

Environmental Protection

California Environmental Protection Agency programs restore and protect environmental quality, and protect public health. The Secretary coordinates the state's environmental regulatory programs and ensures fair and consistent enforcement of environmental law, which safeguards the state's residents and promotes the state's economic vitality.

3900 Air Resources Board

The Air Resources Board has primary responsibility for protecting air quality in California. This responsibility includes establishing ambient air quality standards for specific pollutants, administering air pollution research studies, evaluating standards adopted by the U.S. Environmental Protection Agency and developing and implementing plans to attain and maintain these standards. These plans include emission limitations for vehicular and industrial sources established by the Board and local air pollution control districts. The Air Resources Board also has the responsibility, in coordination with the Secretary for Environmental Protection, to develop measures to reduce greenhouse gas emissions to 1990 levels by 2020, pursuant to Chapter 488, Statutes of 2006 (AB 32).

PROGRAM DESCRIPTIONS

15 - MOBILE SOURCE

The Mobile Source Program works to improve air quality by reducing emissions from internal combustion engines as follows:

- Develop, implement and enforce laws and regulations limiting emissions from new and in-use vehicles and assess the effectiveness of established procedures.
- Develop testing and evaluation procedures for vehicles, engines, emission control components, fuel additives and test equipment to ensure that emission standards are met.
- Conduct information and training seminars for vehicle dealers, mechanics, inspectors and members of the public on vehicle emissions and resulting air pollution.
- Develop measures for reducing greenhouse gas emissions from mobile and other sources as required by the California Global Warming Solutions Act of 2006.

25 - STATIONARY SOURCE

The Stationary Source Program works with air pollution control districts and the business and scientific communities to reduce emissions from stationary sources to comply with state and federal laws as follows:

- Develop measures for reducing emissions from stationary and other sources as required by the California Clean Air Act and work with local air pollution control districts to achieve and maintain state and federal ambient air quality standards.
- Identify substances that are toxic air contaminants and develop measures to control their emissions.
- Assist industries wishing to locate or expand in California and provide comments to lead agencies and districts on applications for permits to construct or modify facilities that are major sources of air pollution.
- Develop measures for reducing greenhouse gas emissions from stationary and other sources as required by the California Global Warming Solutions Act of 2006.

35 - SUBVENTION

The Air Resources Board provides subventions to local air pollution control districts in order to encourage and provide support for effective district programs. The state's 35 local air pollution control districts have the primary responsibility for controlling stationary sources of air pollution in California.

3910 California Integrated Waste Management Board

The California Integrated Waste Management Board was abolished pursuant to Chapter 21, Statutes of 2009 (Senate Bill 63, Strickland), effective January 1, 2010. This legislation transferred the programs, responsibilities, and resources to the newly created Department of Resources Recycling and Recovery and the California Environmental Protection Agency.

PROGRAM DESCRIPTIONS

11 - WASTE REDUCTION AND MANAGEMENT

The following program components of the Waste Reduction and Management program were transferred to the Department of Resources Recycling and Recovery, pursuant to Chapter 21, Statutes of 2009 (Senate Bill 63, Strickland) as of January 1, 2010:

- Ensuring that all nonhazardous solid wastes are stored, collected, processed, and disposed of in a safe and environmentally sound manner.
- Participating in the development and maintenance of local solid waste management plans, which describe how each city and county will reduce the amount of solid waste disposed to achieve a 50 percent diversion of waste from landfills.
- Cleaning up solid waste disposal sites for which the responsible party either cannot be identified or is unable or unwilling to pay for timely remediation, and where cleanup is needed to protect health and safety or the environment.
- Reducing the amount of waste generated and promoting composting, recycling, and the use of recycled materials in manufacturing processes.
- Reducing the number of used tires placed in landfills or illegally dumped or stockpiled and promoting technologies that turn waste tires into useful products.
- Reducing the amount of improperly disposed used oil and promoting used oil recycling.
- Reducing electronic waste by providing for the safe and convenient collection and recycling of specified electronic equipment.

Additionally, the enabling legislation transferred the program component to assist schools by incorporating environmental concepts into the California State Science Framework and establishing an integrated systems model to incorporate resource conservation and sustainability into educational materials to the California Environmental Protection Agency.

3930 Department of Pesticide Regulation

The Department of Pesticide Regulation protects public health and the environment by regulating all aspects of the sale and use of pesticides and by promoting reduced-risk pest management strategies. The Department ensures compliance with pesticide laws and regulations through its oversight of County Agricultural Commissioners, who enforce pesticide laws at the local level.

LEGAL CITATIONS AND AUTHORITY

PROGRAM AUTHORITY

10-Pesticide Programs:

Food and Agricultural Code, Divisions 2, 6 and 7.

Business and Professions Code, Division 3, Chapter 14.

MAJOR PROGRAM CHANGES

- The budget includes \$2,576,000 from the Department of Pesticide Regulation Fund to provide reimbursements for support and to enhance the California Department of Food and Agriculture's pesticide analysis capabilities. The pesticide analyses performed by the Department of Food and Agriculture support the Department of Pesticide Regulations' regulatory activities. This request has two components: equipment replacement, and additional new equipment, staffing and associated costs to meet expanded testing needs.

PROGRAM DESCRIPTIONS

10 - PESTICIDE PROGRAMS

The Pesticide Program protects California residents and the environment from adverse pesticide impacts with particular emphasis on the protection of children, vulnerable populations and communities. Specific activities include:

- Evaluating whether to register pesticide products for sale or use in California.
- Assessing the human health risks from pesticides.
- Administering licensing and certification of pest control applicators, businesses, dealers and advisors, including structural pest control operators and companies.
- Collecting and evaluating trends of pesticide use.
- Monitoring pesticide residues in fresh produce, air, ground and surface water, and occupational settings.
- Mitigating human health and environmental hazards from pesticides.
- Overseeing local enforcement of pesticide laws and regulations by the County Agricultural Commissioners.
- Preventing the sale and distribution of unregistered pesticide products and ensuring compliance with mill assessment responsibilities.
- Promoting the implementation of reduced risk pest management policies.

3940 State Water Resources Control Board

The State Water Resources Control Board (State Board) and the nine Regional Water Quality Control Boards (Regional Boards) preserve and enhance the quality of California's water resources and ensure proper allocation and effective use. These objectives are achieved through the Water Quality and Water Rights programs.

Funding provided by the State Water Quality Control Fund and the Federal Trust Fund offsets State operations expenditures for the State Water Pollution Control Revolving Fund.

Loan repayments from public agencies as well as funding provided by the State Water Pollution Control Revolving Fund and the Federal Trust Fund offset local assistance expenditures for the State Water Pollution Control Revolving Fund.

LEGAL CITATIONS AND AUTHORITY

PROGRAM AUTHORITY

10-Water Quality:

California Water Code Section 13000 et seq., and powers delegated to the state by federal water pollution control legislation.

20-Water Rights:

Division 2 of the California Water Code and Title 23 of the California Administrative Code.

PROGRAM DESCRIPTIONS

10 - WATER QUALITY

This program ensures the highest possible quality of water for the state. Specific activities include:

- Formulating, adopting and updating water quality control plans and policies that set standards and provide guidance in water management decisions.
- Monitoring water quality to determine compliance with control plans, permit terms, conditions and water standards; implement the Total Maximum Daily Loads program to address pollution in the state's most seriously impaired water bodies by developing plans that allocate responsibility for reducing pollution.
- Ensuring the waters of the state are not degraded by hazardous waste spills or tank leaks, or by spills or tank leaks from solid and hazardous waste treatment, storage, and disposal facilities.
- Requiring waste dischargers, including storm water dischargers, to prevent and abate water pollution and inspect dischargers to determine compliance with requirements.
- Assisting owners and operators of underground tanks in financing the cleanup of unauthorized releases from their tanks.

20 - WATER RIGHTS

This program ensures that California's water resources are put to beneficial use, while protecting prior rights, water quality and the environment. Specific activities include:

- Allocating the unappropriated waters of the state to ensure water is used in accordance with state laws.
- Maintaining a record of title of appropriative water rights initiated and maintained since 1914, including those for stockponds, livestock and small domestic use ponds.
- Maintaining records of water diversion and use under riparian and pre-1914 rights, stockpond water rights, groundwater extractions in four southern counties, and cessation of, or reduction in, extractions of groundwater by use of water from a contributory source.
- Enforcing permit and license terms and conditions, abate illegal diversions, protect public trust resources, and prevent waste or unreasonable use under all rights.
- Assisting the courts in determining existing rights to surface water throughout the state through court reference and statutory adjudication proceedings, and in determining rights to groundwater through the groundwater adjudication process.

30 - ADMINISTRATION

This program includes management, program and policy direction, budgeting, accounting, human resources, data processing, legislation and public information for department programs, and coordinating with the nine Regional Water Quality Control Boards.

3960 Department of Toxic Substances Control

The Department of Toxic Substances Control protects public health and the environment by regulating hazardous waste management activities, overseeing and performing cleanup activities at sites contaminated with hazardous substances, encouraging pollution prevention and developing environmental protection technologies, and providing regulatory assistance and public education.

Department programs drive the need for infrastructure investment. Thus, each department has a related capital outlay program to support this need. For the specifics on the Department of Toxic Substances Control's Capital Outlay Program, see "Infrastructure Overview."

PROGRAM DESCRIPTIONS

12 - SITE MITIGATION AND BROWNFIELDS REUSE

This program is responsible for implementing the state site cleanup laws and the federal Superfund program. The program currently oversees approximately 1,000 hazardous substances release site investigations and cleanups and monitors long-term operations and maintenance activities at approximately 200 sites where the cleanup process has been completed. Additionally, the department is responsible for ensuring compliance with the terms of the 469 land use restrictions now in place on properties throughout the state.

New sites are identified through surveillance and enforcement efforts, through emergency response activities, by

* Dollars in thousands, except in Salary Range.

3960 Department of Toxic Substances Control - Continued

examination of other previously identified potential sites, and voluntarily by public and private entities requesting departmental oversight to return the properties to productive use. These sites and projects include cleaning up federal and state superfund properties, abandoned mines, other abandoned and underutilized properties known as "brownfields", and open and closed military installations.

The program is responsible for overseeing environmental assessments and cleanups at proposed new or expanding school sites to prevent or reduce potential exposure of students and staff to hazardous materials. The program also is responsible for the Stringfellow Hazardous Waste Site, a former hazardous waste disposal site and federal Superfund Site.

The program works with the California Emergency Management Agency and other state agencies to assure response readiness for acts of terrorism involving the use of toxic chemicals. This program also continues to work closely with other state agencies, the United States Environmental Protection Agency, and local agencies throughout the state to establish and implement viable grant and loan programs to aid in assessment and cleanup of brownfields sites.

13 - HAZARDOUS WASTE MANAGEMENT

The Hazardous Waste Management program regulates the generation, storage, transportation, treatment, and disposal of hazardous waste to minimize risks to public health and the environment. The program oversees 124 permitted facilities managing hazardous waste, approximately 980 registered businesses transporting hazardous waste, over 620 facilities/generators subject to corrective actions, and over \$1.8 billion in financial assurance. The program monitors hazardous waste transfer, storage, treatment, and disposal facilities for illegal activity; including electronic manifest surveillance and monitoring registered hazardous waste transporters; and, enforces hazardous waste requirement violations found through routine inspections, complaint investigations, and other focused enforcement initiatives. The program also ensures compliance with hazardous waste requirements related to electronic waste fraud and certain consumer products including lead in jewelry and toxic substances in packaging.

19 - ADMINISTRATION

The Administration program provides accounting, budgeting, revenue collection, human resource and workforce management, data processing, performance management, business services, and other administrative support to the departmental programs. Administration also supports operations in Sacramento, Clovis, Berkeley, Chatsworth, Cypress, San Diego, and El Centro including two environmental chemistry laboratories located in northern and southern California.

20 - SCIENCE, POLLUTION PREVENTION AND TECHNOLOGY

The Science, Pollution Prevention and Technology program provides scientific leadership in the areas of green chemistry, pollution prevention, and hazardous waste source reduction; analytical and environmental chemistry; biomonitoring; human and ecological exposure and risk assessment; industrial hygiene and workplace safety; innovative environmental technologies development; and nanotechnology issue.

The ongoing program activities provide the scientific basis for informed regulatory enforcement and site clean-up decision-making, as well as supporting governments, businesses, universities, and the public in early detection of toxic substances through biomonitoring and product monitoring, statewide reduction in use of toxic substances and use of safer green chemistry alternatives. The program is also responsible for encouraging independent research of green chemistry alternatives, adopting pollution prevention strategies, evaluating and deploying new environmental technologies, and developing strategies for emerging issues, such as nanomaterials.

21 - STATE AS CERTIFIED UNIFIED PROGRAM AGENCY

The California Environmental Protection Agency designated the Department of Toxic Substances Control as the Certified Unified Program Agency (CUPA) in Trinity and Imperial Counties. As the CUPA, the department is responsible for implementing the six elements of the Unified Program: hazardous waste generator and onsite treatment activities, spill prevention control and countermeasure plans for owners of aboveground petroleum storage tanks, underground storage tank program, hazardous material release response plans and inventories, California Accidental Release Prevention program, and certain Uniform Fire Code requirements pertaining to hazardous material management plans and inventories.

INFRASTRUCTURE OVERVIEW

The Department of Toxic Substances Control leases ten facilities throughout California. These facilities include space for offices, specialized fieldwork, sample and field equipment storage, two environmental chemistry laboratories, and an information center for the Stringfellow Hazardous Waste Landfill Superfund site. These facilities comprise a total of approximately 420,235 square feet located in Sacramento, Clovis, Berkeley, Chatsworth, Los Angeles, Glen Avon, Cypress, San Diego, and El Centro.

3980 Office of Environmental Health Hazard Assessment

The Office of Environmental Health Hazard Assessment protects and enhances public health and the environment through objective scientific evaluation of risks posed by hazardous substances. The Office performs risk assessments for various regulatory programs under the California Environmental Protection Agency, as well as other state and local agencies, and provides these programs with the scientific tools and information upon which to base risk management decisions. Distinct programs focus on assessing health risks, including risks to children and other sensitive subpopulations, from exposure to chemicals in air, water, food, consumer products, hazardous and municipal waste facilities, fish and shellfish, and sediments in bay and estuarine waters.

PROGRAM DESCRIPTIONS

10 - HEALTH RISK ASSESSMENT

The Health Risk Assessment program provides tools forming the basis for a scientific approach to assessing both health and environmental risks across all environmental exposure sources. The program identifies chemicals with potential to cause adverse health effects, quantifies risks and recommends health-based goals and standards, develops scientific policies and guidelines for hazard identification and risk assessment, and provides medical, scientific, and public health support, consultation, and training to state regulators, local governmental agencies, and the public. This program pays particular attention to protecting the health of infants and children.
