statutes of 2001, extended the 35-percent offset through June 30, 2001, and provided for an additional 32.5-percent reduction, which was returned to taxpayers in the form of a rebate. Beginning July 1, 2001, the VLF offset was set at 67.5 percent. From June 30, 2003, through November 18, 2003, the VLF reduction was suspended. On November 17, 2003, Governor Schwarzenegger rescinded the suspension, thereby reinstating the offset. Effective January 1, 2005, the VLF rate is 0.65 percent.

⁹ For return to cities and counties. Trailer coach license fees are deposited in the General Fund.

¹⁰ For administrative expenses and apportionment to State, counties and cities for highways, airports, and small craft harbors.

¹¹ For support of State Department of Motor Vehicles, California Highway Patrol, other agencies, and motor vehicle related programs.

¹² For State highways and State Department of Motor Vehicles administrative expense. Chapter 861, Statutes of 2000, replaced the fee schedule for trucks, based on the unladen weight of commercial trucks and trailers, with a new schedule based on the gross weight capacity of trucks alone, in order to comply with the International Registration Plan standards. Chapter 719, Statutes of 2003, increased weight fees to achieve revenue neutrality as specified in Chapter 861.

¹³ Average property tax rate in the State during preceding year.

¹⁴ Includes a 5 percent rate for the State General Fund, a 0.25 percent rate for the Economic Recovery Fund, and a 0.50 percent rate for the Local Revenue Fund.

MAJOR REVENUE PROPOSALS

- Sell \$3.3 billion of Economic Recovery Bonds in the current year.
- Transfer \$1.5 billion from the Budget Stabilization Account to the General Fund in the current year and eliminate the \$1.5 billion transfer to the Budget Stabilization Account in the budget year.
- Accrual of \$2.0 billion in June personal income tax and corporate tax in 2008-09.
- Reinstate the 12-month use tax requirement for vehicles, vessels, and aircraft.
- Augment the Franchise Tax Board's budget in order to help address the tax gap, prevent fraudulent refund claims, and address growth in the audit workload.
- Augment the Board of Equalization's budget to help improve tax compliance.

GENERAL FUND REVENUE

General Fund revenues and transfers represent 79 percent of total revenues reported in the Governor's Budget. The remaining 21 percent are special fund revenues dedicated to specific programs.

PERSONAL INCOME TAX

The personal income tax is the state's largest single revenue source, representing 54.9 percent of all General Fund revenues and transfers in 2008-09. Income tax revenues are expected to increase by 1.4 percent for 2007-08 and 7.2 percent for 2008-09. The estimate includes \$28 million in additional revenues from redirecting Franchise Tax Board rent savings to revenue generating purposes in both 2007-08 and 2008-09. Budget year revenues also include a one-time acceleration of \$1.2 billion from bringing the tax revenue accruals into conformity with Generally Accepted Accounting Principles, \$52 million in additional revenues from Franchise Tax Board revenue enhancing measures and \$22 million from additional efforts to reduce the "tax gap." Tax professionals define the tax gap as the difference between what taxpayers should pay and what is actually paid.

Modeled closely on the federal income tax law, California's personal income tax is imposed on net taxable income: that is, gross income less exclusions and deductions. The tax is steeply progressive, with rates ranging from 1 percent to 9.3 percent. Figure REV-03, which shows the percent of total returns and tax paid by adjusted gross income class, illustrates the progressivity. In 2005, the top

14 percent of state taxpayers, those with adjusted gross incomes over \$100,000, paid 83 percent of the personal income tax. Changes in the income of a relatively small group of taxpayers can have a significant impact on state revenues.

Income ranges for all tax rates are adjusted annually by the change in the California Consumer Price Index. This prevents taxpayers from being pushed into higher tax brackets by inflation without a real increase in income. Tax rates apply to total taxable income, after which taxpayers can reduce their gross tax liability by claiming different credits.

An alternative minimum tax, imposed at a rate of 7 percent, ensures that income taxpayers do not make excessive use of deductions and exemptions to avoid paying a minimum level of tax.

Capital gains and stock options have a substantial impact on state revenues. Capital gains reported by taxpayers increased 47 percent in 2005 and 4 percent in 2006; they are expected to be flat in 2007 and then decrease 3 percent in 2008. Figure REV-04 shows the portion of General Fund revenues from capital gains and stock options.

Some personal income tax revenue is deposited into a special fund. Proposition 63, passed in November 2004, imposes a surcharge of 1 percent on taxable income over \$1 million in addition to the 9.3-percent rate. Revenue from the surcharge is transferred to the Mental Health Services Fund for county mental health services. The Proposition requires that 1.76 percent of all income tax revenues received each month be transferred to this fund. Once all tax returns are submitted and verified, the Franchise Tax Board determines how much revenue was

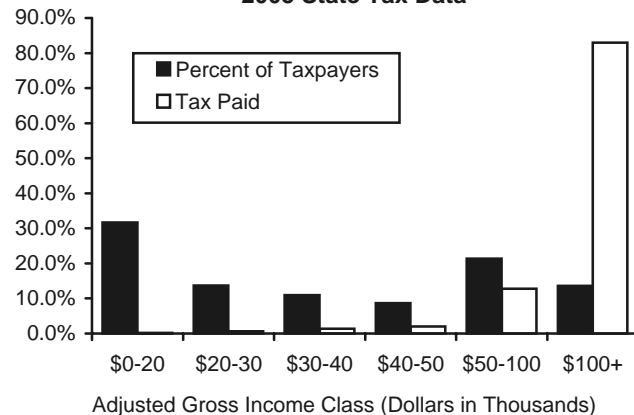

PERCENT OF GENERAL FUND REVENUES AND TRANSFERS

generated by this surcharge; if additional funds are due to the Mental Health Services Fund, a transfer is made from the General Fund. On July 1, 2007, \$424 million for 2005-06 was transferred to the Mental Health Services Fund. It is estimated that

ADDITIONAL INFORMATION

The Franchise Tax Board, which administers the personal income tax and corporation tax, prepares an annual report providing information on income subject to tax, tax rates, tax collections, and taxpayer characteristics. Its website, www.ftb.ca.gov, includes this annual report. Information on personal income tax and corporation tax exclusions, deductions, and credits is also available in the Department of Finance's Tax Expenditure Report, published annually on the Internet at www.dof.ca.gov in "Reports and Periodicals."

Note: Totals may not add due to rounding

2002-03 revenues do not include \$9.242 billion in economic recovery bonds.

2003-04 revenues do not include \$2.012 billion in economic recovery bonds.

\$436 million for 2006-07 will be transferred to the Mental Health Services Fund on July 1, 2008. The actual amount of the transfer will not be known until Spring 2008, when final 2006 tax return data are available. (See the Health and Human Services section for information on expenditures from the Mental Health Services Fund.)

The General Fund and the Mental Health Services Fund shares of personal income tax revenues for 2006-07 through 2008-09 are shown in Figure REV-05.

Figure REV-05

Mental Health Services Fund	1,375,000	1,493,000	1,565,000
Total	\$53,318,287	\$54,174,000	\$58,023,000

SALES AND USE TAX

Receipts from sales and use taxes, the state’s second largest revenue source, are expected to contribute 28.4 percent of all General Fund revenues and transfers in 2008-09. Figure REV-06 displays sales and use tax revenues for the General Fund, as well as special state funds, for 2006-07 through 2008-09.

The sales tax applies to sales of tangible personal property in California; the companion use tax applies to property purchased outside the state for use within California. Most retail sales and leases are subject to the tax. Exemptions from the tax for necessities such as food for home consumption, prescription drugs, and electricity make the tax less regressive. Other exemptions provide tax relief for purchasers of particular products — e.g., farm equipment, custom computer programs, or materials used in space flights.

The largest single component of the sales tax base is new motor vehicle sales, accounting for 11.5 percent of all sales in 2005. Other transportation purchases and fuel sales represented 19.7 percent and 8.6 percent of all sales, while building-related purchases accounted for 14.3 percent. Detailed taxable sales data by component is not yet available for all of 2006.

REVENUE ESTIMATES

SALES AND USE TAX REVENUE

(IN BILLIONS)

2006-07 (Preliminary)	\$27.445
2007-08 (Forecast)	\$27.689
2008-09 (Forecast)	\$29.215

Taxable sales grew by an estimated 4.0 percent in 2006 (fourth quarter 2006 sales tax data is preliminary). Preliminary data for the first three quarters indicate that taxable sales for the year are expected to grow by only 0.9 percent in 2007. The slowdown in 2007 is attributed primarily to the weak housing market. Taxable sales are anticipated to recover somewhat in 2008 as the housing market begins to improve, increasing by 3.4 percent over 2007 sales. In 2009, growth of 4.6 percent is expected.

ADDITIONAL INFORMATION

The Board of Equalization, which administers the sales and use tax, tobacco tax, alcoholic beverage taxes, and fuel taxes provides additional information in its annual report, which is available on its website, www.boe.ca.gov. Information on sales tax exemptions is included in the Department of Finance's Tax Expenditure Report, published annually on the Internet at www.dof.ca.gov in "Reports and Periodicals."

Sales and use tax revenues are forecast relating taxable sales to economic factors such as income, employment, housing starts, new vehicle sales, and inflation. The estimate for 2008-09 includes \$21 million in additional General Fund revenues from making permanent the use tax on vessels, vehicles, and aircraft brought into the state less than one year from purchase. Another \$57.7 million in General Fund revenue will result from certain measures adopted by the Board of Equalization intended to increase tax revenues and reduce the tax gap.

Current law requires that a portion of the sales tax on gasoline and diesel fuel go to the Public Transportation Account (PTA) and the Mass Transportation Fund

(MTF). (The transportation community refers to the gasoline tax portion of this as “spillover” sales tax revenues.) In 2007-08, the first \$622 million of spillover revenues that would otherwise be transferred to the PTA will be transferred to the MTF. Starting in 2008-09, half of all spillover revenues, or an estimated \$455 million in 2008-09, will be transferred to the MTF. Including the sales tax on diesel fuel, an estimated \$1.158 billion in sales tax revenue will go to the PTA and MTF in 2007-08, and an estimated \$1.343 billion in 2008-09. Spillover revenues have increased substantially in recent years as gasoline prices have risen.

Figure REV-07 displays the individual elements of the state and local sales tax rates.

Figure REV-08 shows combined state and local tax rates for each county.

Figure REV-07

State and Local Sales and Use Tax Rates

State Rates

General Fund	4.75% or 5.00%	Pursuant to Sections 6051.3 and 6051.4 of the Revenue and Taxation Code, this rate is 5%, but may be temporarily reduced by 0.25% if General Fund reserves exceed specified levels. During 2001, the rate was 4.75%, and during 2002 and thereafter, this rate is 5.00%.
Local Revenue Fund	0.50%	Dedicated to local governments to fund health and social services programs transferred to counties as part of 1991 state-local realignment.
Economic Recovery Fund	0.25%	Beginning on July 1, 2004, a new temporary 0.25% state sales tax rate was imposed, with a corresponding decrease in the Bradley-Burns rate. These revenues are dedicated to repayment of Economic Recovery Bonds. Once these bonds are repaid, this tax will sunset and the Bradley-Burns rate will return to 1%.

Local Uniform Rates¹

Bradley-Burns	0.75% ² or 1.00%	Imposed by city and county ordinance for general purpose use. ³
Transportation Rate	0.25%	Dedicated for county transportation purposes.
Local Public Safety Fund	0.50%	Dedicated to cities and counties for public safety purposes. This rate was imposed temporarily by statute in 1993 and made permanent by the voters later that year through passage of Proposition 172.

Local Add-on Rates⁴

Transactions and Use Taxes	up to 2.00%	May be levied in 0.125% or 0.25% increments ⁵ up to a combined maximum of 2.00% in any county. ⁶ Any ordinance authorizing a transactions and use tax requires approval by the local governing board and local voters.
----------------------------	-------------	--

¹ These locally-imposed taxes are collected by the State for each city and county and are not included in the State's revenue totals.

² The 1 percent rate was temporarily decreased by 0.25 percent on July 1, 2004, and a new temporary 0.25 percent tax imposed to repay Economic Recovery Bonds. Cities and counties will receive additional property tax revenues equal to the 0.25 percent local sales tax reduction.

³ The city tax constitutes a credit against the county tax. The combined rate is never more than 1 percent in any area (or 0.75 percent during the period when Economic Recovery Bonds are being repaid).

⁴ These taxes may be imposed by voters in cities, counties, or special districts. The revenues are collected by the State for each jurisdiction and are not included in the State's revenue totals.

⁵ Increments imposed at 0.125 percent are only allowed when revenues are dedicated for library purposes.

⁶ An exception to the 2 percent maximum is Los Angeles County, which may impose up to 2.5 percent.

CORPORATION TAX

Corporation tax revenues are expected to contribute 11.6 percent of all General Fund revenues and transfers in 2008-09. After growth of 8.2 percent in 2006-07, corporation tax revenues are expected to decline 4.3 percent in 2007-08, and grow 11.8 percent in 2008-09. The 2008-09 estimate includes a one-time acceleration of \$847 million from bringing the tax revenue accruals into conformity with Generally Accepted Accounting Principles and \$14 million from additional efforts to reduce the tax gap.

**CORPORATION TAX REVENUE
(IN BILLIONS)**

2006-07 (Preliminary)	\$11.158
2007-08 (Forecast)	\$10.675
2008-09 (Forecast)	\$11.937

Corporation tax revenues are derived from the following sources:

- The franchise tax and the corporate income tax are levied at a rate of 8.84 percent on net profits. The former is imposed on corporations that do business in California, while the latter is imposed on corporations that derive income from California sources without doing business in the state. For example, a corporation that maintains a stock of goods in California to fill orders taken by independent dealers would be subject to the corporate income tax.
- Corporations that have a limited number of shareholders and meet other requirements to qualify for state Subchapter S status are taxed at a 1.5-percent rate rather than the 8.84 percent imposed on other corporations.
- Banks and other financial corporations pay the franchise tax plus an additional 2-percent tax on net income. This “bank tax” is in lieu of local personal property and business license taxes.
- The alternative minimum tax is similar to that in federal law. Imposed at a rate of 6.65 percent, the alternative minimum tax ensures that corporate taxpayers do not make excessive use of deductions and exemptions to avoid paying a minimum level of tax.
- A minimum franchise tax of \$800 is imposed on corporations subject to the franchise tax, but not on those subject to the corporate income tax.
- A fee is imposed on limited liability companies (LLC) based on total income. The fee ranges from \$900 for LLCs with income between \$250,000 and \$499,000,

REVENUE ESTIMATES

to \$11,790 for LLCs with income of \$5 million or more. LLCs with total income of less than \$250,000 do not pay this fee.

The corporation tax forecast is based on an analysis of California taxable profits, employment rates, proprietors' income, and actual cash receipts.

From 1943 through 1985, corporation tax liability as a percentage of profits closely tracked the corporation tax rate. Since 1986, tax liability as a percentage of profits has dropped below the expected level of 8.84 percent. Increasing S-corporation activity and use of credits have been the primary factors contributing to a divergence between profit and tax-liability growth. Businesses that elect to form as S-corporations pay a reduced corporate rate, with the income and tax liability on that income shifted to the personal income tax.

INSURANCE TAX

Most insurance written in California is subject to a 2.35-percent gross premiums tax. This premium tax takes the place of all other state and local taxes except those on real property and motor vehicles. In general, the basis of the tax is the amount of "gross premiums" received, less return premiums.

The Department of Finance conducts an annual survey to project insurance premium growth. Responses were received this year from a sample representing more than 40 percent of the dollar value of premiums written in California.

In 2006, \$124.8 billion in taxable premiums were reported, an increase of 5.4 percent over 2005. The most recent survey indicates that total premiums will increase by 4.1 percent and 5.3 percent in 2007 and 2008, respectively. As reforms in workers' compensation insurance continue to take effect, taxable premiums from workers' compensation insurance continue to decrease: survey respondents reported declines of 27 percent in 2007 and 9 percent in 2008.

INSURANCE TAX REVENUE (IN BILLIONS)

2006-07 (Preliminary)	\$2.178
2007-08 (Forecast)	\$2.075
2008-09 (Forecast)	\$2.276

ALCOHOLIC BEVERAGE TAXES

In addition to the sales tax paid by retail purchasers, California levies an excise tax on distributors of beer, wine, and distilled spirits.

Alcoholic beverage revenue estimates are based on projections of total and per capita consumption for each type of beverage. Consumption of alcoholic beverages is expected to remain relatively flat over the forecast period.

**ALCOHOLIC BEVERAGE TAX RATES
PER GALLON**

\$0.20 for beer, dry wine, and sweet wine

\$0.30 for sparkling wine

\$3.30 for distilled spirits

Revenues forecasted for 2007-08 and 2008-09 and preliminary 2006-07 collections are shown in Figure REV-09.

Figure REV-09
Beer, Wine, and Distilled Spirits Revenue
(Dollars in Millions)

	2006-07 Preliminary	2007-08 Forecast	2008-09 Forecast
Beer and Wine	\$169.7	\$164.2	\$166.0
Distilled Spirits	<u>164.1</u>	<u>170.0</u>	<u>175.2</u>
Total	\$333.8	\$334.2	\$341.2

CIGARETTE TAX

The state imposes an excise tax of 87 cents per pack of 20 cigarettes on distributors selling cigarettes in California. An excise tax is also imposed on distribution of other tobacco products such as cigars, chewing tobacco, pipe tobacco, and snuff. The rate on other tobacco products is calculated annually by the Board of Equalization based on the wholesale price of cigarettes.

Revenues from the tax on cigarettes and other tobacco products are distributed as follows:

- Ten cents of the per-pack tax is allocated to the state General Fund.
- Fifty cents of the per-pack tax, and an equivalent rate levied on non-cigarette tobacco products, goes to the California Children and Families First Trust Fund for distribution according to the provisions of Proposition 10 of 1998.

REVENUE ESTIMATES

- Twenty-five cents of the per-pack tax, and an equivalent rate levied on non-cigarette tobacco products, is allocated to the Cigarette and Tobacco Products Surtax Fund for distribution as determined by Proposition 99 of 1988.
- Two cents of the per-pack tax is deposited into the Breast Cancer Fund.

Projections of cigarette tax revenues are based on total and per capita consumption of cigarettes while revenue estimates for other tobacco products rely on wholesale price data. The cumulative effect of product price increases, the increasingly restrictive environments for smokers, and state anti-smoking campaigns funded by Proposition 99 revenues and revenues from the Master Tobacco Settlement has considerably reduced cigarette consumption.

Annual per capita consumption (based on population ages 18-64) declined from 123 packs in 1989-90 to 84 packs in 1997-98 and 49 packs in 2006-07. The long-term downward trend in consumption should continue to reduce cigarette tax revenues. Estimated revenues for 2008-09 include \$3.78 million from increased collection efforts at the Board of Equalization.

Figure REV-10 shows the distribution of tax revenues for the General Fund and various special funds for 2006-07 through 2008-09.

Figure REV-10

Tobacco Tax Revenue

(Dollars in Millions)

	2006-07	2007-08	2008-09
	Preliminary	Forecast	Forecast
General Fund	\$115.4	\$116.3	\$119.4

Breast Cancer Fund	23.0	23.0	24.0
California Children and Families First Trust Fund	603.4	601.0	616.0
Cigarette and Tobacco Products Compliance Fund	2.2	1.3	1.2
Total	\$1,078.6	\$1,068.6	\$1,095.6

PROPERTY TAXES

Article XIII A of the State Constitution (Proposition 13) provides that property is assessed at its 1975 fair market value until it changes ownership. When ownership changes, the assessed value is redetermined based on the property's current market value. New construction is assessed at fair market value when construction is completed. A property's base year value may be increased by an inflation factor, not to exceed two percent annually.

Although the property tax is generally considered a local revenue source, the amount of property tax generated each year has a substantial impact on the state budget because local property tax revenues allocated to K-14 schools offset General Fund expenditures. Assessed value growth is estimated based on twice-yearly surveys of county assessors and evaluation of real estate trends. Assessed value is estimated to grow 9.3 percent in 2007-08 and 7.1 percent in 2008-09.

Property taxes received by school districts and reflected in the Department of Education and Community Colleges budgets are significantly below projections used for the 2007-08 Budget. While a recent audit performed by the State Controller (SCO) indicates local allocations of revenues are being performed correctly, the audit did not provide clear indications regarding the reasons why school property tax receipts are less than estimated using assessed value growth. Comparing actual 2006-07 revenues to estimates show supplemental roll revenues (new assessments added after the March 1 lien date) were \$181 million less than estimated, but prior year tax collections made up \$97 million. The SCO audit indicated that \$100 million in more Educational Revenue Augmentation Fund in three counties was shifted to cities and counties than was estimated. The remaining gap is as yet unexplained.

ESTATE/INHERITANCE/GIFT TAXES

Proposition 6, adopted in June 1982, repealed the inheritance and gift taxes and imposed a tax known as "the pick-up tax," because it was designed to pick up the maximum state credit allowed against the federal estate tax without increasing total taxes paid by the estate. The pick-up tax is computed based on the federal "taxable estate," with tax rates ranging from 0.8 percent to 16 percent.

The Economic Growth and Tax Relief Reconciliation Act of 2001 phases out the federal estate tax by 2010. The Act reduced the state pick-up tax by 25 percent in 2002, 50 percent in 2003, 75 percent in 2004, and eliminated it beginning in 2005.

REVENUE ESTIMATES

The provisions of the federal Act sunset after 2010, at which time the federal and state estate taxes will be reinstated.

Some revenues from this tax continue to be collected from estates established prior to 2005.

OTHER REVENUES

INDIAN GAMING: \$430.4 MILLION

The Governor's Budget includes \$430.4 million in General Fund revenue from Indian Gaming in 2008-09. Revenue of \$33.6 million is attributable to compacts already in place. This estimate also includes \$396.8 million from compacts approved in 2007, and assumes that the referenda on the February 5, 2008 statewide ballot result in confirmation of the Legislature's ratification of the four compacts that are subject to referenda.

Revenues of \$100 million from five compacts approved in 2004 are anticipated to be deposited in the State Highway Account in 2008-09. Revenues from these compacts will be securitized by the issuance of bonds and be made available to repay internal transportation borrowings, if litigation preventing the issuance of bonds is resolved favorably.

SPECIAL FUND REVENUE

The California Constitution and state statutes specify into which funds certain revenues must be deposited and how they are to be spent. Special fund revenues consist of

- Receipts from tax levies allocated to specified functions, such as motor vehicle taxes and fees.
- Charges such as business and professional license fees.
- Rental royalties and other receipts designated for particular purposes, such as oil and gas royalties.

Taxes and fees related to motor vehicles comprise about 35 percent of all special fund revenue. The principal sources are motor vehicle fees (registration, weight, and vehicle license fees) and motor vehicle fuel taxes. During 2007-08, it is expected that \$8.8 billion in revenues will be derived from the ownership or operation of motor vehicles, a 2.9 percent increase from 2006-07. About 40 percent of all motor vehicle taxes and fees will be returned to local governments, and the remaining portion will be used for state transportation programs.

MOTOR VEHICLE FEES

Motor vehicle fees consist of vehicle license, registration, weight, and driver’s license fees, and other charges related to vehicle operation. Figure REV-11 displays revenue from these sources from 2006-07 through 2008-09.

The Budget proposes an increase of \$11 per vehicle to the registration fee that provides support for the California Highway Patrol, as well as imposing penalties on those who are late in paying this fee, in line with penalties required under current law for the base registration fee. This will generate approximately \$385 million in revenue in 2008-09 year for partial year implementation, increasing to \$522 million for full-year implementation in 2009-10.

Figure REV-11			
Motor Vehicle Fees Revenue			
(Dollars in Thousands)			
	2006-07	2007-08	2008-09
	Preliminary	Forecast	Forecast
Vehicle License Fees	\$566,900	\$581,208	\$596,391
Realignment	1,701,119	1,748,363	1,793,670
Registration, Weight, and Other Fees	<u>2,852,340</u>	<u>2,971,232</u>	<u>3,547,551</u>
Total	\$5,120,359	\$5,300,803	\$5,937,612

The vehicle license fee (VLF) is imposed on vehicles that travel on public highways in California. This tax is imposed instead of a local personal property tax on automobiles and is administered by the Department of Motor Vehicles. Revenues from this tax, other than administrative costs and fees on trailer coaches and mobile homes, are constitutionally dedicated to local governments.

The number of vehicles in the state, the ages of those vehicles, and their most recent sales price affect the amount of VLF raised. The total number of vehicles in California —autos, trucks, trailers, and motorcycles as well as vehicles registered in multiple states —is estimated to be 32,218,000 in 2007-08 and 32,619,000 in 2008-09. The forecast assumes that there will be 2.427 million new vehicles in 2008-09.

The VLF is calculated on the vehicle’s “market value,” adjusted for depreciation. The motor vehicle schedule is based on an 11-year depreciation period; for trailer coaches it is an 18-year period. A 0.65-percent rate is applied to the depreciated value to determine the fee. Prior to 2005, the rate was 2 percent.

Chapter 87, Statutes of 1991, revised the VLF depreciation schedule and required the Department of Motor Vehicles to reclassify used vehicles based on their actual purchase price each time ownership is transferred. Revenue from this base change is transferred to the Local Revenue Fund for state-local program realignment.

REVENUE ESTIMATES

Chapter 322, Statutes of 1998, established a program to offset a portion of the VLF paid by vehicle owners at the 2 percent rate. The state paid or “offset” a portion of the amount due and taxpayers paid the balance. This General Fund offset gave taxpayers significant tax relief and compensated local governments. A permanent offset of 25 percent of the amount of the VLF owed became operative in 1999. Chapter 74, Statutes of 1999, increased the offset to 35 percent on a one-time basis for the 2000 calendar year. Chapters 106 and 107, Statutes of 2000, and Chapter 5, Statutes of 2001, extended the 35 percent offset through June 30, 2001, and provided an additional 32.5 percent VLF reduction, which was returned to taxpayers in the form of a rebate. Beginning July 1, 2001, the VLF was reduced by 67.5 percent. As the amount paid by taxpayers decreased, the amount backfilled by the General Fund increased.

The VLF reduction was suspended for a 141-day period beginning July 1, 2003. Executive Order S-1-03, issued November 17, 2003, rescinded the offset suspension and directed the Department of Motor Vehicles to reinstate the offset as soon as administratively feasible. Although vehicle owners received refunds that restored the VLF tax relief, there was a gap in payments to local government. This \$1.186 billion loss to local governments was repaid in the 2005 Budget Act.

Chapter 211, Statutes of 2004, eliminated the VLF offset and reduced the VLF tax rate to 0.65 percent so that taxpayers continue to receive the same tax relief they had previously received. Local governments now receive property tax revenues to compensate them for the loss of VLF revenue. In 2004-05 and 2005-06, that replacement revenue was reduced by \$1.3 billion to assist the state.

The Department of Motor Vehicles administers the VLF for trailer coaches that are not installed on permanent foundations. Those that are installed on permanent foundations (mobile homes) are subject to either local property taxes or the VLF. Generally, mobile homes purchased new prior to July 1, 1980, are subject to the VLF. All trailer coach license fees are deposited in the General Fund.

In addition to the VLF, commercial truck owners pay a fee based on vehicle weight. Chapter 861, Statutes of 2000, and Chapter 719, Statutes of 2003, revised the fee schedules to conform to the federal International Registration Plan.

MOTOR VEHICLE FUEL TAXES

The motor vehicle fuel tax, diesel fuel tax, and the use fuel tax are the major sources of funds for maintaining, replacing, and constructing state highway and transportation facilities. Just over one-third of these revenues is apportioned to local jurisdictions for street and highway use.

Gasoline consumption fell by 0.4 percent during 2006-07, due primarily to substantially higher pump prices. Gasoline consumption is expected to increase 2.2 percent in 2007-08 and 1.2 percent in 2008-09.

Because most diesel fuel is consumed by the commercial trucking industry, consumption is affected most significantly by general economic conditions. Diesel fuel consumption grew 3.7 percent in 2006-07, and is expected to rise 4.3 percent in 2007-08 and 4.0 percent in 2008-09.

Motor vehicle fuel tax collections are shown in Figure REV-12.

The motor vehicle fuel tax (gas tax) is collected from distributors when fuel is loaded into ground transportation for transport to retail stations. This fuel is taxed at a rate of 18 cents per gallon. Fuels subject to the gas tax include gasoline, natural gas, and blends of gasoline and alcohol sold for use on public streets and highways.

Figure REV-12
Motor Vehicle Fuel Tax Revenue
(Dollars in Thousands)

	2006-07 Preliminary	2007-08 Forecast	2008-09 Forecast
Gasoline ¹	\$2,848,624	\$2,907,271	\$2,944,094
Diesel	580,896	593,645	618,201
Total	\$3,429,520	\$3,500,916	\$3,562,295

¹ Does not include jet fuel.

Distributors pay the diesel fuel tax, which applies to both pure diesel fuel and blends, at the fuel terminal. Diesel fuel for highway use is taxed at a rate of 18 cents per gallon. Dyed diesel fuel, which is destined for off-highway uses such as farm equipment, is not taxed.

The use fuel tax is levied on sales of kerosene, liquefied petroleum gas (LPG), liquid natural gas (LNG), compressed natural gas (CNG), and alcohol fuel (ethanol and methanol containing 15 percent or less gasoline and diesel fuel). These fuels are taxed only when they are dispensed into motor vehicles used on the highways. Current use fuel tax rates are 18 cents per gallon for kerosene, 6 cents per gallon for LPG and LNG, 7 cents per 100 cubic feet for CNG, and 9 cents per gallon for alcohol fuel. Users of LPG, LNG, or CNG may elect to pay a flat rate of tax based on vehicle weight instead of the per-gallon tax.

REVENUE ESTIMATES

An excise tax of 2 cents per gallon is levied on aircraft jet fuel sold at the retail level. This tax does not apply to commercial air carriers, aircraft manufacturers and repairers, and the U.S. armed forces.

Local transit systems, school and community college districts, and certain common carriers pay 1 cent per gallon on the fuel they use instead of the tax rates described above.
